Gustwick Resigns

A. W. 'Tony' Gustwick, '62, has resigned effective this month as Field Secretary of the Ex-Students Association.

Gustwick will enter the Medical Service Corps of the U. S. Army as a Second Lieutenant this month. He will be stationed at Fort Sam Houston at San Antonio for eight weeks. His tour of duty is for two years.

Gustwick, whose hometown is Yoakum, is a member of the Masonic Lodge, Alpha Phi Omega, and the Texas Tech Century Club. He served as student chairman of the Homecoming Committee in 1960, and majored in Industrial Management and Industrial Engineering.

Tony is married to the former Betsy Grimes, '62, of Carrollton and they have one son, Robert, age six months.

President Earl Fuson said: "Tony has been a very hard and tireless worker for the Association and Texas Tech. Through his efforts, the Association has been able to undertake several new activities. We hate to see him leave the Association, but wish him well on his tour of duty with the U. S. Army."

"During the last 10 months the Association has been able to take great strides forward. Much of this is attributed to the outstanding work of Tony Gustwick. It has been a great pleasure for me to have worked with him. He has done an outstanding job and we shall miss him," Wayne James, executive director, said.

At its last meeting the Executive Board expressed its approval on the Field Secretary's work. The position was vacant from April, 1960, until Gustwick was employed June 1, 1962.

James has been authorized to accept applications for the position of Field Secretary. Persons interested in applying for the position should contact him at the Ex-Students Association Office.

Wayne James

ON THE COVER

Our cover this month features two prospective Tech students who are children of Tech exes. Dressed in their Easter finery are Greg Gentry, 5, son of Mr. and Mrs. Jimmy G. Gentry, 4912-6 16th, class of 1958, and Kelly Aker, also 5, daughter of Mr. and Mrs. Jerry L. Aker, 4806 45th, class of 1958, both of Lubbock.

Photo by Jim Davidson

Second-class postage paid by the TEXAS TECHSAN at Lubbock, Texas. Published in February, April, June and August to December inclusive by the Ex-Students Association of Texas Technological College, Lubbock, Texas. Subscription rate is \$3 per year. Change of address should be sent to the Association offices 30 days prior to date of issue with which it is to take effect. Advertising rates on request. All advertising is handled through the Association office.

Massachusetts Mutual Home Office

Texas Tech men in good company

Ask any alumnus who's a Massachusetts Mutual policyholder. (And there are lots of them!) He'll tell you Mass Mutual is an outstanding company.

It's dynamic growth is reflected in the fact its assets are now over 2.7 billion dollars.

Its life insurance policies are known for their *built-in quality* — progressive, liberal, flexible.

And its representatives are of top calibre.

For instance, *nine times* as many Mass Mutual men are members of the Million Dollar Round Table as the industry average. *Six times* as many have received the industry's National Quality Awards.

And *four times* as many have earned the Chartered Life Underwriter designation.

Furthermore, the achievements of Mass Mutual representatives are reflected in their own incomes. Over a hundred Mass Mutual men are now *averaging* \$30,000 a year. *In our entire sales force, men with 5 years or more experience are averaging close to \$14,000.*

If *your* job isn't pointing to the kind of future you feel you deserve, let us tell you more about a career with Mass Mutual. Just write a personal letter about yourself to *Charles H. Schaaff, President, Massachusetts Mutual Life Insurance Co., Springfield, Mass.* It could well be the most important letter you've ever written.

Some of the Texas Tech Alumni in Massachusetts Mutual Service:

Fred McClain, '53—Lubbock
Spencer Blocker, '54—Lubbock
Jesse C. Chambers, '54—Lubbock

Bobby L. Rains, '54—Lubbock
Charles Don Brice, '57—Lubbock
James C. McClain, '60—Lubbock

Annual

CLASP Drive Underway

Texas Tech has joined with 21 other schools in five Texas cities in a CLASP (College Loyalty Alumni Support Program) drive in a concentrated campaign among their Ex-Students for financial support.

This spring Tech will participate in CLASP programs in Abilene, Amarillo, Dallas, Austin and Tyler.

CLASP is a cooperative effort by the local alumni of colleges and universities — private, denominational, and public — joining forces to strengthen higher education in Texas and the Southwest and at the same time assisting their respective alma maters. The heart of the program is a simultaneous, coordinated fund drive among these ex-students.

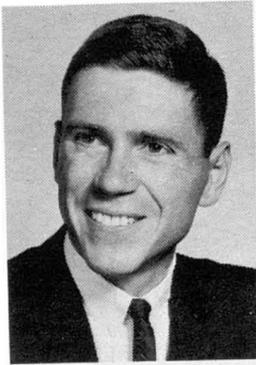

CLASP has as its purpose and objectives:

- (1) To dramatize the values and needs of higher education
- (2) To increase the number of alumni donors and dollars for each of the participating schools
- (3) To demonstrate that private and public institutions can work together on a common problem
- (4) To stimulate a healthy spirit of competition among the local alumni of each institution
- (5) To set an example which the participating institutions might extend to other cities.

CLASP, the first cooperative alumni giving program in Texas, was begun in Abilene in 1961. It was so successful, it was repeated there and expanded into Austin in 1962.

Ex-Students of participating colleges living in each of the cities organize themselves on behalf of their institutions and will solicit their fellow alumni during the two-week period.

Abilene

Tech Loyalty Fund during the campaign.

This was the third year for CLASP in Abilene. Previous high percentage of participation for Tech was 44 per cent.

Frank Calhoun '56, prominent Abilene attorney and second vice president of the Ex-Students Association, was chairman for Tech. Calhoun, who was very active in student activities at Tech, is married to the former Doris Wample, '56.

Volunteer workers who contacted other Tech Exes were:

Ralph Hooks '40, Leroy Bell '59, J. B. Fraley '58, Guy R. (Bob) Beckham '56, S. S. (Sid) McKinney, '42, Hart Shoemaker '41, Sam Hill '38, Hal Pender '44, Fred J. Schultz '50, John Conley '49, Leroy Crews '49, John A. Wright '40, David Bourland '60, James S. Lauderdale '34, and Robert (Bob) Montgomery '43.

Amarillo

At press time forty-two per cent of the 385 Tech Exes in Amarillo had made a gift to the Loyalty Fund during Amarillo CLASP, which was held from February 18-March 4.

Andy Behrends, '51, agency manager for Travelers Insurance Company, was chairman for Tech. Behrends is on the Loyalty Fund Board of Trustees and is the immediate past president of the Amarillo Chapter of the Ex-Students Association. Behrends, ac-

Drive covers five cities over state for more funds.

tive in student government while at Tech, was a member of Pi Kappa Alpha and Alpha Zeta. He is married to the former Wanda J. Kitten, '51.

Team Captains in the Amarillo Drive were:

Ben Bruckner '53, Andy Willingham '49, T. M. Cox '50, David Leaverton '51, Herman Northrup '59, and Gene Southall '49.

Volunteer workers were:

Marvin Bones '51, Bob Dowell '40, Olen Wilson '53, Dale Thut '50, Pat Cunningham '41, Noel Cooksey '52, Loyd Allen '59, Ed Donelson '41, Carl Benson '58,

Larry Daniel '50, Joe Mosely '54, Bill McClendon '55, Stan Dendy '49, Del Shearer '55, O'Brien Thompson '31, Guy Blanton '30, Walker Nickols '36, Mike Montgomery '61,

Weldon McClure '51, Joe Scales '55, Cobb Miller, George Schlinkman '40, I. E. Brown '52, Joe L. Martin '55, J. P. Webster '56, Morris Cline '52, Carr Barnette '61,

Tommy Hewlett '51, Paul Ortosky '59, Bob Boyd '58, Bill Behrends '58, Roy Bulls '48, Ross Glaze '49, Allen King '41, Bob Carnahan '50, Jim Hedgecoke '61.

Tech President R. C. Goodwin, Vice President for Business Affairs M. L. Pennington, Ex-Students Association Executive Director Wayne James and Field Secretary A. W. "Tony" Gustwick were present at the kick-off dinner in Amarillo on February 18 and for the meeting of Tech Exes following the dinner.

Dallas

Kenneth P. Dowell, '44, has been named chairman for the Tech participation in the Dallas CLASP drive.

Dowell, who received a B.S. in Electrical Engineering, is manager of corporate services for Texas Instruments Inc. Ken, who was president of his senior class, is immediate past president of the Dallas Chapter, district representative to the Ex-Students Association Council for Dallas, and is a member of the Texas Tech Century Club. He is on the board of directors of the Cotton Bowl Athletic Association, a founder and director of the Special Care School for Handicapped Children in Dallas and is quite active in numerous professional, civic and church activities in Dallas.

The kick-off dinner for Dallas CLASP was held on Monday, March 18 in SMU Coliseum. Approximately 100 volunteer workers for Tech and their wives and dates attended. President R. C. Goodwin, Wayne James, and Tony Gustwick met separately with the Tech Exes following the dinner.

Tech is one of 23 schools participating in Dallas CLASP. James Aston, president of the Republic National Bank in Dallas, is general chairman for Dallas CLASP.

Austin

Tech Exes in Austin are determined to have 100 per cent participation in Austin CLASP in 1963. In 1962 Tech finished third with 76 per cent participation, an increase of 66 per cent over 1961.

Pat Thurman, '50, a Silver Key (Phi Delta Theta) and cheerleader at Tech, has accepted chairmanship for Tech again this year. Pat, sales representative for the Recordak Corporation, is married and has one daughter, Ingrid, who will attend Tech next fall. Pat is a past president of the Austin Chapter.

Assistant chairman of Austin CLASP for Tech is John F. Nixon, '50. John, a supervising de-

signing engineer for the Texas Highway Dept., is married to the former Billie Doris White, '52, and they have three children. He is a member of Alpha Phi Omega, service fraternity, and president of the Austin Chapter.

Former Governor Price Daniel is general chairman for Austin CLASP, which will be held April 18-May 2. Twenty-two schools will take part in the campaign.

Thurman and Nixon have not announced a list of the volunteer workers for Tech at press time.

Tyler Area

Bill Bales, '53, has been named chairman for Texas Tech in the CLASP campaign scheduled in May in the Tyler-Kilgore-Longview area.

Bales, immediate past president of the East Texas Chapter and a member of the Texas Tech Loyalty Fund Board of Trustees, is employed by Humble Oil & Refining Co. He is married to the former Peggy Floyd, '54. The Bales are members of the Texas Tech Century Club.

At Tech Bales had many honors, including being president of his junior and senior classes, and Kappa Sigma and Saddle Tramps. He was elected Mr. Texas Tech.

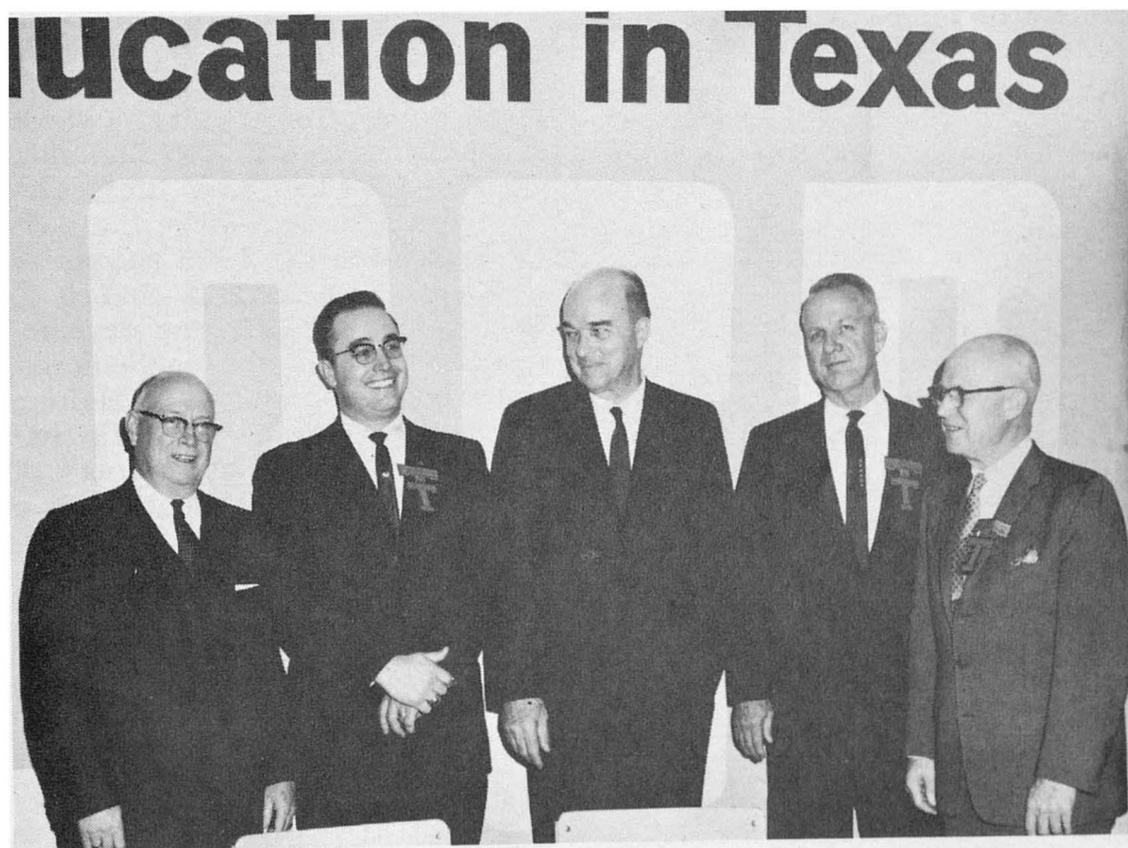

The East Texas CLASP will be held May 6-18. A list of the Tech Exes working in the drive will be announced later.

Each of the 25 Tech Exes employed by Shamrock Oil & Gas Corporation made a gift during the campaign. The special solicitation of the Shamrock employees was assisted by James L. Hill, secretary, and C. A. Cash, president, both Tech Exes. Shamrock matched their employees' gifts to the Loyalty Fund dollar-for-dollar.

Techsans

SUPPORT OUR ADVERTISERS

When you do business with a firm who advertises in the association magazine, mention to them that you saw their advertising and that you appreciate their support of the publication.

Amarillo CLASP workers are, left to right, J. Harold Dunn, chairman of the board, Shamrock Oil & Gas Corp., and chairman of Amarillo CLASP; Andy Behrends, '53, volunteer chairman for Texas Tech; Eric Jonsson, chairman of the board for Texas Instruments, Inc., and speaker for the kick-off dinner; M. L. Pennington, Tech vice president for business affairs, and Dr. R. C. Goodwin, Tech president.

with bill holmes

Through the first month of basketball play the Red Raiders seemed the team least likely to succeed in breaking any records—at least any marks of a positive nature.

