The Ex-Students Association is an independent organization of Texas Tech University ex-students, cooperating with and working in behalf of the institution, but not affiliated with it. **The Texas Techsan** is the official publication of the Association.

Second-class postage paid by **The Texas Techsan** at Lubbock, Texas. Published in February, April, June, August, October and December by the Ex-Students Association of Texas Tech University, P.O. Box 4009, Lubbock, Texas 79409. Subscription rate is \$10 per year. Change of address should be sent to the Association offices 30 days prior to date of issue with which it is to take effect. Advertising rates on request. All advertising is handled through the Association office. Copyright 1976, Texas Tech Ex-Students Association.

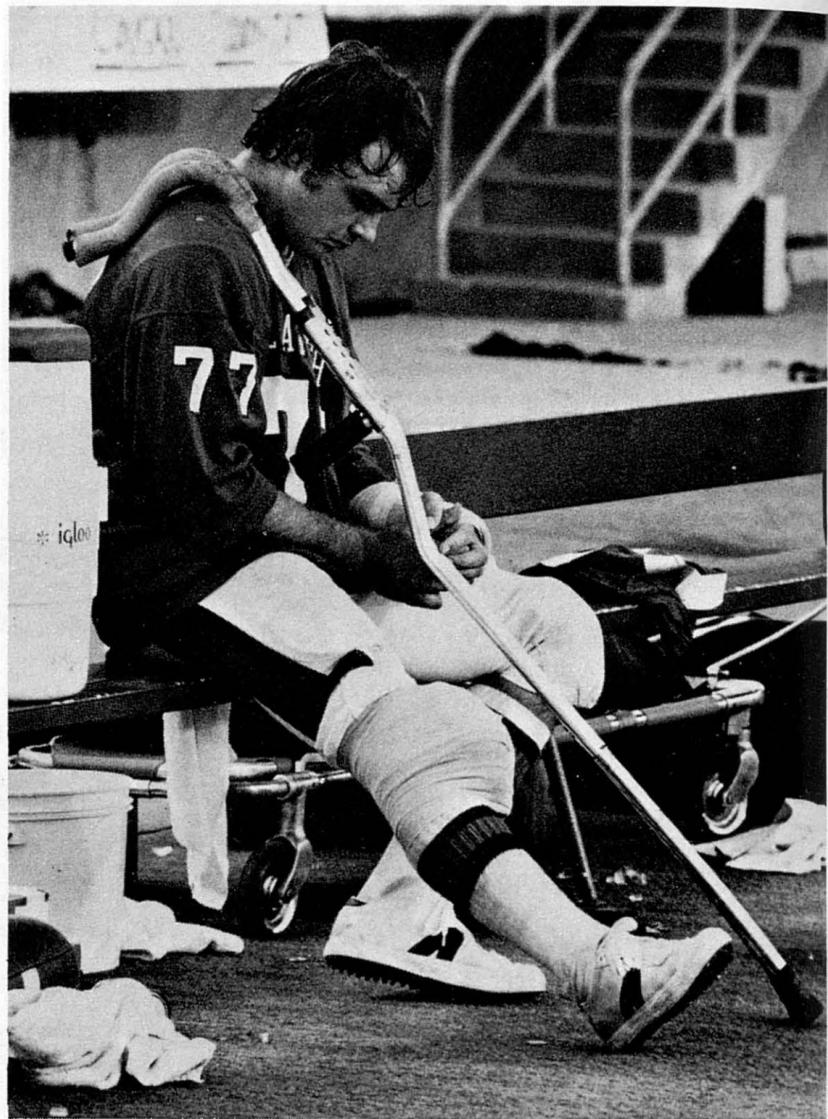

# The weekend that almost was

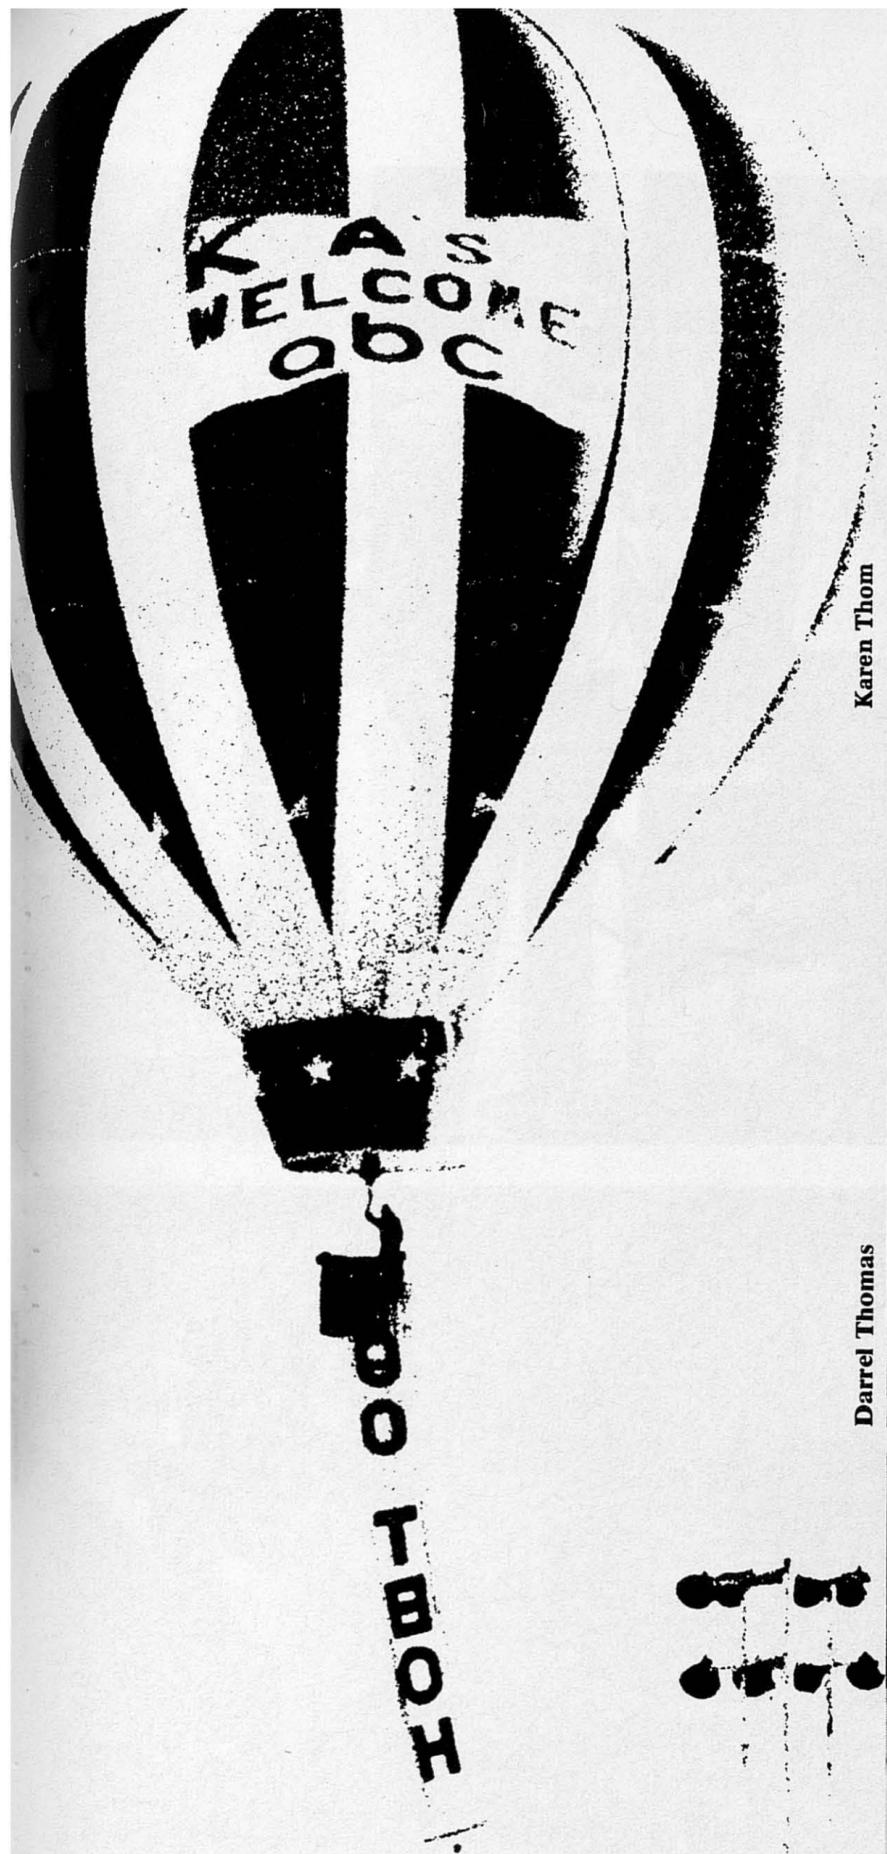

Consider these facts: a football game with the Southwest Conference title at stake; a snowed out Homecoming Parade replaced and revamped with a "Beat Houston Parade;" Mayor Roy Bass proclaimed Saturday as "All I See Is Red Day;" a 1950's vintage pep rally; cougar hides dragged into bank lobbies; cotton bolls distributed to football players; and ABC's team on hand to air the game to waiting millions.