But look what Coach Gene Gibson's Raiders did after losing their first seven contests:

Set new accuracy marks for field goal shooting as a team in both conference and all-season play,

Had a player do the same,

Finished in a tie for fifth place with Southern Methodist, the team that returned considerably more from the squad that shared the Southwest Conference championship with Texas Tech in 1962.

By connecting on 45.5 per cent of their field goal tries of the season, Raiders broke the record set by the 1958 team of 44.1 per cent. In conference play the Raiders clicked on 48 per cent of their tries, bettering the mark of 45.2 established in 1960 and tied last year.

Bobby Gindorf, the lone senior in the starting lineup, is the fellow who set the all-time individual accuracy mark. Bobby, a 6-4 forward from Pampa, who uses plastic contact lenses to bring the basket closer for his 20-foot-plus push shots, succeeded on 57 per cent of his field goal tries in conference play, surpassing Roger Hennig's figure of 55 per cent set in 1961. For the season Gindorf toppled another of Hennig's marks, 51 per cent in 1960, by making 55 per cent of his attempts.

Figures can be confusing, but if Gindorf's marks don't impress you, station yourself about 20 feet from the basket in the nearest gym and shoot 144 times. If, even unhindered by a unkindly remark or someone's waving arms, you can make 82 baskets, run don't walk to Coach Gibson or Charlie Lynch and let them check your

eligibility. You, too, can win an athletic scholarship.

Life wasn't all a maze of statistics during the past cage season.

To one person's way of thinking, here were some of the thrills:

Tech's breaking its losing streak by winning on the road, via a good rally, over TCU 69-66 . . . Mike Gooden's scoring 21 points in some 12 minutes of action as a sub against UCLA . . . Bill Murren's out-of-this-world variety of shots, fancy dribbling, and sharp, basket-producing passes (all this while nonchalantly blowing bubble gum balloons) . . . the last gasp shot by Gooden winning the Baylor game just seconds after he lost the ball to the Bears for a Baylor basket and an apparent Bear win at Waco . . .

Continuing: Stirring rallies in the Arkansas game here, an 80-75 over-time victory . . . those shots blocked by Tom Patty (whose mid-term restoration of eligibility gave the Raiders new life), saving the Arkansas contest, the Baylor game, and the 74-73 encounter that cost Rice its last chance to tie for the title . . . the development of a pair of sophomores, Harold Denney and Glen Hallum . . . ball-hawking by Sid Wall that continued the effectiveness of Tech's traditional trademark in a tight spot—the zone press responsible for some of Tech's noteworthy upsets in the past—over North Carolina State and Southern Methodist when both were among the nation's top ten, in the gallant but losing effort in the playoffs against SMU in 1956, to name a few.

What about next year?

Graduating are Gindorf, Gilbert Varnell, and Milton Mickey.

Returning are Denney, Wall, Hallum, Patty, Murren, Gooden, Royce Woolard, Mike Farley, Joe Fox, and Jimmy Lyles.

Up from the freshman team (11-1 for the season) can be John (Dub) Malaise of Odessa, Bob Measels of Seminole, Norman Reuther of Fort Worth, James Adams of Midland, Dave Olsen of Las Cruces, Russ Wilkinson of Lubbock, Billy Tapp of Lubbock, James Stephenson of Borger, David Schmidley of Levelland, Jimmy Elliott of Marshall, Jerry Rawls of Houston, Randall Weatherly of Celeste, and Steve Middleton of Morton.

Looking briefly at the spring sports outlook, Jay McClure's golfers could be one of the surprises in the Southwest Conference, George Philbrick's netmen look ready for another first division finish, Berl Huffman's baseballers, missing three infielders now with the pros, again should be strong, and Don Sparks' trackmen have hopes in the hurdles and mile. Depth will cost the Raiders heavily; yet, the groundwork for one of Tech's strongest track seasons, in 1964, is in evidence.

Sharing the headlines with the spring sports is that fall activity, football.

Texas Tech's spring grid drills conclude April 27, with the annual Red-White game that night. There appears to be the most backfield speed in several years to go along with a good group of linemen. Your Observer likes what he's been seeing, and he knows you'll like what you'll see April 27.

“You don’t look that old, sir”

This reminder of passing years during reminiscence is the mild sort of shock one can laugh about and forget. But also one can use it to take a long, practical look at the future security of his family.

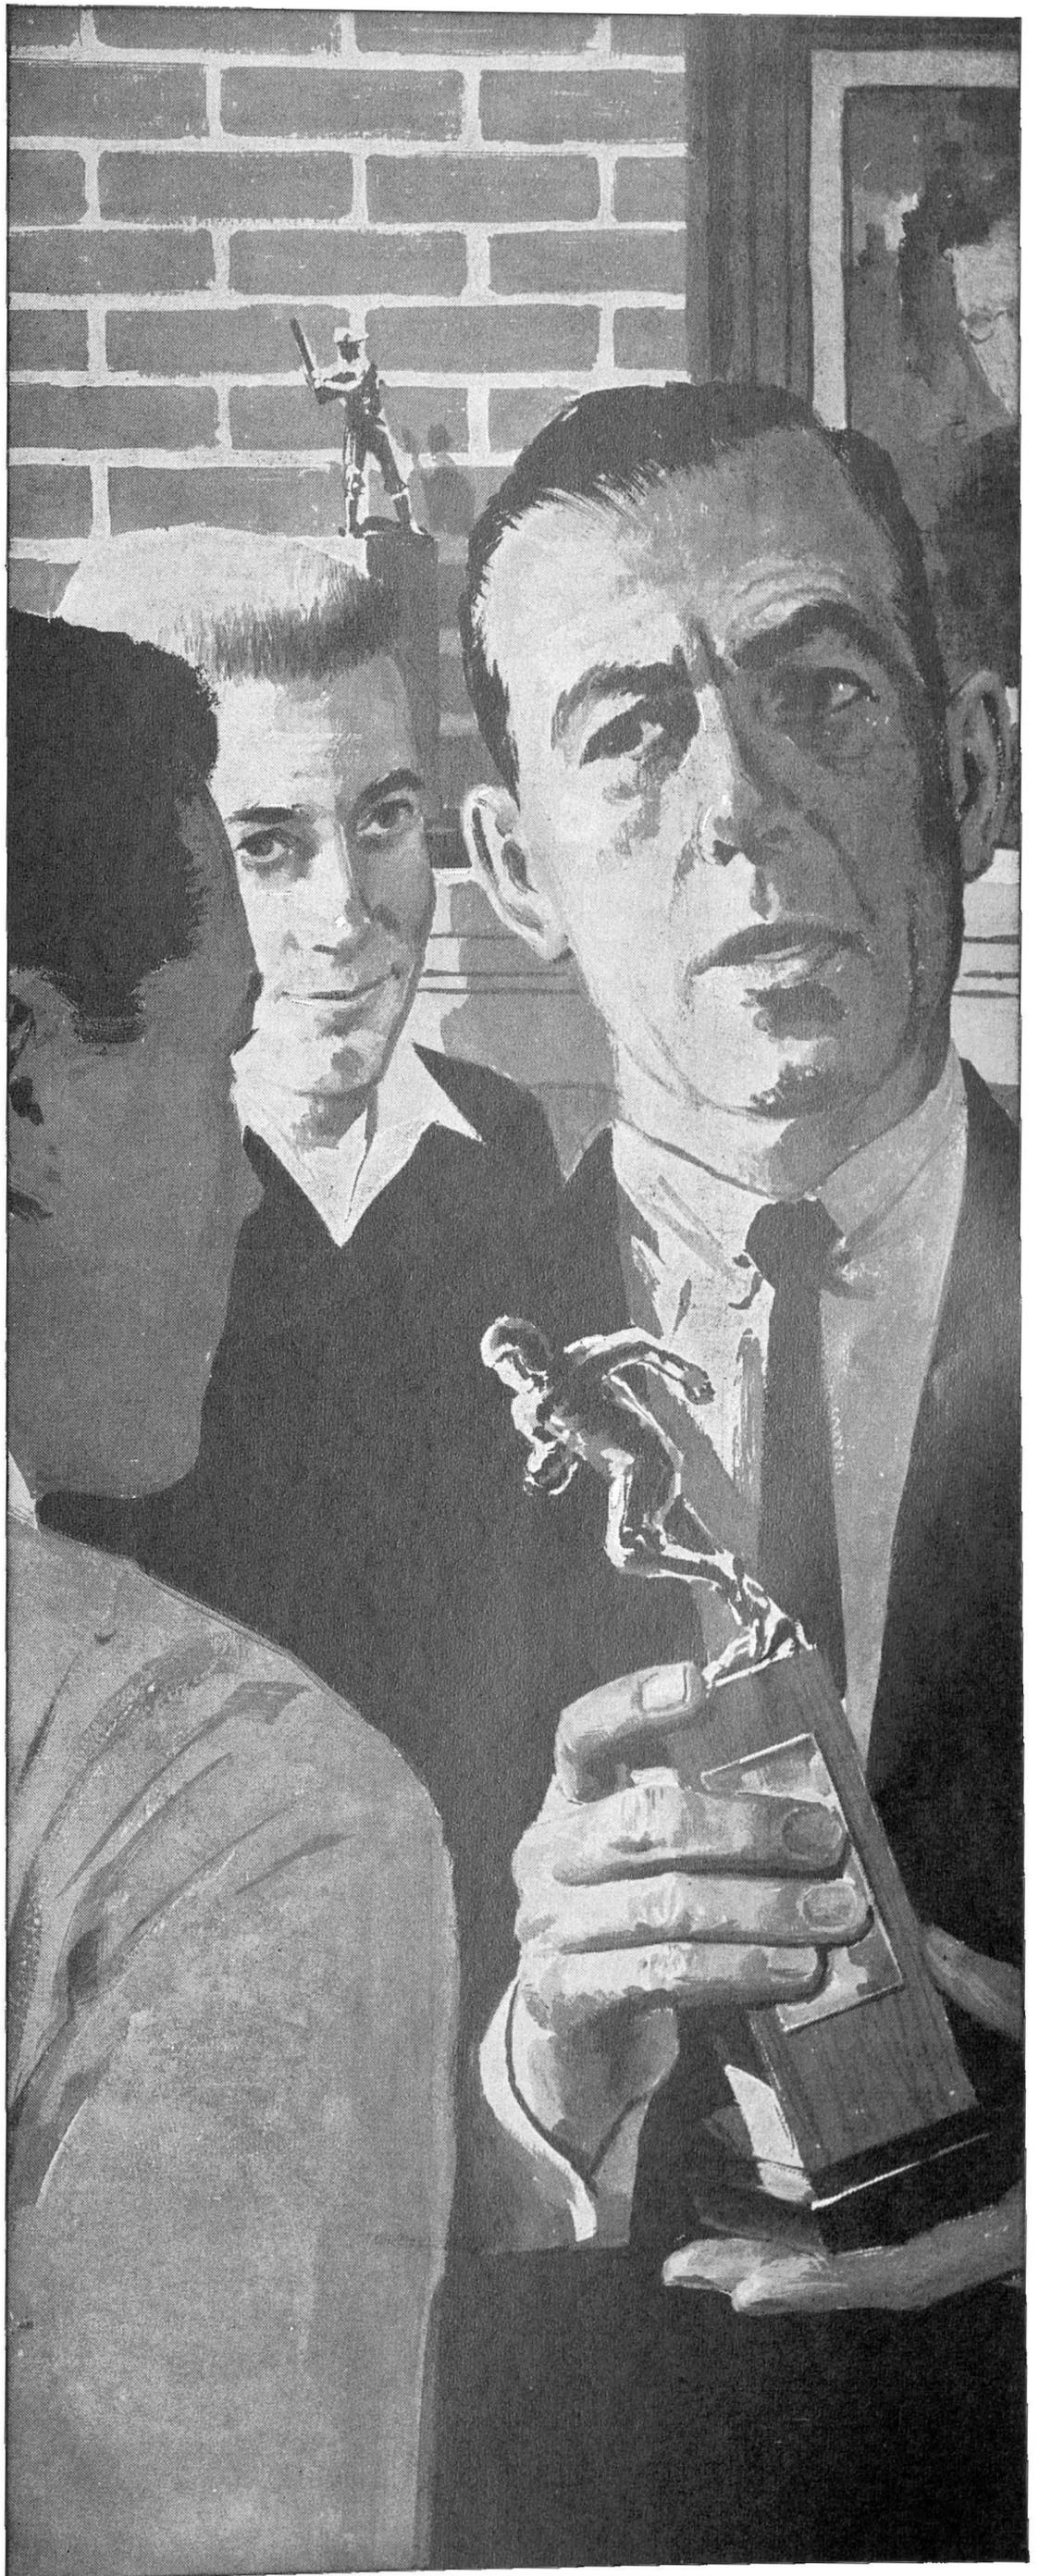

Perhaps you’ve been postponing finding out how much and what kind of life insurance you should own. This could be the time to seek the help of a CML man. He knows how—and he has the tools—to fit life insurance to the precise requirements of your family. What’s more, he doesn’t tell you—he asks you: How much money do *you* want delivered to whom and when and how often?

Actually, your CML agent may be able to show you how to stretch your present life insurance to provide more money at the right times *without increasing its cost one cent!* Talk to him soon. You’ll find him a fine man to do business with.

*Dividends paid to policyholders
for 117 years*

Owned by its policyholders, CML provides high quality life insurance at low cost and gives personal service through more than 300 offices in the United States.

INSURANCE COMPANY • HARTFORD

Current Scene

News briefs about the college, its family, students and ex-students.

By **WAYNE JAMES**

Spring has arrived on the Campus. Classes are dismissed for the annual spring vacation from April 7-15. During this period, the students either go home, go skiing, or head for points south of the border. However, it won't be all play for some of the students, as some of them will stay on Campus to write term reports and make use of the reference material in the Library.

CONNALLY REQUESTS—Governor John Connally asked the Legislature to appropriate \$19,198,469 for Tech to cover the next two years. This figure is roughly \$2,512,000 less than the amount requested by the College.

His recommendation is about \$2,011,000 more than recommended by the Legislature Budget Board but \$416,000 less than requested by the Texas Commission on Higher Education and former Governor Price Daniels.

Of the amount recommended, Tech would receive \$14,958,599 in general revenue. He requested \$100,000 for graduate scholarships and fellowships. If approved, this would be an increase of \$90,400 from the \$9,600 appropriated for the present year.

SPECIAL EXHIBIT — Tech's special contribution to the space effort was unveiled in a special exhibit at the Pentagon last month.

The four-panel display was designed by Dr. Henry Shine and Dr. Wesley Wendlandt, Tech chemistry professors, who have been working on the project since Tech was awarded the \$200,000 molecular research grant by the Air Force Office of Scientific Research last August.

The research on effects of heat on chemicals as related to U.S. space exploration is scheduled to continue over a three-year period.

RANGE RESEARCH—Research on South Texas range problems will be conducted by the College

under a grant received recently from the Welder Wildlife Foundation.

Investigations will center on general problems of livestock - big game relationships. Although the project will study all phases of livestock - game relationships, the first phase will be limited to determining diets of deer and cattle and studying possible competition between the species.

OFFICIALS VISIT — A group of approximately 40 high State officials, headed by Lt. Governor Preston Smith, visited the campus last month to attend a presentation of two years' research on Texas park systems done by the College.

Other officials attending included: House Speaker Bryan Tunnell, Attorney General Waggoner Carr, the House Appropriations Committee, State Parks Board, Senate Finance Committee, Texas Research League and several area Representatives and Senators.

The group also toured the campus of Texas' Second Largest Institution of Higher Education.

ELLE STEPS DOWN — Assistant Dean of Agriculture, Dr. George O. Elle, has asked to be relieved of his Administrative position in order that he can return to a full-time teaching assignment in the College's Department and Park Management on September 1.

In requesting the change, Elle, who has been Assistant Dean since 1956, said that "I feel that I have been isolated from my professional field far too long and am impatient to return to it."

In addition to his teaching assignment, he expects to be active again in research work on High Plains vegetables.

SPRING ENROLLMENT—Enrollment for the spring semester hit the 10,613 mark, a decrease of 570 students from the fall semester.

Although the spring enrollment is traditionally lower, this year's

showed a decrease of 5 per cent of the fall enrollment. The normal decrease is closer to 10 per cent in the spring semester.

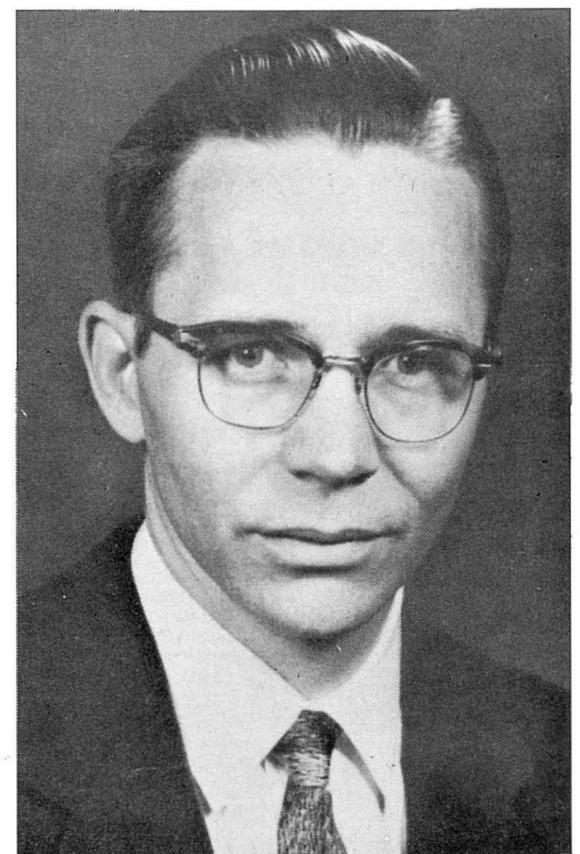

By comparison, in the spring of 1962, 9,669 students registered.

72 DOCTORATES AWARDED — Since the granting of Texas Tech's first doctorate in 1952, 72 students have received doctoral degrees from the Institution.

In addition, at least 207 Tech graduates have received doctorates from other universities from 1929 through 1961.

TECH PROF JOINS U.N.—A Texas Tech associate professor of Agriculture Economics, Dr. Ray Billingsley, has resigned his post and moved to Rome, Italy, where he will become chief of the trade section of the United Nations' Food and Agriculture Organization.

The U.N. position will involve research and travel in areas of the world where good agricultural statistics do not exist. The information will be used as a service to the people who engage in inter-

Ray Billingsley

INNOVATOR

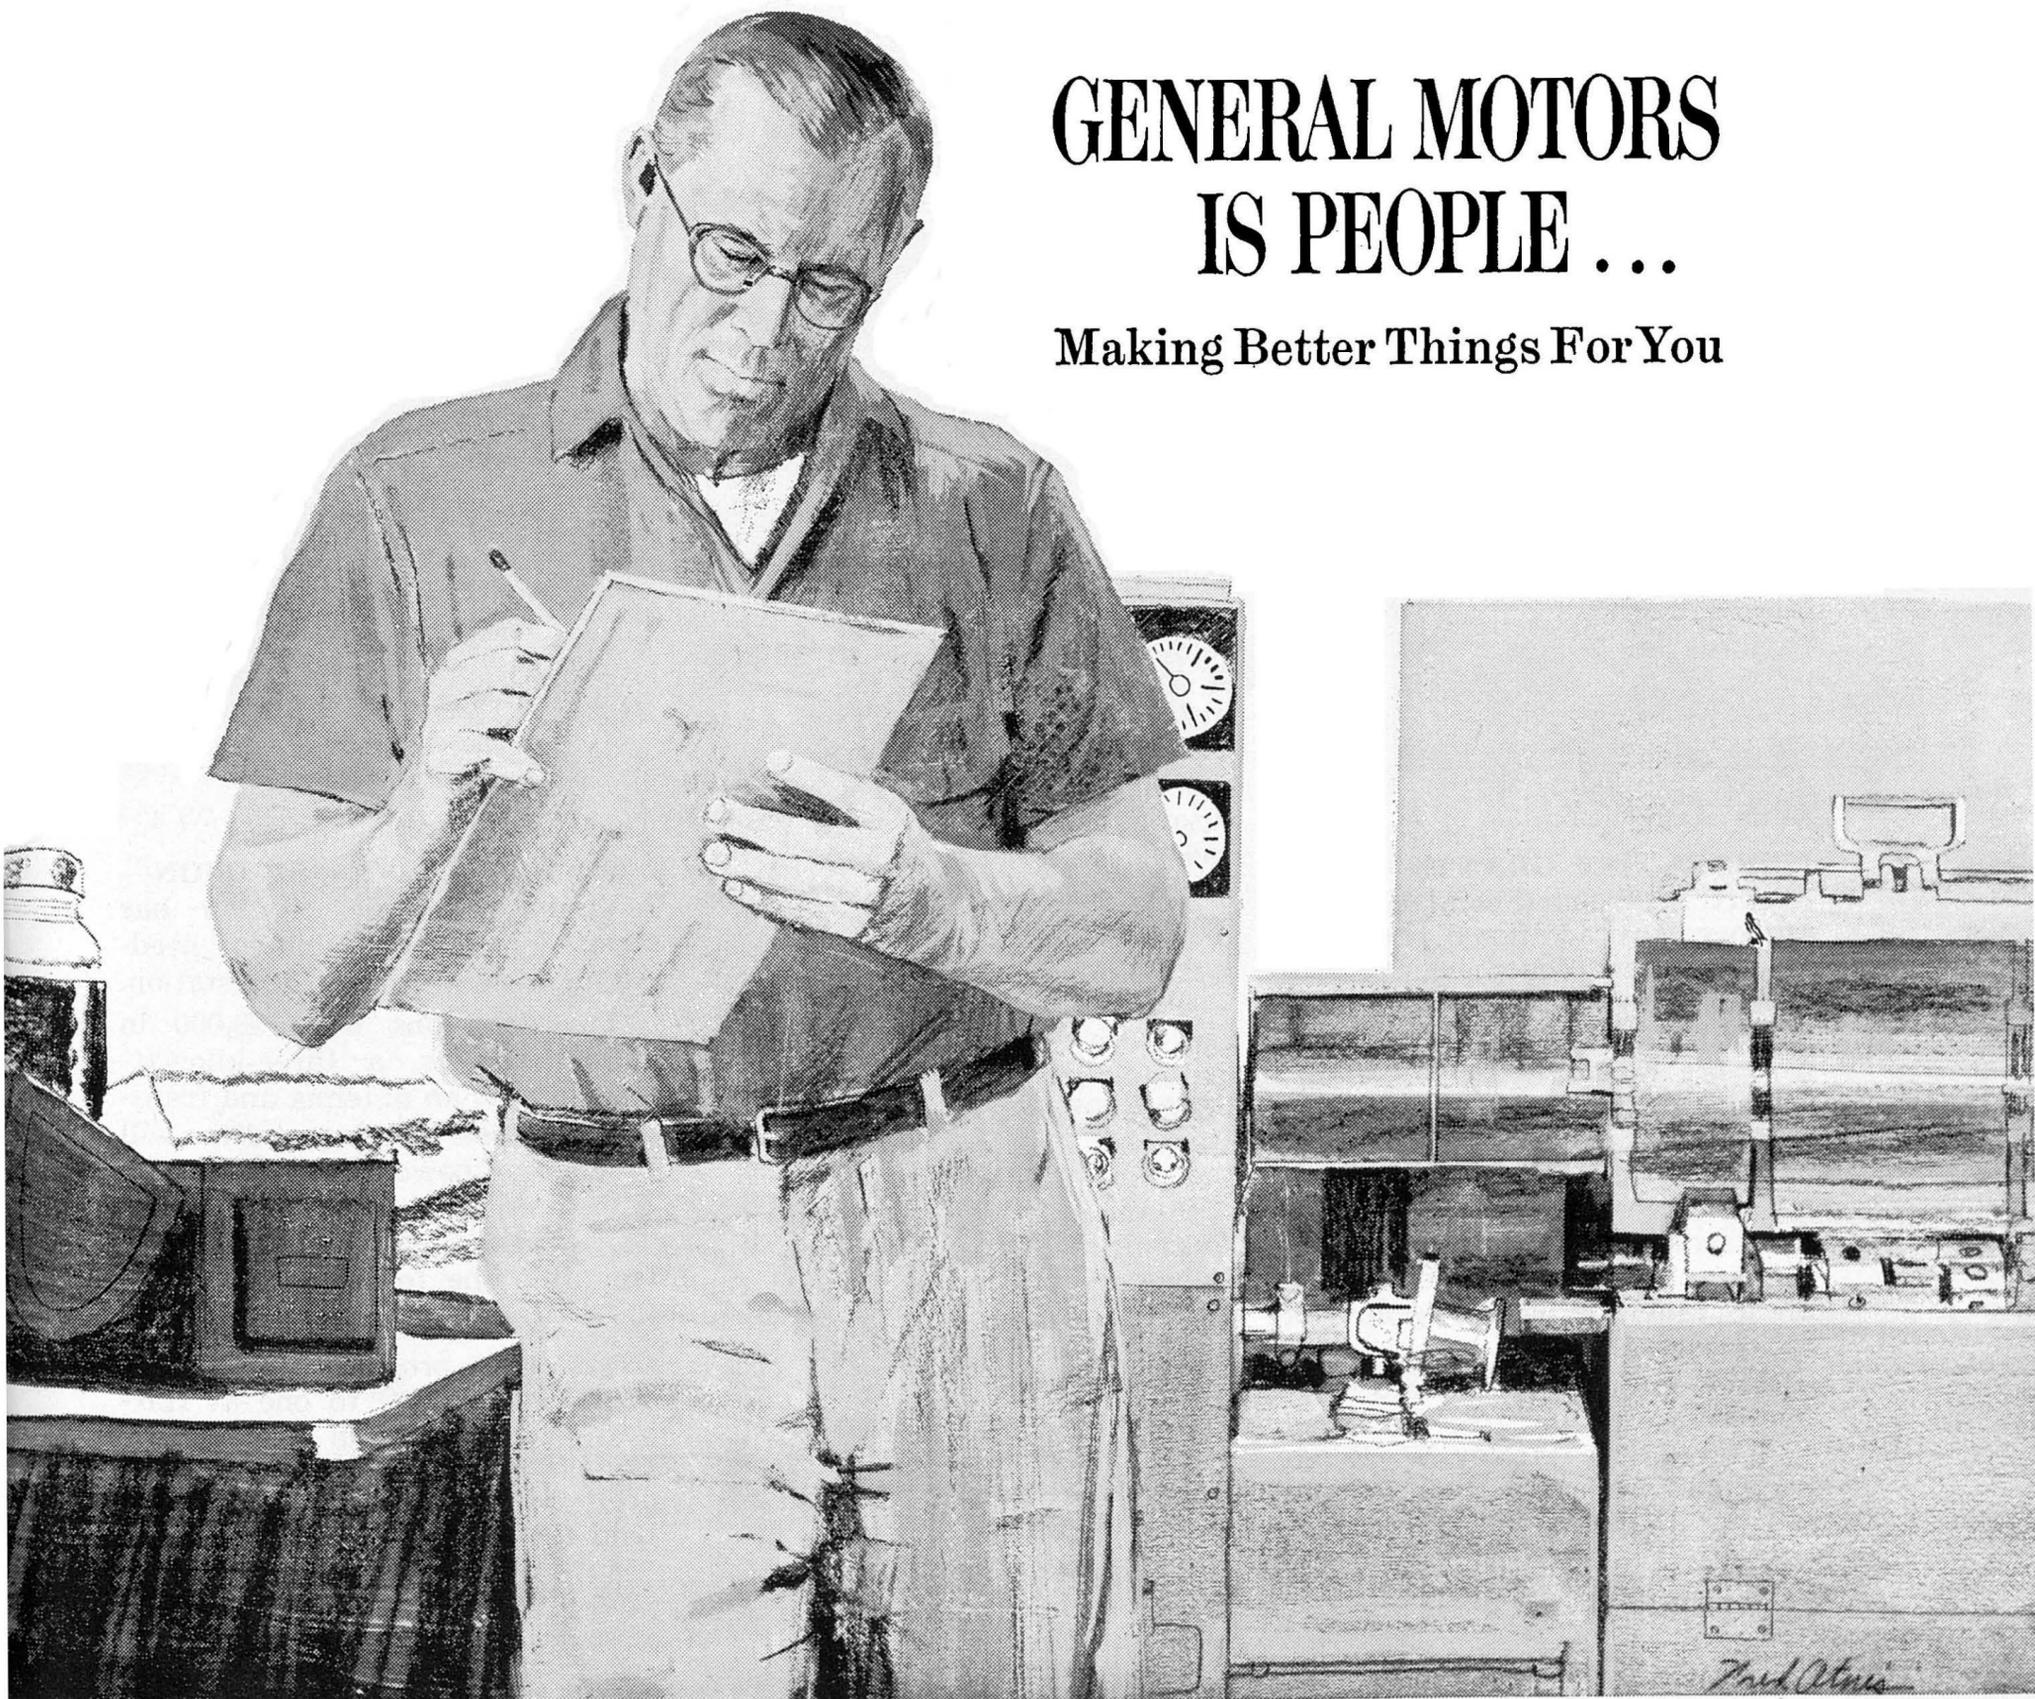

Idea man. A man who knows it pays to think. He's a General Motors employe who works at his job, thinks at his job. He never stops looking for ways to help make it safer and for ways to improve products and processes.