Talk of victory permeated the city and spirit was drummed up on the weekend of the Houston vs. Tech game, marred only by the final score.

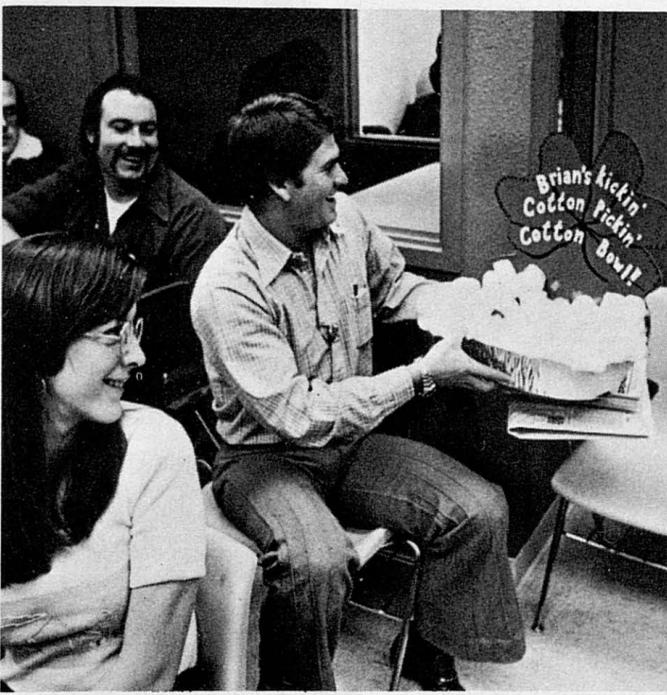

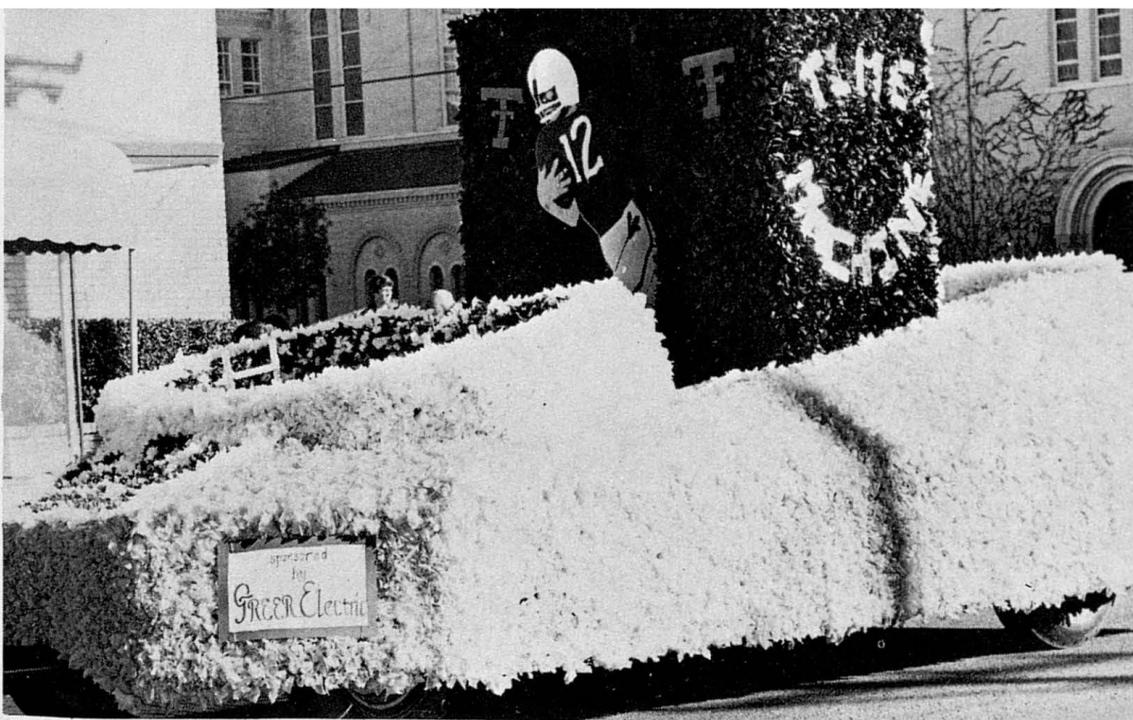

The Raiders had an 8-0 record. If Tech won, they would only have to beat either Baylor or Arkansas for their first championship play—something they've never done since beginning SWC play in 1960. But the No. 9 Cougars, in their first year of SWC play handed No. 5 Texas Tech its first loss, 27-19 and were assured of the Cotton Bowl berth after defeating Rice.