Last year General Motors awarded over \$6,750,000 under the GM Employe Suggestion Plan to people like him for more than 188,000 on-the-job suggestions. Since 1942 GM has adopted more than a million employe suggestions and has happily paid out more than \$48,000,000 in suggestion awards.

At GM, you'll find the idea man in office and plant. Alert, interested, aggressive . . . he doesn't wait for "George" to suggest it, *he suggests it himself*. He is constantly seeking "ways to make it better . . . better ways to make it." GM moves ahead because of people like the idea man, the innovator.

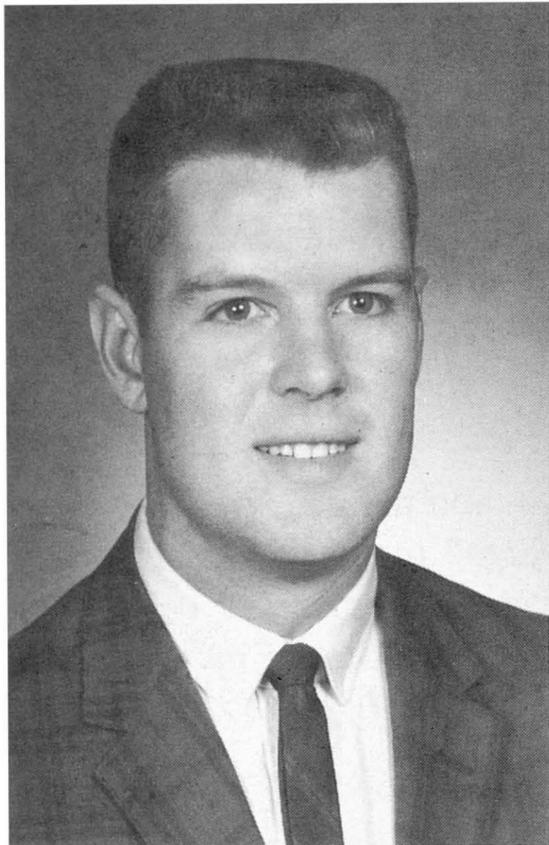

GENERAL MOTORS IS PEOPLE . . .

Making Better Things For You

national trade with these countries.

Billingsley has been on the staff at Tech six years.

Charles Richards

ENGINEER OF THE YEAR — Olaf T. Lodal, '32, was named Engineer of the Year by the Bexar Chapter of the Texas Society of Professional Engineers and was honored at the annual Engineers' Ball during the National Engineers Week in San Antonio.

Lodal, president of the Consulting Engineering Firm of Gullat, Lodal and Sueltenfuss, Inc., has been a practicing professional engineer for 30 years. He served as president of both the Texas Society of Professional Engineers and of Bexar Chapter. He also is a past president of the Ex-Students Association.

PROFS GET GRANTS — The Robert A. Welch Foundation has approved two additional grants-in-aid for Texas Tech chemistry professors, bringing to six the number of Tech faculty holding grants from the Foundation.

Dr. John A. Anderson, assistant professor, received \$36,000 and Dr. Harry G. Hecht, assistant professor, received a \$42,000 grant. At the same time, Dr. Henry J. Shine, professor, received notice of a renewal of his grant of \$45,000.

Other chemistry professors holding Welch grants are: Dr. Fred C. Trusell, Dr. Wesley W. Eendlandt and Dr. Richard J. Thompson.

NEW EDITORS — Top personnel on the Treador were scholastic casualties at the end of the fall semester and had to give up their positions.

Charles Richards was named editor to replace Bill McGee while Max Jennings was named managing editor and Ray Finfer sports editor.

TECH RECEIVES GRANTS FROM NASA — The National Aeronautics and Space Administration has selected Tech to receive six graduate training grants of \$2,400 each.

The grants will go to predoctoral trainees who have chosen a graduate study research program that is space oriented.

Tech, one of the five Texas Institutions chosen to receive the grant, was selected not only because it has doctoral programs in space-related science and engineering, but also because of its willingness to strengthen its programs in these areas.

LIBRARY INADEQUATE — Tech Librarian R. C. Janeway reported to the College Board of Directors in February that the new library facilities (dedicated last fall) already are inadequate. The inadequacy is primarily based on the fact that the new structure is not complete. (One floor and a portion of the basement have not been finished.)

Janeway reported that the Tech Library now ranks 18th among 47 Southern libraries in size of book collection. In the last five years, the Tech Library has passed such libraries as the University of Arkansas, Auburn, the University of Georgia, Rice, Texas A&M and others.

When the present Tech structure is completed, it will house one of the largest holdings in the South — more than 600,000 volumes.

HEITMAN RECEIVES GRANT — A former head of the Journalism Department, J. Russell Heitman, has received a 10-month Fulbright Fellowship to teach and study at Thammasat University, Bangkok, Thailand.

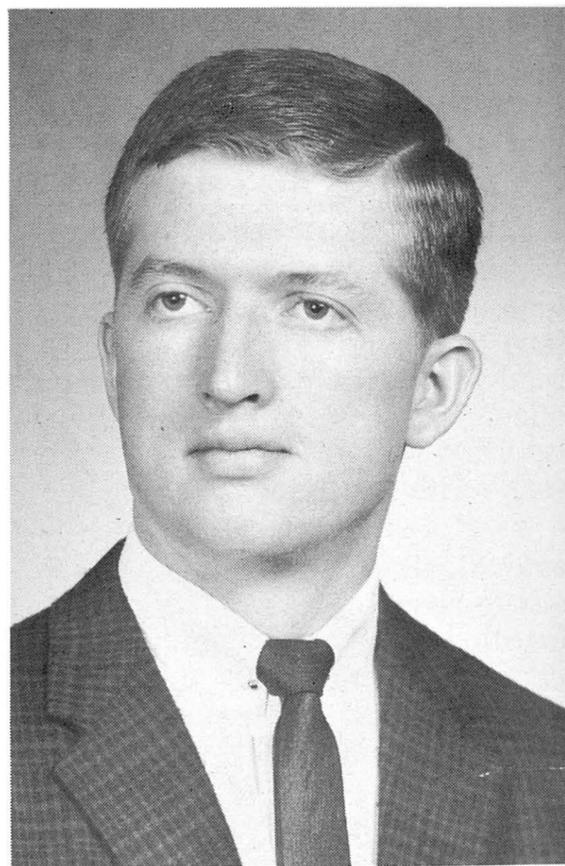

Heitman, who is head of the Journalism Department at the University of Denver, headed the Tech department from '50-'54. Heitman and his family will leave Denver in May.

BEST DRESSED COED — Miss Claire Adamson, Abilene sophomore, was named Tech's best dressed coed. The blue-eyed brun-

ette, an elementary education major, was sponsored by Delta Delta Delta sorority in the contest sponsored by Theta Sigma Phi.

Runner - up was brown - eyed blond, Miss Carolyn Barre of Yoakum. Miss Barre, who is the 1962 Miss Wool of America, is majoring in English. She was sponsored by Doak Hall.

The fashion contest, sponsored by the womens' honorary journalistic society, featured 16 Tech women. Entrants in the fashion-talent show modeled typical on-campus outfits, off-campus daytime outfits and party dresses. The winner will receive a two-week trip to New York where she will compete in the national contest.

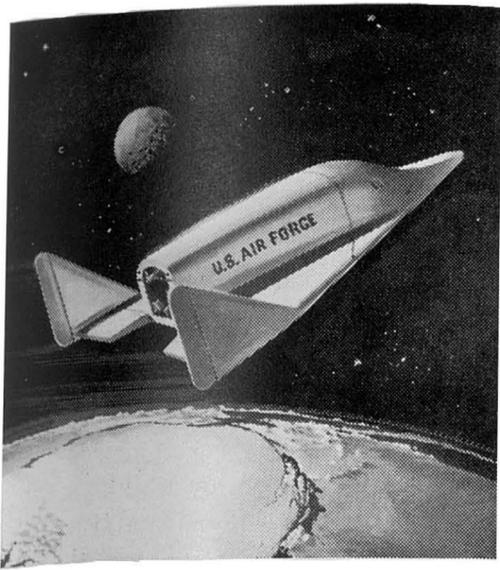

Max Jennings

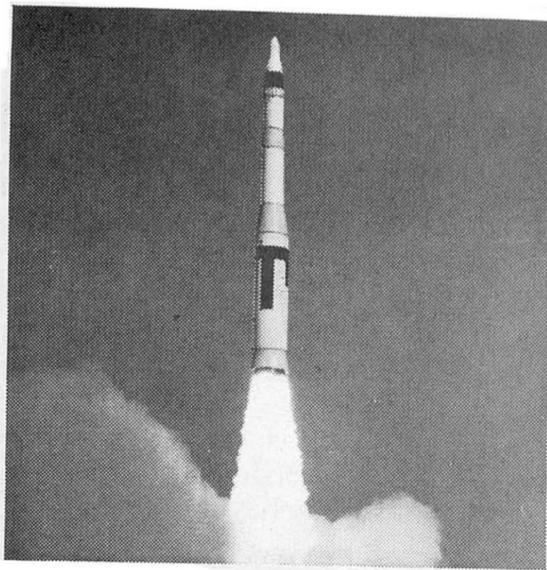

TECH RECEIVES STATION — A Lubbock Radio Station has donated half the equipment needed for a new College FM station.

The donations were \$3,000 in record albums, a three-kilowatt transmitter, an antenna and transmission lines. The transmitter will produce a power of 9,600 watts and have a radius of 57 miles. The antenna will be located 200 feet atop the television tower.

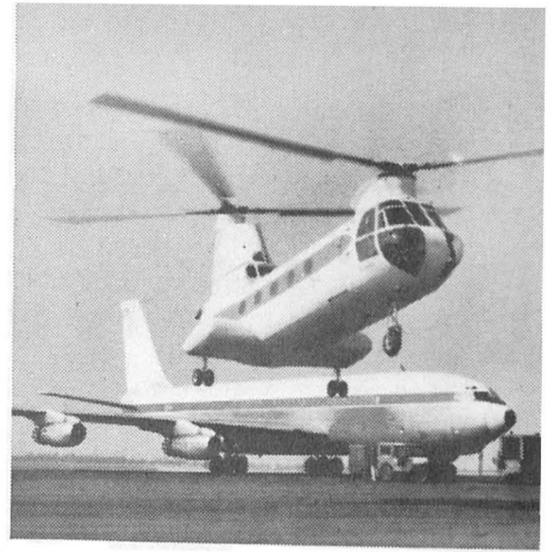

CLASS VISITATION PROGRAM — A program has been inaugurated similar to one at Harvard University, in which certain classes each week will be open for any Tech student to attend the lecture.

CAREER BULLETIN FROM BOEING

The continuing expansion of advanced programs at Boeing offers outstanding career openings to graduates in engineering, scientific and management disciplines. At Boeing you'll find a professional climate conducive to deeply rewarding achievement and rapid advancement. You'll enjoy many advan-

tages, including up-to-the-minute facilities, dynamic industry environment, and company-paid graduate study programs (Masters and Ph.D.).

For further information, write today to Mr. Conrad E. Brodie, The Boeing Company, P. O. Box 3822 - UTT, Seattle 24, Washington. Boeing is an equal opportunity employer.

BOEING

The new program, sponsored by the Student Honors Council, gives students the opportunity to broaden their education in fields previously closed to them because of regulations on auditing classes.

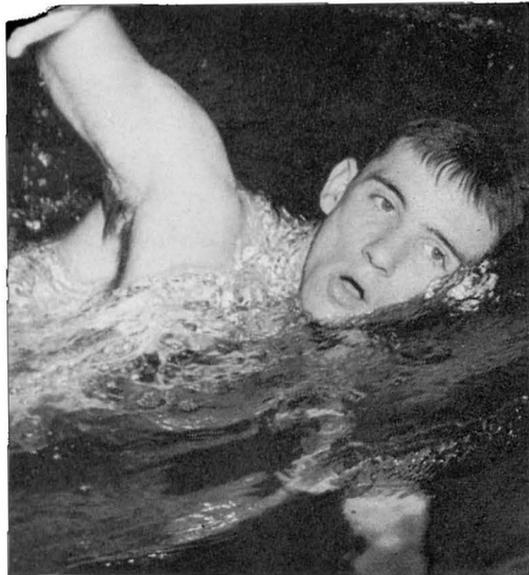

At the present time the only classes that can be opened up for the class visitation program are honor classes.

ANNUAL SALES UP — La Ventana sales have increased 1.09 per cent over last year, according to Phil Orman, director of student publications. Sales have jumped from 6,633 volumes last year to 7,247, an increase of 614.

HUTCHESON JOINS STAFF— C. R. "Choc" Hutcheson, '48, has joined the journalism staff and is supervising reporting-editing laboratories.

He replaces Jay Milner, former student, who resigned to go to work in Austin.

NATIONALLY-RANKED — A member of the Tech Swimming Team, Phil Simpkins, is ranked among the top five swimmers in

the nation in the 50 and 100-yard freestyle events.

Simpkins has set a number of pool records during swimming meets in the Midwest and Southwest this year.

TEXAS TECH DAY—The date for the Ninth Annual Texas Tech Day has been set for Saturday, May 4.

On this day all local chapters are requested to meet simultaneously in their respective communities. The purpose is to bring Exes together throughout the nation for common enjoyment of tradition and heritage of Texas Technological College.

It is hoped that towns or districts not organized will consider having some type of organized activity on this date. The Ex-Students Office will be more than

happy to help in the planning of such an observance.

It is hoped that as many groups as possible will meet on May 4, but it is not required that you do so. Due to local conflicts, several groups have already announced their intentions to meet on a day other than May 4.

Texas Tech Day is one of the most important occasions on the College Calendar each year.

FOREIGN STUDENTS — A touch of international flavor again is added to the student body at Texas Tech as fall enrollment includes students from 28 foreign countries.

A total of 67 international students are enrolled at Tech.

Iran leads the list with eight students, followed by China with seven. Japan and Venezuela are each represented by five students, and four come from Saudi-Arabia.

LEAVE OF ABSENCE — John R. Hewitt, assistant professor of marketing, has been granted a leave of absence to study for a doctorate in the Graduate School of Communications at the University of Illinois.

Hewitt's leave which is for September, 1963, through the following academic year, was granted after he was awarded the James Webb Young fund for education in advertising, administered by the university.

ATHLETES MAKES GRADES —Probably the best news on the athletic scene, is the way Tech athletes came through on their fall semester grades.

Four football players and Tom Patty, a basketball player, restored their eligibility after being deficient a year ago.

An unusual low number, seven athletes, failed to make their grades. The seven consisted of three freshman football players, one freshman track man, a freshman baseball player and two swimmers.

All members of the basketball, tennis and track teams maintained their eligibility.

EDUCATION DEPARTMENT LEADS — In the School of Arts and Sciences, the education department has the highest number of majors — 1,125. The math department boasts 393 and pre-med students number 302.

Statistics of the School of Agriculture show the animal husbandry department has the largest number of majors — 208. Business Administration shows 498 majors

in accounting and 329 in finance. Home economics education has the highest number of majors in that school with 231.

In the school of engineering, 545 are majoring in electrical engineering, 368 in mechanical engineering and 359 in architecture.

SPRING VACATION — Classes are dismissed for spring holidays from April 7-15 (Sunday-Monday).

Classes resume on Tuesday, April 16, at 8 a.m.

DATA PROCESSING CENTER — Since the acquisition of the 1620 IBM electronic computer in February 1962, the student usage of the data processing center in the School of Engineering has showed a tremendous increase.

The center is now open on a 24-hour basis. From 8 a.m. to 5 p.m. the computer is used in processing student programs, for which the student gets credit in his engineering course. After 5 p.m. the computer is used by graduate students and faculty for mathematical or engineering problems.

Over the past year, the computer's memory capacity has increased from 20,000 to 60,000 giving that much more capacity in solving problems.

Most of the work is done by the students with a small amount of research. In a month's time approximately 300 students use the computer.

SING SONG — The annual Inter-Fraternity Sing-Song is scheduled for April 19.

Last year's winners were Phi Kappa Psi in the fraternity division and Gamma Phi Beta among the sororities.

FOREIGN LANGUAGES—The foreign languages department at Texas Tech is continuing its growth at a rapid rate, as witnessed by the figures released on the fall semester enrollment.

During the fall, the department had 2,365 students enrolled in French, German, Latin, Portuguese, Russian, Spanish and a graduate course in methods. These students were carrying a total of 8,300 semester hours of credit in languages.

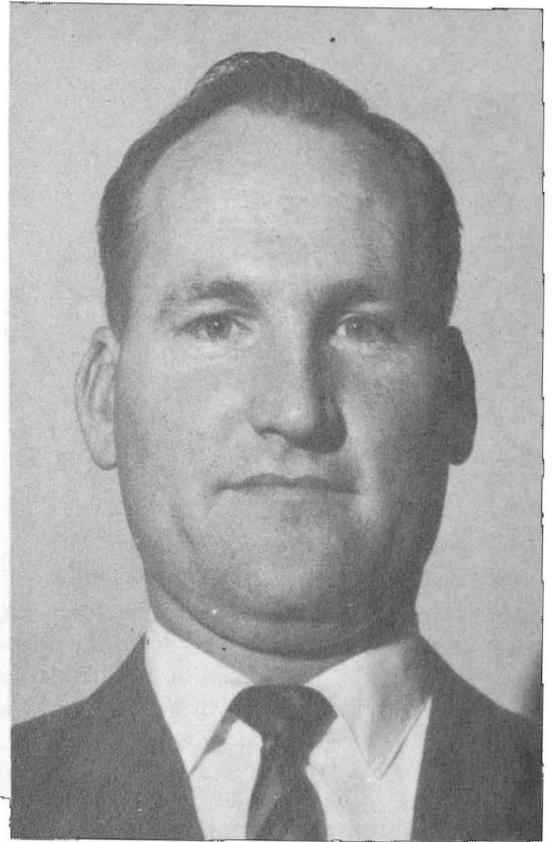

In the fall of 1961, the department counted 1,968 foreign language students. The 1962 figures for the fall, when 11,183 students enrolled in the college, is an increase of nearly 400 students in foreign languages over the previous year.

Marshall Pennington

John Taylor

Robert Price

NEW STUDENT CENTER — A 30-year-old dream became a reality for 700 Tech Catholic students in February with the dedication of the new Catholic Student Center at 2210 Broadway.

Formerly a funeral chapel, the brick building contains a chapel, plus rooms to be used for a library, reading rooms, offices, recreational center, classrooms, and living quarters for 12 men students.

HOOKS HEADS ABILENE C-C —Ralph Hooks, '40, president of Lydick-Hooks Roofing Company in Abilene, has been elected president of the Abilene Chamber of Commerce for 1963-64.

Hooks succeeds another Tech Ex, James S. Lauderdale, '34, as president.

BACK ISSUES — The Ex-Students Office has back issues of the La Ventana of the years 1947, 1951-61 for sale.

They are available at \$1.00 each, which is for mailing costs. The 1960 and 1961 annuals are available at \$5.00 each.

Requests for these books with the year should be mailed to: Box 4009, Texas Tech College, Lubbock, Texas.

STATE SEA PREXY — Gary Gore, Lubbock junior, has been elected state president of the Texas Student Education Association.

Gore, a member of Alpha Phi Omega service fraternity, will represent Texas at national meetings this summer in addition to other duties.

BOARD MAKES PROMOTIONS

—The College Board of Directors recently revamped the Colleges' Business Administration organization, which was designed, as a start, to broaden the base of the College's administrative organization in preparation for the rapid growth expected in the future.

Marshall Pennington, who was formerly vice president and comptroller, is now vice president for business affairs.

John Taylor was moved from auditor to the newly created post of business manager.

Robert Price, formerly assistant auditor, was named comptroller.

500 APPLY — Tech's biology department has received approximately 500 applications from teachers for its Summer Institute for High School Biology Teachers

The institute, sponsored by Tech, will begin June 6 and end August 8, administered under a grant from the National Science Foundation.

Approximately 60 participants will be accepted at the tuition free institute. The participants will be selected solely on the basis of their ability to benefit from the program and their capacity to develop as teachers of science.

HONORARY MEMBERS—Texas Tech's Agronomy Club has presented honorary memberships to Harold Hinn of Dallas, Marshall Pennington of Tech and Murray Cox of Dallas.

Hinn is a member of the Tech Board of Directors. Pennington is

vice president for business affairs. Cox is farm director for WFAA Radio and TV in Dallas.

BAND MAKES RECORD—The Texas Tech Band has released a long playing, high fidelity record.

Sale of the professionally recorded albums was made possible through Kappa Kappa Psi, honorary band fraternity at Tech.

Included on the record are: "My Fair Lady," "Overture to Reinzi," "Semper Fidelis," "Polka from Schwanda," "La Bamba de Vera Cruz," "Overture to Candide," "Jubilee March," "Valdres March," and "The Matador Song."

Persons desiring a recording may write Kappa Kappa Psi, Music Building, Texas Tech. The recordings are \$3.75 each, including tax.

DALLAS COUNTY LEADS—A study of the fall semester enrollment reveals that Dallas County had 744 students and Harris County (Houston) sent 519 students to Tech this past fall.

Tarrant County had 366 students and the city of Amarillo had 261.

Over 28 per cent of Tech's students come from areas more than 300 miles from Lubbock.

BRAND GOES TO IRAQ—Dr. John Brand, professor of geosciences, left last month for Iraq, where he will teach for 18 months at the University of Bagdad.

Dr. Brand will conduct geology classes at the Iraq University under the auspices of a program sponsored by Texas University,

1928

W. W. (Windy) Nicklaus is principal of Palo Duro High School in Amarillo. He was captain of Tech's first football team and president of the junior class. Nicklaus is active in the Polk Street Methodist Church, Kiwanis Club and numerous other Amarillo organizations.

1929

Mrs. Anna Belle (Collins) Collier is assistant cashier for the Park Cities Bank and Trust Co. in Dallas. Anna Belle, who is active in the Dallas Ex-Students chapter, is a member of the Texas Tech Foundation Board of Directors.

Robert M. Board, who received his degree in Textile Engineering, operates his own business and office at 1611 Cotton Exchange Bldg. in Dallas.

(1930-1933)

J. C. Davis Jr., is now assistant Attorney General in charge of State and County Affairs Division in Austin for Waggoner Carr, Attorney General of Texas. He is now a member of the Travis County Bar Association and Austin Public Administration Club.

1931

Paul Witt, a chemistry major, is a safety engineer for the Bureau of Mines in Dallas. He and his wife, who have two daughters, are members of the North West Presbyterian Church. He is past president of the Southwest Chapter of the American Society of Safety Engineers.

Wilbur L. (Pete) Pearson is vice president and industrial manager for Southwestern Public Service Co. in Amarillo. He and his wife, the former **Hazel Griver**, '32, live at 3221 Bowie. One of their two daughters, **Donna**, graduated from Tech in 1960.

Mr. and Mrs. O'Brien Thompson, (nee Gertrude Pool, '32) live in Amarillo, where he is chief chemist for Texaco, Inc. The Thompsons have two children, **James E.**, '60, and **Martha Sue**, '63, who attended Tech. O'Brien is a past president of the Texas Tech Dad's Association, member of the National Budget Committee of the United Funds. He was the first president of the Chemistry Society at Tech.

Professor of government at Amarillo College is **Joe Taylor**, who was a member of Centaur at Tech. He is associate editor of the Panhandle Plains Historical Review. He is quite active in church and educational organizations.

1933

Margaret Carroll Baker is a special instructor in the engineering drawing department at the University of Texas. She received a B.A. degree in physics and a M.A. degree in education. Mrs. Baker was a

member of the Engineering Society, Sock and Buskin and Alpha Chi. She is the mother of two high school students and is active in garden club and church activities in Austin.

1934

Mrs. Frank I.C. (Christine Berrier) Miller is director of the home economics department for the Dr. Pepper Co. in Dallas. Her husband is a professor and associate director of the SMU graduate school. She is a member of Altrusa Club.

Cecil O. Schwalbe is assistant secretary and pension analyst for Southwestern Life Ins. Co. of Dallas. His wife, **Dell**, is record librarian at the Children's Medical Center. They are members of Lovers Lane Methodist Church.

1935

Dr. Joe V. Moody, a Dallas physician, has a son, **Joe K. Moody**, attending Tech. He has one daughter, **Martha Ellen**.

Garvin L. Tate, who majored in geology at Tech, is area exploration manager for Humble Oil & Refining Co. in Dallas.

Mrs. Richard M. (Judy) Morehead is a chemistry teacher in the Austin Public School System. While a chemistry major at Tech, she was an active member of Las Chaparritos. Her husband is a correspondent for the Dallas Morning News.

1937

Mrs. Vanda (Cole) Turnham is home-making teacher in Arlington. She and her husband live in nearby Dallas.

Harry E. Blocker, Jr. and his wife (nee **Margaret Sue Hines**, '38) live at 6825 Park Lane, Dallas. He is an architect for the Corps of Engineers. The Blockers have three children, the youngest of which, **John**, is a Tech student. Harry, who played in the Tech band, is director of music for the Preston Hollow Presbyterian Church.

Mack Scoggin is a partner in Scoggins-McKenzie Realtors in Amarillo. Mack is married to the former **Emma Dean Bingham**, '37. He was president of the College Club and his class and played football at Tech. The Scoggins have three children. **Gay**, the oldest, attended Tech and is now Mrs. Jim Patterson in Midland.

James G. (Jim) Denton is chief justice of the court of civil appeals in Amarillo. The Dentons have four children.

Marvin S. (Sylvester) Reese, BA Journ., MBA, '40, is associate professor, director of university printing department and business manager of student publications at SMU in Dallas. He is married to the former **Jimmie Compton**, '40, who is office manager for McCommons Oil Co. He was a member of Kemas and Alpha Chi at Tech

and is now a Naval Air Reserve commander.

Paul White is industrial relations supervisor for Ford Motor Co. in Dallas. Paul and his wife, **Lu**, were members of the class of 1938, of which he was president. Paul is vice president in charge of finance of the Dallas Citizens' Traffic Commission. He is an active member of the Dallas Press Club, Dallas Personnel Association, Sigma Delta Chi, Lasso Club and the Chamber of Commerce. At Tech he was managing editor of *The Toreador*, served on the student council and was a member of Alpha Chi.

1939

Joe Tom Weddle lives in Irving with his wife and three children. Joe Tom, an agronomy major, is mortgage security analyst for the Federal National Mortgage Assoc. in Dallas.

William N. (Bill) Wright, an ME major at Tech, is president of Wright Industrial Products Co. of Dallas.

Assistant principal of Sunset High School in Dallas is **Frank Guzick**, who lettered in football three years at Tech. The Guzicks have two sons and live at 3424 Springwood Lane.

William L. (Bill) Cobb, a civil engineering major, is owner of William L. Cobb and Associates, consulting engineer firm in Dallas. Bill is an elder in the City Temple Presbyterian Church, area vice president for the Texas Society of Professional Engineers and secretary of the Texas Assoc. of Consulting Engineers.

R. E. (Bob) Wulfjen is petroleum engineer for Sun Oil Co. in Dallas. He and his wife, the former **Maxine M. Craddock**, '45, live at 822 Lockwood, in Richardson.

Ovid Baker is an economist in the research department for Socony Mobil Oil Co. in Dallas. He was a chemistry engineering major at Tech. He, his wife and 13-year-old daughter live in Garland.

Editor of the Texas State House Reporter is **James Walter (Jim) Forbis**, who resides in Austin with his wife and two children. During his student years, Forbis was head yell leader and a member of Kemas. He is an Indian relics collector and member of the Travis County Archaeological Society.

1940

Charles (Buzz) Barnard is president of Barnard and Ancira, Inc. in Dallas. He and his wife have four sons. He played football while majoring in electrical engineering at Tech.

Leon Neil (Nick) Stewart, a textile engineering major, is chief space management division manager for the General Services Administration in Dallas. He is a deacon

and Sunday School teacher at the Park Cities Baptist Church. He has two sons.

1941

Perry McAlpine is secretary-treasurer of the Cooper and Woodruff, Inc. in Amarillo.

Area production manager for Gulf Oil Corp. in Amarillo is **Willard E. Bauman**. He was a mechanical engineering major at Tech.

Mrs. Charles C. Miller (nee Hardy Masters Miller) is a housewife in Dallas. She and her husband, an engineer, live at 11023 Pinochio Drive, Dallas.

Vice president of A. F. Holman Boiler Works, Inc. in Dallas is **Charles G. Stokes**. He and his wife, the former **Winfred Black**, '40, live in Garland. Charles majored in textile engineering and Winfred was a zoology major. She teaches school.