The Raiders accepted an invitation to the Bluebonnet Bowl against the Nebraska Cornhuskers. This will be the first trip for both teams to the Houston Bowl, December 31.

# Not Just An Ordinary Homecoming

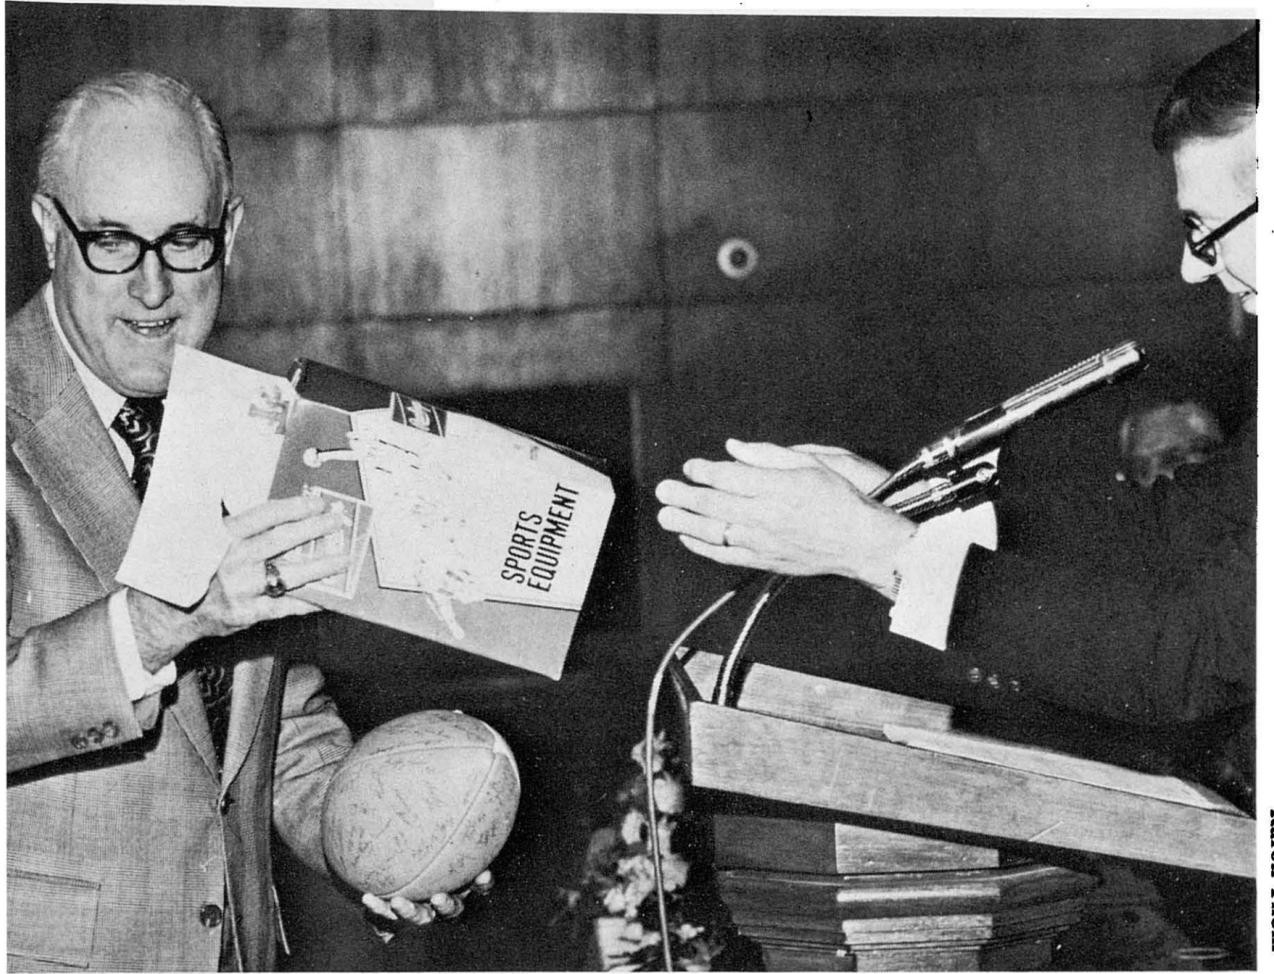

Class reunions... dances... lunch-  
eons... departmental open houses...  
committee meetings... dinners... and  
The Game.

Plans were underway for Texas  
Tech's University's 1976 Homecoming  
designed to allow a weekend of fun,  
spirit and nostalgia.

Conversation centered around slip-  
pery conditions and the emphasis was  
on keeping warm. Weather conditions  
provided rain and several inches of  
snow, which changed many people's  
travel plans.

Texas Tech President Cecil Mackey  
was principal speaker for the traditional  
Century Club dinner, which honors the  
ex-students' most liberal supporters.

Karen Thom

Glen Cary of Dallas, president of the Ex-Students Association, presented Top Techsan Staff Awards to five long-time employees of Tech who received special recognition for their loyalty and outstanding service to the institution.

Art Busch, also of Dallas, vice president of the Loyalty Fund, served as master of ceremonies. W. K. Barnett of Levelland, president-elect of the Association, welcomed Century Club members and guests.

The Swinging Singers, a Tech women's vocal group with band provided several popular selections for the evening's entertainment.

A hospitality committee, chaired by Mrs. Magdalen Carpenter and Mrs. Sylva Wesendonk, hosted a reception prior to the dinner and decorated the tables with autumn centerpieces.

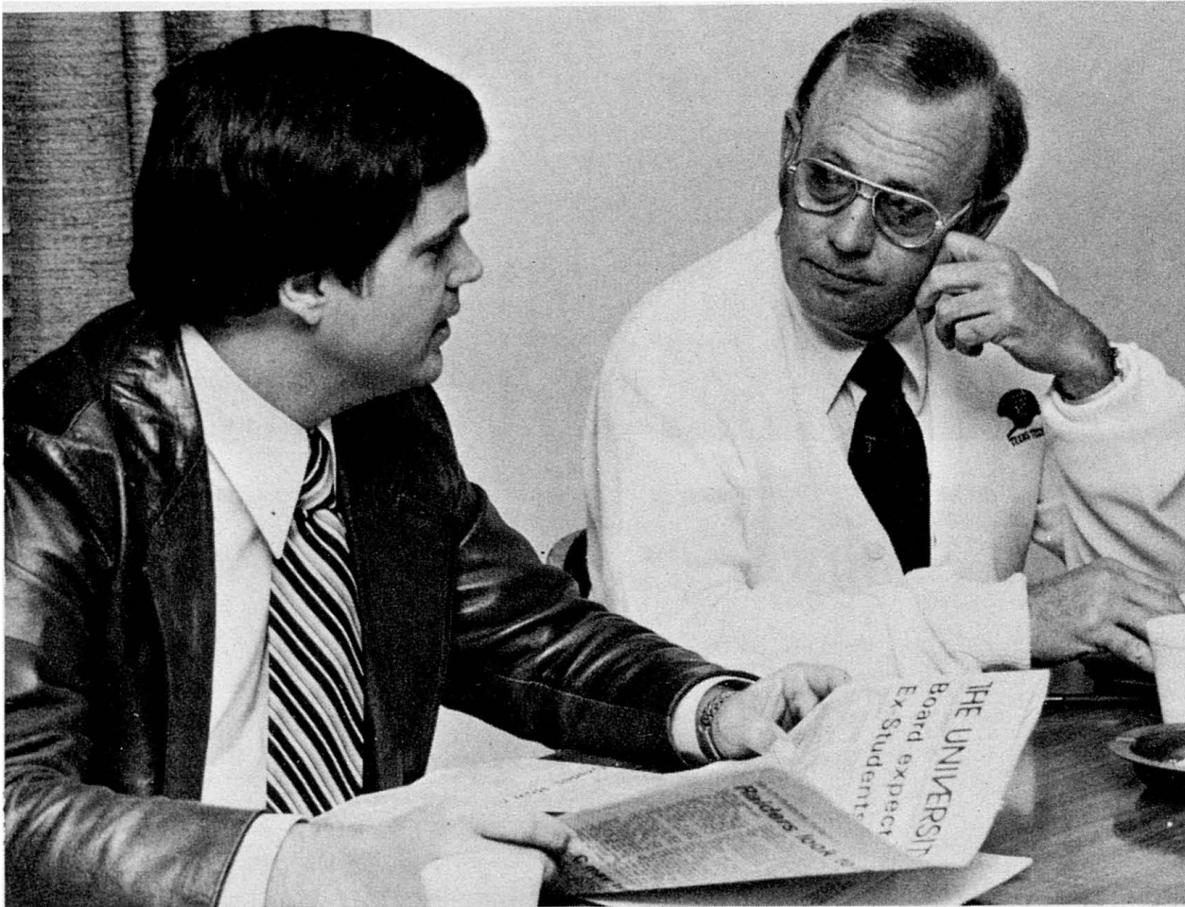

A Texas Tech crystal plate, a Steve Sloan book and an autographed Red Raider football were given as door prizes.