Purchasing agent for Sealtest Foods in Amarillo is **Sidney L. Rogers**, AH major. Sid was a member of Block and Bridle.

J. D. Webster is personnel manager for Southwestern Public Service Co. in Amarillo. A member of the Board of Stewards for the Polk Street Methodist Church, J. D. was on the Tech golf team that won conference championships in 1939-40. He has one son, **James Robert**, attending Tech. He and his wife have three other children.

Owner and manager of a real estate firm in Dallas is **Guion Gregg, Jr.** Guion, who is extremely active in civic affairs in Dallas, was president of Socci and a member of Phi Psi and Alpha Phi Omega at Tech. He is a past president of both the Tech Ex-Student chapter in Dallas and the Dallas Saturday Morning Quarterback Club.

Clinton Milton Barrick is married to the former Miss **Comora Hughes**, who attended Tech as an elementary education major. He is an architect in Arlington, and Mrs. Barrick is a second grade teacher in the Arlington public school system. They are the parents of two boys and two girls.

Presently employed as assistant program examiner for the Texas Commission on Higher Education in Austin is **Rayborn Rex Jackson**, who participated in some radio broadcasting programs as a student. He is a member of the Austin Texas Tech

Club and Phi Delta Kappa, honorary fraternity.

Jack B. Lovelace is a staff assistant for Southwestern Bell Telephone Company in Dallas. The Lovelaces are the parents of two daughters. At Tech Jack was a two-year tennis letterman in '40 and '41 and a member of the Double T Association.

1942

David Richard (Dick) White is employed by the Oil Well Supply Division of U.S. Steel in Dallas. He is married and has two children.

Vice president of Gas Equipment Co. in Dallas is **R. B. Allen**. Bob is married and has two daughters, 16 and 11.

Jack W. Brown is a project engineer on Chance Vought's Crusader F-8 in Dallas. Jack, an ME major, was a member of Kemas and was active in the varsity shows at Tech.

Mr. and Mrs. Thomas J. (Jeff) Coffey, Jr., '42-'43 (she was **Catherine "Kitti" McCollum**), and their four children live at 904 Clermont in Dallas. Jeff is a traffic studies engineer for Southwestern Bell Telephone. He was a drum major, varsity show director, and a member of Silver Key, Alpha Phi Omega and Alpha Psi Omega at Tech. "Kitti" was a member of Sans Souci, Alpha Psi Omega and a varsity show director.

James Pat Cunningham is sales manager of the concrete department of the Crowe-Gulde Cement Co. in Amarillo. Pat, a strong Texas Tech backer, is a member of the Episcopal Church and the Exchange Club. He and his wife have three children.

Mrs. W. W. McGinnis (nee **Shirely Parsons**) is a housewife in Dallas. She has two daughters, ages 15 and 11. She and her family are members of Westminster Presbyterian Church.

Mrs. Naomi Moore Holder is a first grade teacher in the Arlington Independent School District. She is also a member of Delta Kappa Gamma.

Earnest F. Gloyna, civil engineering major, is a professor at the University of Texas. He and Mrs. Gloyna are the parents of two children, David, 11, and Lisa, 10.

Living in Austin and employed by Rath Packing Company as a salesman is **Lee R. (Scotty) Scott**, who majored in journalism at Tech, where he was a member of the Press Club, Kemas and Saddle Tramps. Scotty is the father of two children.

1944

Mrs. H. D. Keller (nee **Mary Lu Jobson**) is an Irving housewife and mother of three children. She was a foods and nutrition major at Tech.

1945

Joe B. Luscombe is a sales representative for Southwestern Public Service Co. in Amarillo. Joe and his wife have two boys and one girl. Joe majored in ME.

1946

Riley Evans has retired after 36 years service with American Telephone and Telegraph Co. He is now a graduate student at St. Louis University in Missouri. He is also a commander (retired) in the U.S. Naval Reserve.

Mrs. Charles Hawkes (nee **Barbara M. Wright**) makes her home now in Arlington with her husband, who is managing editor of the Arlington Citizen-Journal, and two children. A music major at Tech, she was active in the Tech Choir and Band, Tau Beta Sigma and Baptist Student Union. Mrs. Hawkes is a voice teacher and member of the Arlington Music Teachers Association.

1947

J. J. (Jim) Warner is sales engineer for the Lynn Elliott Co. in Dallas. At Tech he majored in EE and was a member of Tau Beta Pi and Souci.

Operations Manager for Frontier Mfg. Co. in Dallas is **George L. Hay**. George majored in Industrial Engr. and was a member of Kemas. He is married and has two sons.

Olin E. Monk, a civil engr. graduate, is an engineer for Ransdell Const. Co. in the Meadows Bldg. in Dallas. He and his wife and two sons live in Garland.

Dr. Edward Cope, Jr., a pre-med major at Tech, is practicing medicine in Garland. He is a member of the Second Baptist

thing wool ex- t," Carolyn said, Next Page)

"and my contract says I don't have to appear in public in a bathing suit. I even have wool pajamas that I sleep in."

Carolyn already has plans for her wardrobe. "After I've shown it officially this year, I can share some of it with my friends and cousins," she said. "No girl should have 23 suitcases of clothes for herself alone — and everybody I know loves beautiful clothes just as I do. I'm lucky," she said proudly, "that wool lasts almost forever."

Carolyn has a sort of a clean-cut, shining beauty that stands out in any crowd and is sometimes referred to as "typically American." She is highly intelligent and articulate. The daughter of a Texas farmer-rancher, she is extremely humble and has been described by both her instructors and classmates as "the ideal student."

One of her most noticeable characteristics to people in other parts of the country is that she does not talk through her nose as a good Texan should. She can't imagine how she learned to speak correctly, unless it is because in her 21 years she has spoken a good deal of German around her farm home a few miles outside of Yoakum.

She said when she journeyed into New York on her first trip, people kidded her about speaking to everybody she met and being all-fired courteous.

"When I rode in a cab, I said sir to the taxi driver and when I got out I thanked him, and he refused to take my money!"

"I just love people, that's all," says honey-blonde, brown-eyed Carolyn. And that she does, as demonstrated in her day-to-day friendliness on the Tech Campus.

It's been almost two years since the Yoakum Chamber of Commerce submitted her name and picture in the Texas Miss Wool contest.

"I was drafted. Actually, I was the only one in Yoakum that summer that fitted the qualifications for the contest, so it had to be me," she laughed.

The entrants in the contest were required to be between 5 feet 6 inches and 5 feet 8 inches, wear a size 10 dress, be single, have one year of college and be able to travel.

From more than 200 girls, Carolyn was selected as one of 12 finalists for the state contest. Six of the finalists were students at Tech."

With her selection as Miss Wool of Texas, things happened fast for her.

"I'm just a country girl," she said, "when I won the state title I had worn high heels only to church and hadn't been using makeup."

But the fashion directors at a fashionable Dallas department store took the "country girl" in tour, teaching her all the tricks of a beauty.

"One of them told me I was bow-legged, knock-kneed, pigeon-toed and had arms like a windmill," the Tech junior remembers.

As the state wool representative, she was required to tour Texas promoting the industry. She was away from her classes at Tech a great deal.

"Finally they decided that since my chaperone lived in Dallas, I should go to school in that vicinity," she said.

State wool officials gave her a scholarship to Texas Womens University where she attended her sophomore year. In April, 1962, she competed with 20 other girls from wool regions over the country and won the national title.

As Miss Wool of Texas, an automobile company loaned her the use of a new car for the duration of her reign, and she drove more than 50,000 miles. However, as holder of the national title, Carolyn took to the airways.

When Carolyn travels, she and her chaperone take 23 pieces of luggage. "We have to take two cabs — one for the luggage and the other to ride in," she explained.

"When I won the state contest, I had the chance to travel all over Texas but until I won the national title, I was never out of my home state."

Carolyn's flying hasn't been uneventful. In Boston, the plane she was on had to land with a flat tire, on a trip to New York an engine went out, and on another flight the pressurization system went out of order. But probably her worst experience was on a trip to Washington, D.C., when her plane was forced to circle an hour and a half because a landing gear wouldn't go down. When asked if she was scared, she quickly said, "Yes, but then they served us dinner, and afterwards I dozed off to sleep." Even with all her bad experiences, Carolyn says, "I just love to fly."

One of the bad things about all the traveling is that I never have

enough time to look around. I'm never allowed to date on the trips — one of the rules. It might just as well be a restriction all the time, because during the time that I'm here at Tech, I have to study hard to keep up," she said.

Carolyn was approached in Seattle by a movie producer and asked to take a screen test. She quickly answered, "Sorry, I'm going back to Texas."

When asked about her future, Carolyn says she hopes to graduate from Tech in June, 1964 with a degree in English and a psychology minor. She hopes to teach three years and then return to college to get her masters degree in psychology and be a counselor in either a college or high school.

Would she now reconsider a chance to become a movie or television starlet? "No, I wouldn't even consider it. I have enjoyed my traveling but I wouldn't want to live like this all the time. I feel so sorry for those girls like Debbie Reynolds and Elizabeth Taylor who can never lead a real life because the public won't let them."

Celebrities are in a good spot to meet other celebrities and the Tech junior was no exception.

She was talking with an Associated Press reporter in a Washington airport when President Kennedy came to meet his wife and daughter returning from a vacation in Italy. The reporter took her over to Kennedy and made introductions.

Singer Julius LaRosa, who was playing the part of a southerner in "No Time for Sergeants" at Des Moines, took advantage of the English major's Texas accent.

"When he heard my accent, he grabbed my arm and rushed me over to a chair where he made me talk to him about 30 minutes so he could catch my Southern accent," she laughed.

Carolyn has modeled in several hundred fashion shows since she won the state title in July, 1961. Her only regret, expressed with some concern, is: "My feet have grown a whole size since I started walking so much in fashion shows. They were size eight when I won the state title and now they are size nine!"

With all the excitement of being a national figure, were there any regrets or disappointments?

"Yes," exclaimed Carolyn, "the hardest things are getting enough sleep and having to look your best

Church and Kiwanis Club in Garland. At Tech Ed was a Los Camaradas and played in the Tech Band.

Theo. A. (Ted) Serrvri and wife, **Dorothy**, live at 3408 Hawthorne, Amarillo, where Ted is a senior systems engineer for Southwestern Public Service.

Buster J. Melton is supervisor of Appliance Service for Texas Power and Light Co. in Dallas. Buster, his wife and three children live at 114 Brookwood in Richardson. At Tech Buster was a Centaur, played football and basketball, and was president of his sophomore class and West Hall.

Livestock specialist for the National Cottonwood Products Assoc. in Dallas is **Kenneth O. Lewis**. Kenneth and his wife have two girls. He was a member of Block and Bridle and Saddle Tramps.

Thomas W. (Tommy) Hughes, a history major at Tech, is field representative for Rexall Drug and Chemical Corp. in Dallas. He has three sons, whom he hopes will all participate in athletics at Tech. Tommy was a member of the College Club and Saddle Tramps.

1948

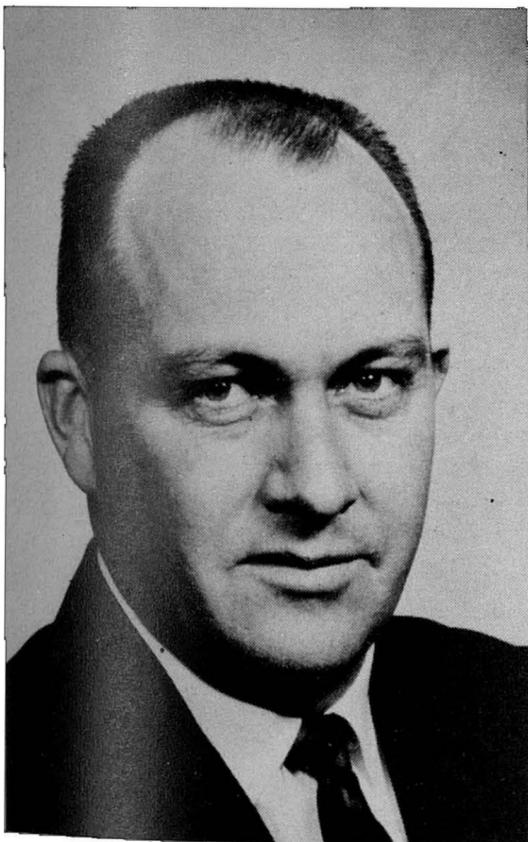

A. D. (Andy) Anderson is an architect for the Exchange Park Co. in Dallas. He and his wife and two sons live at 13022 Copenhill Road in Dallas.

Lou Nolen Williams, who majored in speech, is a decorator and designer for Connell Stationery Co. in Amarillo. She was a Las Chaparritas at Tech.

George M. Baker, an industrial engineering major at Tech, is district engineering manager for Texas Employers Insurance Assoc. in Amarillo.

Morris E. Nunley is a buyer for Gunn Bros. Trading Stamps in Amarillo. He and his wife have two children.

President and general manager of Taylor-Evans, Inc. of Amarillo is **James A. (Doc) Potts**. Doc, an ag-eco major, is

Ralph Earhart

married to the former **Melba Stater**, '46, a Home Ec major. The Potts have four children.

Weldon E. Hams is senior field engineer for Western Union Telegraph Co. in Dallas. Weldon, an EE major at Tech, was an active member of the BSU and the Saddle Tramps. He and his wife and son, Kim, are members of the First Presbyterian Church.

Ralph G. Earhart, '48, has been named directory sales manager in St. Louis for Southwestern Bell Telephone Co. He joined the telephone company in Houston in 1950 as a directory salesman and since 1955 has held various supervisory positions in the directory sales department in Dallas, Houston and St. Louis. He had been general directory sales supervisor in St. Louis since last year. Earhart, who received his B.S. degree in Education from Tech, is married to the former **Lucille Burns** of Houston. They have one son and two daughters.

Arlington is the home of **Gene E. Nowlin**, who majored in petroleum engineering. As a student, he was a member of Wranglers and Saddle Tramps. He was also a dormitory assistant and engineering representative to the Student Council. He and his wife are the parents of five children.

1949

A design engineer for Chance Vought Corporation in Dallas is **Robert N. Rainey**. "Bob's" major at Tech was mechanical engineering. He is the father of two daughters.

Edmond H. Ford is associate professor and head of the Technical Institute Division at Arlington State College. "Hugh" is married to the former **Naomi Langford**, '47, who majored in secretarial studies. At Tech he was a member of ASME engineering society and Tech Band. Mrs. Ford was a member of Alpha Chi. They reside in Grand Prairie, where she is a piano teacher. The couple has three children.

Executive Secretary of the Vocational Agriculture Teachers Association of Texas with offices in Austin is **Alton D. Ice**. He and Mrs. Ice are the parents of four daughters and a son.

Proud parents of a baby boy born Feb. 11 are Mr. and Mrs. **Robert Terry (Bob) Williams** who live in Austin, where he is director of Texas-Federal Marketing Services for the Texas Department of Agriculture. The former **Mary King**, '48 was also a journalism major at Tech and is now editor of the Travis County Medical Journal. The new son has been named Terry. Williams was editor of the '49 La Ventana.

Harold J. (Hal) Luke is a lead electronics systems engineer for Ling-Temco-Vought Inc. in Dallas. At Tech he was active in Saddle Tramps and Tech Chamber of Commerce. He was also president of the Class of '50.

John F. Nixon is a supervising designing engineer with the Texas Highway Department in Austin. He is married to the former **Billie Doris White**, '52, who majored in business administration. Lt. Clarence N. Cochran is stationed at Laughlin AFB in Del Rio, Texas.

Linda Cullum is employed by Texas Instruments in Dallas. At Tech she was a member of Alpha Chi Omega and Pi Omega Pi.

Don Clinton Nix is a law student at SMU in Dallas. At Tech he was on the golf team, Tech Supreme Court and an SAE.

Franklin H. Hinkley, a personnel mgt. major at Tech, is payroll auditor for Hartford Ins. Co. He is married to the former **Evelyn Wossum**, '59, who was a sociology major.

Nancy Sue Carlock, a 1961 graduate who was active in Pi Beta Phi and the Tech Union, is living in Dallas. A finance major, Nancy is secretary for James H. Clark, Dallas.

Nan Durham is dietary supervisor at Baylor University Medical Center in Dallas. Nan majored in Foods and Nutrition and was a member of Phi Upsilon Omicron at Tech.

Lt. Charles Draper and his wife (nee **Linda Nell Wetzel**, '62) are living in Mt. Clemens, Mich. Charlie is stationed at Selfridge AFB and Linda is teaching school. Charlie was a member of Phi Delta Theta and was on the varsity track team.

John R. Willis, who was a CE major at Tech, is employed as an engineer for the Texas Highway Dept. in Amarillo. He is married to the former **Katharine Slaughter**, '60, a government major.

Hugh Willson Lyon is an airport engineer for the Federal Aviation Agency in Fort Worth. He was a member of the Student Chapter of ASCE at Tech. He and Mrs. Lyon are the parents of a daughter, **Judith Leslie**.

A student in the University of Texas School of Law is **Donald Ross Patterson**, whose major was mathematics. Major activities at Tech included Baptist Student Union, Alpha Phi Omega and Young Re-

publicans. He is now a member of Phi Delta Phi legal fraternity.

Johnny L. Buck is director of park planning and research for Texas State Parks. He and Mrs. Buck reside in Austin and are the parents of two daughters. He was a member of the Horticulture Club and Student Agriculture Council.

1962

Jerry Ben Jones is living in Houston where he is a graduate student at Rice University.

Living in O'Donnell are Mr. and Mrs. **Tommie Mack Forbess (nee Donna Jean Vestal)**. He is associated with Forbess Motor Co.

Mr. and Mrs. **Daniel Leon Cave** are living at Ackerly, where he is farming. She is the former **Zada Beth Snodgrass**.

Ervin Lee Willard is employed by the Soil Conservation Service in Clarendon.

Mr. and Mrs. **Joe Wendell Hunnicutt** live in Smithtown, N.Y. He is teaching math in Commack, N.Y. She is the former **Sally D'Ann Roberts**.

Curtis W. Harrison is a design engineer for National Supply Division of Armco Steel Corp. at Gainesville.

T. C. Rice, Jr., is vocational agriculture teacher at McCaulley. He was a member of Block and Bridle.

Barbara Edwards is teaching school in Corpus Christi.

Sandra Jean Cornell is teaching in the Baldwin Park School District and lives in West Covina, Calif.

Jack Y. Morgan is employed by the Mitsui Bussan Export and Import Co. in San Francisco.

Lt. and Mrs. James B. Summers are living in Germany, where he is in the army. She is the former **Elizabeth O'Neal**.

A research chemist for Gulf Research and Development Co. in Pittsburg, Pa., is **William J. Hellman**. He lives in nearby Oakmont, Pa.

Don W. Long is employed by the First National Bank at Tuscoma, N.M.

William Bailey Barton is plant assistance engineer for E. I. DuPont Co. in La Porte. He lives at 3424 Illinois, Baytown.

The former **Marilyn Faye Woods** is teaching math at Monterey High in Lubbock. She is married to **Carey L. McClyd**, a student at Tech.

Doing graduate work in physics at the University of Tennessee at Knoxville is **Bobby Joe Morton**.

Ken Bailey is a 2nd Lt. in the Marine Corps and is stationed at Quantico, Va.

Serving as a Peace Corps volunteer is **Peggy Jane Rogers** in Lobogon Aloran, Misamis Occidental, Republic of Philippine Islands.

Being employed by Chicago Bridge and Iron Co. causes **Robert Francis Palmer** and his wife, the former **Donna Sue Sutton**, '61, to move every two or three months during a training period. Robert was a Delt at Tech.

Stage manager for an off-Broadway theater in New York is **William E. Leonard**. He and his wife live at 4 St. James Place, Brooklyn. He was a member of Alpha Phi Omega and Sock and Buskin at Tech.

Making their home in Wichita, Kan., are Mr. and Mrs. **Larry Gene Ricker**. She is the former **Nancy Lee Renier**, a Delta Gam. He was a Delt and is employed by the Bureau of Federal Reclamation.

Miss Wool . . .

(Continued from Page 16)

all the time. But lack of sleep was the biggest problem—I never had to count sheep!”

After last summer's touring Carolyn was dying to return to Tech to continue her schooling. Wool officials wanted her to delay her college work until her reign was over. But Carolyn wanted to return to Tech, which she had missed during her stay at TWU.

Since enrolling at Tech last fall, most of her trips were on weekends. Even though she had to miss a lot of classes, Carolyn maintained almost an "A" average in the 16 hours she was taking. This semester she is taking 19 hours of what most students refer to as "all rough courses."

"My teachers have been so wonderful about letting me make up work. All the students in my classes have been real nice and don't seem to mind a bit because I have to miss classes to make my trips," Carolyn said.

When asked how her friends at Tech took her title, she said, "At first people tried to avoid me. They didn't know how to act

around me. But I think they soon found out I was just another student and had the same likes and dislikes as ever."

This spring Carolyn was named in an all-school election as the Beauty in the Beauty and the Beast Contest. The fact that she dresses with distinction and taste enabled her to be named one of the finalists in the Best Dressed Coed Contest.

Carolyn hasn't spent all her time the past year just being an ambassador for wool. She has also helped to "sell" Texas Tech throughout the nation. Last month her brother, who is a high school senior, came up to Tech for a weekend visit and she convinced him that Tech was "the only place to attend college."

But in April all the traveling and missing classes will be over for Carolyn and she will hand over the crown to the new Miss Wool. But Carolyn has no regrets about it. "It's been a long and hard 22 months and "I'm glad it's over."

Asked if she would do it again, she said, "Yes, I probably would. I don't think I'd take a million dollars for it, but I sure wouldn't give that to do it again."

Chapter News . . .

and a talk by 'Doc' Blanchard

An Austin chapter meeting honoring state legislators and state officials who have attended Texas Tech drew approximately 55 persons on February 28. John Nixon, chapter president, presided.

H. J. (Doc) Blanchard, '48, state senator and a Lubbock resident, was the speaker of the evening. Blanchard's remarks are included elsewhere on this page.

Special guests at the meeting included Dr. R. C. Goodwin, Tech president, who spoke briefly, and Wayne James, executive director of the Association.

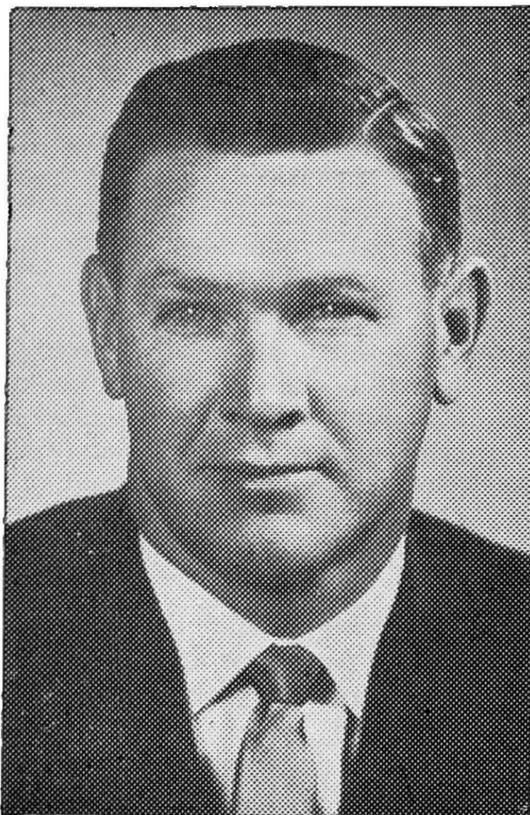

Honored guests at the meeting were: Lt. Gov. Preston Smith, '34, Lubbock; Waggoner Carr, '40, Atty. General, Lubbock; John C. White, '46, commissioner of agriculture; Blanchard; J. Collier Adams, '54, Lubbock; Wayne Gibbens, '59, Breckenridge; Bill J. Parsley, Lubbock; R. E. (Randy) Pendleton, '62, Andrews; Olen R. Petty, '59, Levelland; Renal B. Rossom, '46, Snyder; W. Reed Quilliam Jr., former Tech professor, also of Lubbock. These men are all in the state House of Representatives.

Exes assisting Nixon in preparing the meeting were: Pat Thurman, '50, program chairman; Philip Rapstine, '60, publicity chairman; Juanita Craig, chairman of telephone committee, and Billie Nixon, secretary and registration chairman.

(Editor's Note: The following talk was given at a recent Austin Chapter meeting by H. J. (Doc) Blanchard, Lubbock, state senator.

I am pleased that I have this opportunity of addressing the Texas Tech Ex-Students from the Austin area as well as those connected with our state government.

The role of Texas Tech in the field of higher education is of great concern to all of us. What will happen in the years ahead will depend in great measure upon these things:

Doc Blanchard

1. The participation of the ex-students in the programs of Tech. Historically the great institutions both in this country and abroad have one thing in common, and this is a dedicated and proud alumni. They are dedicated to improving every aspect of the college and its standing in the community of higher education. The alums must give of themselves in service and they must give toward establishing scholarships and endowments. They must be proud that their degree was obtained from the college. They are proud to recommend to their children and friends that they can get the best education possible at Texas Tech.

2. Participation by the administration and the faculty in seeking to obtain excellence in every field. If a particular school or a particular category of courses cannot match up to a degree of excellence, they can and must be left to other institutions. If we have a critical analysis by the schools themselves, and action taken after such analysis, we can begin to

weed out mediocrity and start seeking excellence. I, for one, do not believe we can afford the luxury of mediocrity and petty jealousy between our institutions of higher learning. I do not believe that one school should have ten mediocre departments when they could excell in five or six. I say that we should take our funds and work for excellence in five or six and let some other school excel in the other four or five fields.

3. Participation by the Legislators. Texas Tech being a solely state supported school must determine its future course directly upon its friends in the Legislature. Without adequate funds no school can rise to a point of excellence. The support of the ex-students, administration and friends of Tech must be directed to those members of the legislature who are truly and genuinely supporters of higher education in general and Texas Tech in particular.

My recommendations as to what must be done to insure the greatness of Texas Tech are generally as follows:

1. An intensive recruiting program of students. This of course brings to mind athletics. I believe of course this is a very necessary and integral part of colleges and must be improved and continued; however, I refer to recruiting in the field of scholarship. I believe we must begin to seek out the top scholars and encourage them to go to Tech in the undergraduate as well as graduate schools. This leads immediately to one conclusion, and that is that we must have the type and calibre of courses that will attract and hold students.

2. We must intensively recruit the top professors and instructors in our country. To obtain and keep these people we must offer to them a way of life and benefits (salary) that they will find attractive.

3. Offer courses that will attract people in research, develop-

ment and graduate fields. These courses must be geared to our present economy, technology and way of life.

4. The colleges must work for and obtain a balance of curriculum which will prepare its graduates for the future. If the graduates of our great universities are highly sought as scientists and executives and Tech graduates are not sought, we must not only find out why, but we must correct this. If they are sought from one school and no demand for some other school, we must either improve the school or relegate it to a lesser role. We could then take those funds and put it into the stronger school.

In conclusion, I believe that we—the ex-students, the administration and the members of the Legislature, must set a goal of great excellence and eminence in higher education for Texas Tech. We must devote our time and energy to attaining this goal. We may make mistakes along the way, but if we dedicate ourselves to this, we can and will see a great college with national and international reputation.

which supplies teachers annually at the University of Bagdad.

SOCIAL SCIENCE BUILDING—Faculty and staff of four departments — government, history, military science and air science — last month moved to their new offices in the Social Science Building, formerly the Tech library.

All of the offices and many of the classrooms for the department are housed in the building, which has undergone the process of renovation since the construction of the new library at Tech.

The ranking staff member among the movers was Dr. S. S. McKay, professor of history, who came to Tech in September of 1928 and has had an office in the Administration Building each of his 35 years at Tech.

The Hitchin' Post

Merilyn Loter to James Stanley Howell. He attended Tech and is now a student at Lipperts and is employed as a service station manager. They will live at 205 East Crestway, Plainview.

Sandra Sue Smith to David Wayne Bennett. He is a Tech graduate and a Alpha Zeta. He is employed by Texas Highway Department. They will live at 909 E. 43rd, Austin.

Katherine Elizabeth Kaderli to Joe Thomas Hood. He is a graduate of Tech (1959), where he was a Sigma Chi.

Linda Sue Meeks to Michael C. Neves. He is a former student of Tech. They will live in Fort Worth.

Barbara Asher to Wayne Mathews. She is a graduate of Tech and will live in Dallas.

Janet Blanche Crow to Harvey Ray Everheart. He attended Tech and is presently a student at Tarleton State College. They will live at 788 North Cain, Stephenville.

Martha Ann Adams and Robert Marion Benton. She is a graduate of Tech and a member of Angel Flight. He is a former student of Tech. They will live in Dimmitt.

Barbara Jeanette Dowling to Gaylon Ray Kornfuhrer. He is a graduate of Tech where he was a Tau Beta Phi, Eta Kappa Nu and Kappa Mu Epsilon. They will live at Victoria.

Leticia Paz to Margarito Pena. He is a graduate of Tech and is employed with the Farmers Home Administration in San Benito.