An organization of Ex-Students and Friends of the University, the Century Club is based upon financial support of at least one hundred dollars per year through the tax deductible Loyalty Fund.

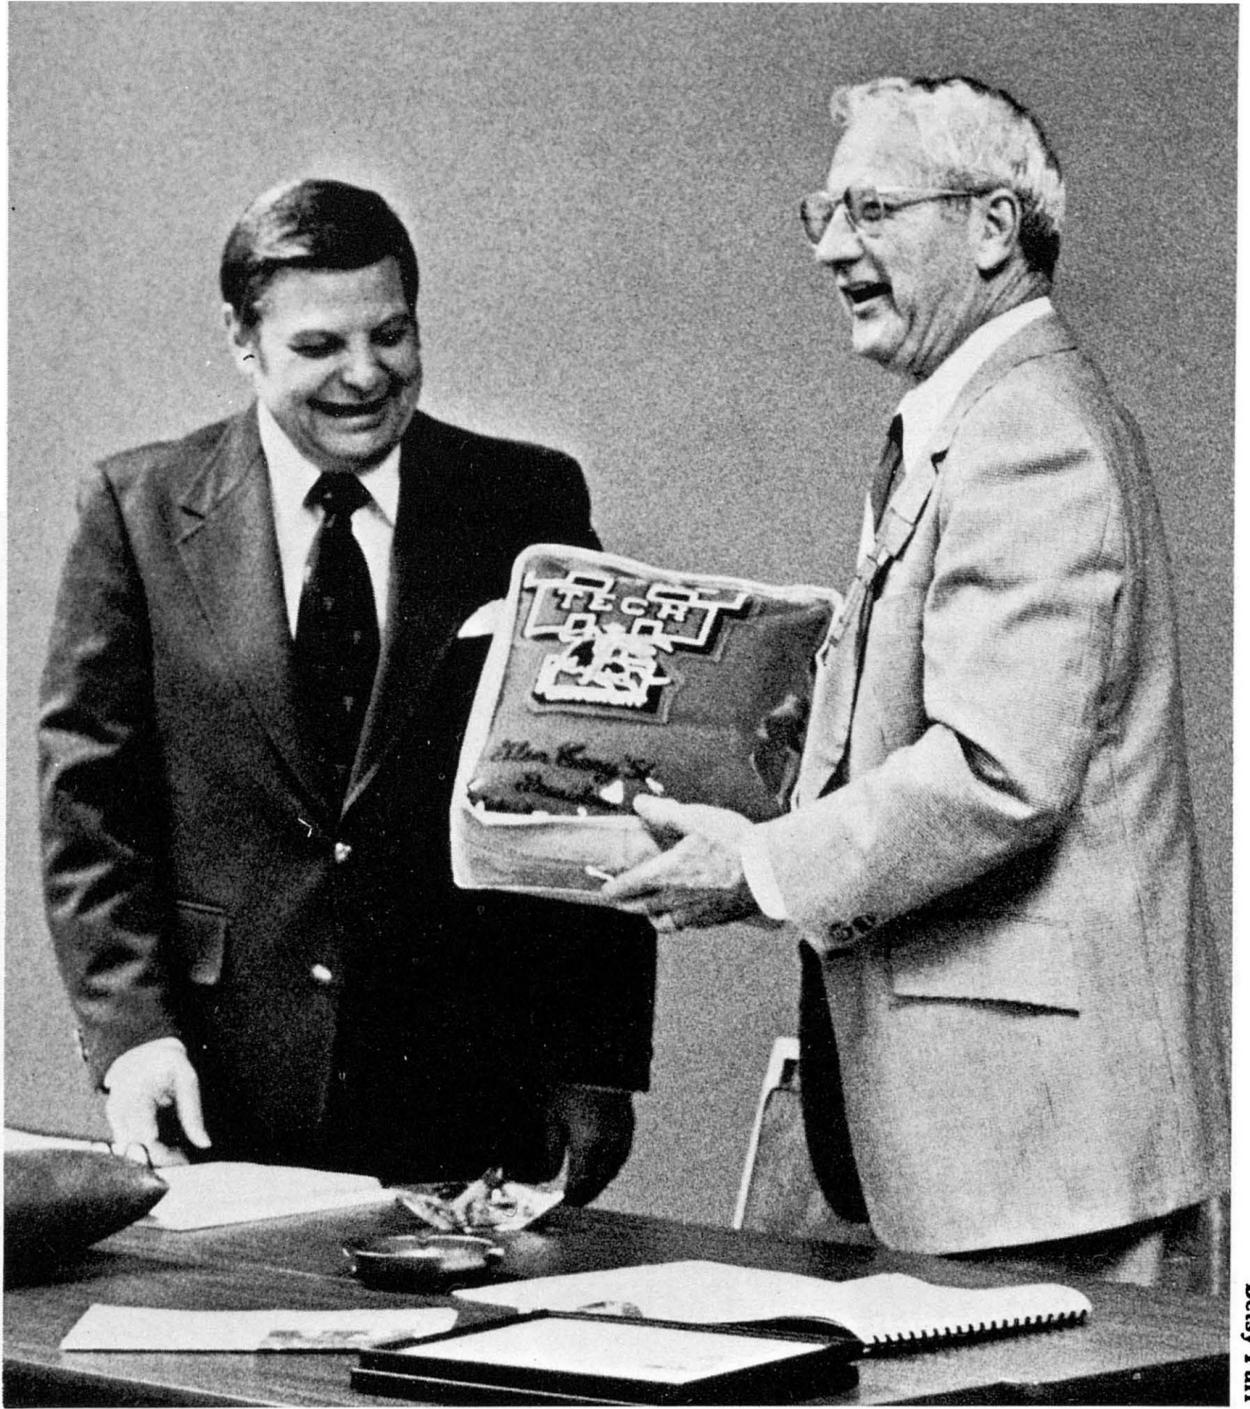

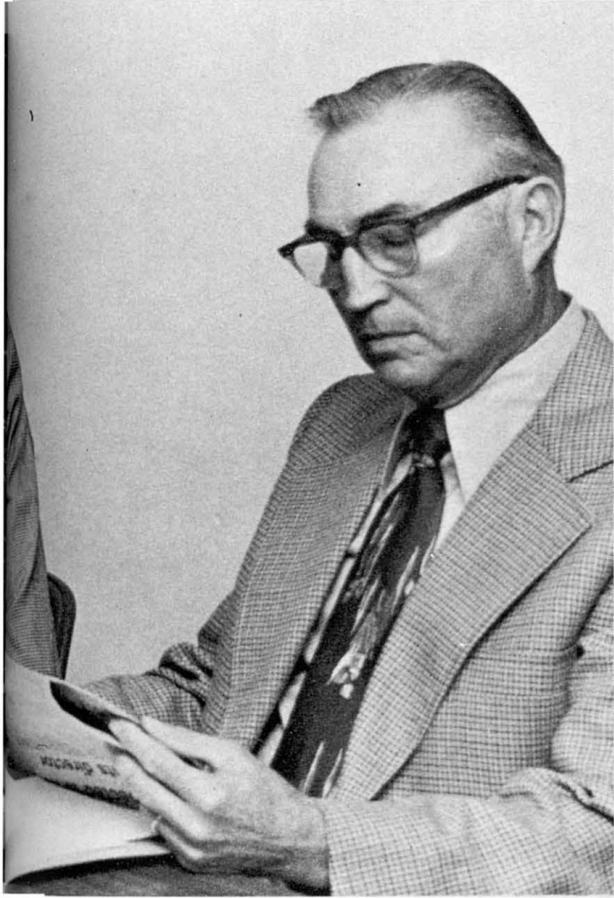

# Business As Usual

Emphasis was on business Friday, the first day of the two-day program. Meetings were held for the Ex-Students Association Executive Board, the Loyalty Fund Trustees and the Association Council. Past presidents of the Association were honored at a coffee, and the Association Council luncheon honored retired faculty and staff.

W. K. "Bill" Barnett (right) of Levelland, president-elect of the Association presents outgoing President Glen Cary of Dallas with a personalized Texas Tech blanket. Barnett assumes office January 1.

Betsy Furr

Betsy Furr

At left are the new officers elected by the nominating committee: President-elect Dr. R. G. "Wick" Alexander, Arlington; Directors Mrs. Anna Belle Collier, Dallas; W. W. Nicklaus, Amarillo and not pictured are Mrs. Sylva Wesendonk, Lubbock; and Dr. Jack Henry, San Antonio.

# Red Raiders Hit SMU 34-7 in the Snow Bowl

Playing football in snow is no fun, and the Red Raiders experienced that reality on Homecoming weekend.

First, the contest was postponed an hour-and-a-half when it appeared that the field wouldn't be cleared by the original starting time. The snow started dropping steadily at the tail end of the first half and continued for the rest of the game.