Judith Faye Kemper to Don Foster Gaines. He is a former student of Tech and presently a student of McMurray. They will live at 1134 Rogers in Abilene.

Harriet Baker to Jerry Mac McCluer. He is a graduate of Tech and has been stationed in England for two years. They will live in Amarillo.

Sandra Gehlen to Charles Ronshausen. He is a graduate of Tech and active in Sigma Chi. He is employed as an engineer by Goodrich-Gulf Chemicals of Fort Arthur. She is a graduate of Texas Christian University.

Nancy Beth Sharp to Clevis Matt Chambers. She is a former student of Tech and he farms at Brownfield.

Nancy Pauline Robins to Wayne Wood Foster. He is a graduate of Tech and will live at 512 North 32nd, Waco. He is employed with Texas Highway Department.

W. R. Collier to Carol Ann Binkley. He is a graduate of Tech in Ag. Eco. They were married in Clovis, N.M.

Janice Marie Berryhill to Garey Olen Smith. He is a former student of Tech and presently employed by Carpenter Paper Co. in Lubbock. They will live at 2418 Colgate, Lubbock. She is a Tech student.

Judy Morton to Gary Caffee. Both are graduates of Tech where she was a Kappa Alpha Theta. She now teaches English in Lubbock Public Schools. He is a Alpha Tau Omega and is employed at the Sport Center. They will live at 2208 20th, Lubbock.

Marilyn Faye Woods to Carey Lynn McElya. She is a graduate of Tech and a member of Phi Mu and is teaching Math at Monterey High School. He is a student at Tech. They will live at 313 Ave. T, Lubbock.

Margan Stone to Michael David Rembert. They will live in Houston. She is a graduate of Tech and was an Alpha Chi Omega and Angel Flight member.

Linda J. Zimmerman to Robert Joe Cheatley. She is a graduate student and teaches in East Whittier.

Donna Jean Herold to Jack R. Cloud. Both are former students of Tech.

Janice Ruth Preston to B. F. Risinger, Jr. She is a Tech graduate student.

Rebecca Ann Woods to Robert M. Wright. He is with New Mexico Electric Service in Hobbs, N.M. He is a 1961 graduate and is a Delta Sigma Phi and Alpha Phi Omega. She is a January graduate and an Alpha Chi Omega.

Louise Jean Gorman to Edwin Wilson Barnett. She is a Tech ex-student. The couple will live in Dallas and Gilmer.

Cheri Ann Payne to Robert W. Cain. She is a graduate of Tech and teaches at Maedgen Elementary School. He is manager of the Medical Pharmacy in the Medical Professional Bldg. They will live at 2401-45th, Lubbock.

Mary Ellen Coker to Charles Armstrong. They will live in Texarkana. He is a graduate of Tech with a B.S. degree in civil engineering.

Norma Jean Gerngross to W. Clinton Lange. She is a graduate and employed as secretary by Lubbock Chamber of Commerce, and a member of Phi Gamma Nu and Newman Club. He is a graduate and employed as revenue agent with Internal Revenue Service in Lubbock. He was a Delta Sigma Pi. They will live at 2218-B 35th, Lubbock.

Bobbe Owen to Brad Crawford, Jr. He is a graduate of Tech and associated with the law firm of Crenshaw, Dupree and Milam. They will live at 4809 29th, Lubbock.

Saretta Cannon to Jerry Green. They will live at 2319 Main St., in Lubbock. He is a graduate student in finance.

Judy O'Neal to James Summers. Both are graduates of Tech. They will live in Bad Hersfeld, Germany, where he is stationed with the army.

Janice Lavell Rowin to W. L. Feazell. He is an ex-student and is employed by Gifford-Hill Tubing.

Gladys Lillian Diller to Stiles Belcher. They will reside at 2615 30th, Lubbock. She is a graduate of Tech and a research associate in animal husbandry at Tech. He is engaged in farming near Denver City.

June Dvoracek to William Frawley. He is a graduate of Tech and a Saddle Tramp, Sigma Chi and ROTC.

Miriam Barbara Parkinson to Tommie Jay Pool. She is a Tech graduate and is employed at Monterey High School. She is a Phi Kappa Phi and Kappa Mu Epsilon. He is a student.

Linda Cates to John Northington Harville. She attended Tech where she was a Delta Delta Delta.

Janice Jarrett to Robert William Carter. She is a former student of Tech and a member of Alpha Chi Omega. They will live in Dallas.

Betty Elnora McGough to Joseph Denton DeWitt. Both graduates of Tech will live at 4521 Columbia, Dallas. He was a member of Delta Tau Delta and Alpha Epsilon Delta and is now a dental student.

Kaye Edwards to James Charles Moeser. She is a graduate of Tech and is a Kappa Kappa Gamma. He is a graduate teaching assistant at University of Texas. They will live at 903 East 32nd, Apt. G., Austin.

Julianne Mills to Wayne Cleland. He is a former student of Tech and is employed by Key Auto Supply. They will live at 4118 35th, Lubbock.

Elizabeth Price to Ralph Bellamy. She is a former student of Tech and is employed by Southwestern Bell Telephone Co. He is employed by Hester's Office Machines. They will live at 1502 9th, Lubbock.

Peggy Berendzen to Donald E. Perkins. Both are graduates of Tech. She is employed by B. F. Phillips Jr., oil operator, and he is employed by Ford Motor Co.

Sandra Laurine Pantel to Roger J. Ber-set Jr. She is a former student of Tech and he is employed by West Texas Optical Co. They will live at 4812-B Boston Ave., Lubbock.

Jackie Mathis to Jimmy Willburn. He is a former student of Tech and is employed at Danny's El Paso Station. They will live at 2107 18th, Lubbock.

Mary Allen Williams to Calvin Eugene Boyles. Both are former students of Tech and he is a candidate for graduation. They will live at Fort Benning, Ga., where he will be stationed.

Suzanne Mary Halbrook to John Gordon Cook. She is a graduate of Tech and a Phi Gamma Nu, and Alpha Phi. He did post-graduate work at Tech and is presently employed by National Aeronautics and Space Administration's Marshall Space Flight Center at Huntsville, Ala., where they will live.

Eddy Eubanks to Jerry Don Landers. She is a Tech graduate and a Phi Upsilon Omicron. He is a senior at Tech and a member of Phi Mu Alpha. They will live at 4101-B 36th in Lubbock.

Jan Karen Daniel to Ralph Allen Garverick. She is a former student of Tech where she was a Delta Gamma, Mu Phi Epsilon and Alpha Lambda Delta. He is a graduate of Tech and is employed by Mid-Continent Oil Supply Co., Kilgore.

L. Karen Harrison to Donald H. Odam. Both are former students of Tech and will live in Dallas. He is employed by Lubbock Auto Co. Inc.

Glenda Lee Coward to Tex Ray Stephenson. She is a former student of Tech and is employed by the Avalanche-Journal. He is a graduate of Tech and is employed by Stephenson Hydraulic Jack Co.

Mary Jane Aston to David Bullen. He is a graduate of Tech and is an architect and engineer associated with Caudill, Rowett and Scott in Houston. She is a student at University of Houston.

Caroline Isaacs to Jerry Deavours. He is a former student of Tech and she is employed by Travelers Insurance.

Becky Woods to Robert Wright. Both are graduates of Tech where she was an Alpha Chi Omega. He is employed with New Mexico Electric Service Co. in Hobbs.

Lani L. Langford to J. L. Roberts. She is a graduate of Tech and a member of Delta Delta Delta. They live at 913 13th, in Lubbock. He is a senior at Tech.

Judy Kay Key to Larry James Webb. She is a former student of Tech. They will live in Irving.

Betty Lou Miller to Jerry F. Thomas. He is a former student and now at North Texas State University, Denton. She is employed by Southwestern Bell Telephone Co.

Marilyn Irene Maxwell to James Herman Klein. She is a former student of Tech and is teaching in Houston Public Schools. He is employed by The Houston Post.

Mary Suann Spencer to Larry Hugh Pinson. He is a graduate of Tech and is employed as a research engineer in aeronautics by North American Aviation. They will live at 2104 Banyon Court, Anaheim, Calif.

Judith Anne Pence to Leonard Venhaus. Both are former students of Tech and will live in Lubbock.

Barbara Hargus to Don Wesley Watts. He is a former student of Tech and presently employed in Abilene where the couple will reside at 2806 S. Eleventh.

Shirley Bryan to Larry G. Broadus. She is a former student of Tech and he is a graduate of Texas A&M College.

Tribute to Ray C. Mowery

Professor Emeritus, Animal Husbandry

Ray C. Mowery, 62, professor emeritus and former head of the Department of Animal Husbandry at Texas Tech, died Jan. 26 in West Texas Hospital after a long illness.

Mowery, who resided at 2901 20th St., had been a resident of Lubbock since 1921.

He was widely known and respected in the field of agriculture throughout the area, state and nation and was once referred to as "the first vocational agriculture teacher on the South Plains."

Mowery joined the faculty of Texas Tech in 1926 as professor of animal husbandry. He was head of the department from 1950 to 1954.

He retired from the faculty in 1960 shortly after being stricken with cancer. He had been ill since that time.

Survivors include his wife and two children, Susan and Ray C. Jr., three brothers and two sisters.

Scholarship Set Up

The family has said contributions were being made by friends to cancer research. A scholarship in Mowery's honor was set up by Tech exes about a year ago.

The scholarship contributions first came from his former students, but since that time exes from all parts of the college and others have made contributions.

A native of Dongola, Ill., Mowery received his B.A. degree at Texas A&M in 1921, the same year he came to Lubbock to become a teacher in Lubbock High School.

Judged Livestock Shows

He taught in the public school system until he joined the Tech faculty.

Mowery perhaps was most widely known for the many livestock shows he judged, for sheep feeding experiments carried out under his direction and for the livestock judging teams he coached.

He had been president and vice president of the National Block and Bridle Club and was a member of the American Society of

Ray Mowery

Animal Production and Texas Agriculture Workers.

He was president in the Lubbock Kiwanis Club in 1936 and remained extremely active in Kiwanis activities until he entered the hospital for the last time a few months ago.

Served In Guard

He was a Mason and served as Sunday School superintendent at the First Presbyterian Church nine years.

He was a deacon seven years and an elder two years. Mowery also was secretary of the Milam Home organization from 1941 to 1945.

Mowery also served as first lieutenant in the National Guard from 1928 to 1930.

For more than 20 years he was interested in coaching livestock judging teams and during that time Tech teams won major honors at the Southwestern Exposition and Fat Stock Show in Fort Worth, the American Royal in Kansas City and all other major stock shows throughout the nation.

Never Missed Pig Roast

One of the records of which he was most proud was that he "never missed an Aggie Pig Roast." The annual affair is one of the major events of the School of Agriculture at the college.

Mowery got out of bed to attend his last one in the fall of 1962.

Mowery was scheduled to be a director of the third annual Texas Ranch and Farm Tour of Europe sanctioned by the Fort Worth Star-Telegram in 1960 but his illness prevented him from making the tour which would have included Russia.

In 1960 the first volume of a yearbook published by Tech's Block and Bridle Club was dedicated to Mowery. The organization is for animal husbandry majors.

An Editorial

(Reprint from *The Avalanche-Journal*)

Ray C. Mowery, who died here Saturday after a long illness, was a man who did a lot of good in the more than 40 years he lived and labored among us. His contribution to agriculture, through education, looms large and, as the years go on, unquestionably will loom larger.

A professor emeritus of animal husbandry at Texas Tech, by official designation in 1960, Mr. Mowery began his teaching career at Lubbock High school more than four decades ago. He joined the Agriculture division of Texas Tech in 1926 and remained there until his retirement about two years ago.

Across the long spread of time in which Ray Mowery worked with students and farm youth in this area, he became one of the most widely known, respected and loved men in his or any other field. Not only an excellent and painstaking teacher, Mr. Mowery also was an outstanding Christian gentleman, an individual of high moral character

and one who contributed much time and effort to his First Presbyterian church and to civic undertakings, locally. He was especially active in Kiwanis club circles so long as his health permitted and served a term as president of the original Kiwanis club of Lubbock.

Born in Illinois, Mr. Mowery was a Texan by choice and served well his adopted state. The good which he has done will live after him, reflected not only in the lives of present generations but, also, in the lives of those to come.

Agriculture, animal husbandry, Texas Tech and Lubbock as a community — and certainly, the far-flung farm and ranch country whose people were his friends and admirers — all are better for Ray Mowery's life among us.

There has been no better citizen anywhere.

Current Scenes . . .

(Continued from Page 25)

allowing a Negro to play on its athletic teams.

AYERS HEADS ARTILLERYMEN — Colonel Ross Ayres, '33, a Friona farmer, has a major role in new assignments in the 36th National Guard division under the reorganization plans for the Army National Guard.

Ayres will assume the commanding position of all artillerymen in the 36th Division. He was advanced from an executive officer's position to the top role.

LAW SCHOOL RECOMMENDED — The Board of Directors of the State Bar has adopted a resolution recommending to the Commission on Higher Education that a law school be established at Texas Tech.

The Board's action followed presentation of the matter by Paul New, '42, of Denver City, who stated that the directors of the College favored creation of a Law School in the College and sought support of the State Bar Board of Directors.

CAMPUS LAND — A bill has been introduced in the State Legislature authorizing the College to sell ten acres of land to college fraternities and sororities for the building of lodges.

The land, if sold, would ajoin the 25-acre plot located north of 16th Street just east of Quaker Avenue, west of the campus.

Chances for fraternity and sorority housing in the near future seem to be slim, due to the \$16-17 million debt on campus residence halls.

SPRING PLEDGES — Tech's eleven men's social fraternities pledged 210 men students at the close of spring rush.

Delta Tau Delta and Kappa Sigma took the most pledges, 32 and 31.

Other fraternities and the number of pledges are: Alpha Tau Omega, 6; Kappa Alpha, 16; Phi Gamma Delta, 23; Phi Delta Theta, 21; Phi Kappa Psi, 13; Pi Kappa Alpha, 13; Sigma Alpha Epsilon, 26; Sigma Nu, 16 and Sigma Chi, 13.

BEAUTY AND THE BEAST — Richard E. Dawson and Carolyn Barre were winners in the annual Beauty and the Beast Contest, sponsored by Alpha Phi Omega Service Fraternity.

Miss Barre, Yoakum junior, was runner-up in the recent Best Dressed Coed Contest and is currently reigning as Miss Wool of America.

COLLINS NAMED PREXY — Bill Collins, '32, an employee with more than 33 years of service, has been named president of the Hemphill-Wells Co. to succeed the late Spencer A. Wells.

Collins is married to the former Mercedes E. Libby and they have two children attending Tech.