Texas Tech slalomed over a snow-covered field to a 34-7 victory over SMU, while many of the hardy spectators engaged in large-scaled snowball fights and others tobogganed down the hill at the north end of the stadium.

Norm Tindell

Darrel Thomas

Two Tech football players try to warm their cold feet with a portable heater during the Tech-SMU game. The cold and snow were part of a record-breaking winter storm which brought seven inches of snow and temperatures down to four degrees.

Despite the thorny weather, spectators prove they are not fair-weather fans.

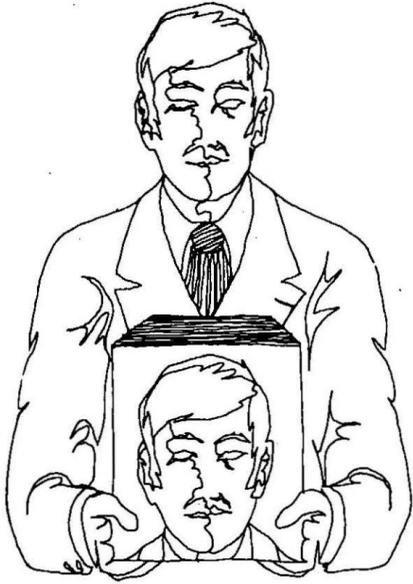

The artificial surface of Jones Stadium is covered with a natural coat—of snow—during the second half of the game. The snow caused all players—especially the defenders—to slip and slide throughout the second half.

Sometimes keeping dry and warm requires imagination, as the lady who rigged up a plastic book store sack to do the job.

Darrel Thomas

# Two Can Give as Easily as One

If you contribute to Texas Tech University and are associated with one of the companies whose names appear in this listing, you can arrange to have a second gift sent to your alma mater, courtesy of your company.

Perhaps the most pleasant aspect of gift matching, next to the good such contributions do, is how easily you can arrange to have them sent. Once you have made your gift, just inform the appropriate persons at your company that you've done so. A matching check will be sent to Tech soon thereafter, indicating that your gift made the matching gift possible.

In effect, by matching your gift, your employer is recognizing the contribution which you, as an educated person, are making to your company. It's the boss' way of saying "thanks" to the college which helped to provide your education.

To be sure, gift matching is only one way in which businesses and corporations are assisting education. But it has become an increasingly significant source of annual support.

Won't you check over this listing to see if your company has such a program. If it does, take a moment to have your gift matched. You may be sure that both gifts will be gratefully received.

Lubbock, Tex. 79409**

# Tech Today

Top Techsan Staffers for 1976 are: Fernando G. Romo, foreman of the greenhouse; Nelson H. Longley, director of the University Center and Student Activities; LaVerne Patrick, travel services coordinator; B. G. Daniels, chief of University Police; and Marshall A. (Joe) Winegar, supervisor of stenographic services and mail.

## Top Techsan Staffers Selected for 1976 Awards

Five employees of Texas Tech who have shown "loyalty to the institution and quality service" have been named recipients of the Top Techsan Staff Awards.

This year's recipients are LaVerne Patrick, Travel Services coordinator, 23 years of employment; Marshall A. (Joe) Winegar, director of Stenographic Services and Mail, 23 years; Nelson H. Longley, director of the University Center and Student Activities, 21 years; B. G. Daniels, chief of University Police, 18 years; and Fernando G. Romo, foreman of the Greenhouse, 15 years.

Recipients are chosen by an anonymous committee on the basis of loyalty to the institution and quality of service, service to students, faculty, the university community and the city of Lubbock, integrity and moral character.

Nominees must be non-teaching untenured personnel with a minimum of 10 years' employment.

The awards are presented annually, usually during Homecoming week.

## Continuing Education—For Pleasure or Preparation

Who's eligible for college? Well, during a lifetime, almost everybody.

If an individual doesn't get around to college before the age of 65, there is still time and opportunity. At 65, there are not even any fees to pay at some Texas institutions for those who want to sit in on a class and listen—or "audit," as the pedagogues call it.

The fastest growing movement in higher education today is continuing education, which can be within the regular schedule of daytime classes, a regularly scheduled evening program or especially scheduled courses.

Most students attend on college campuses, but continuing education crops up in hotel meeting rooms, office buildings, research stations—almost any location convenient for students. Some courses even come to students in their homes by mail, newspaper or television.

High school students, farmers, secretaries, bankers, engineers and hundreds of others are represented on the enrollment records throughout the year at Texas Tech and other institutions of higher learning.

Dr. C. Thomas Reese, head of the pro-

gram indicated that directions for his field of service offer possibilities unlimited.

The division has acquired for use during 1976-77 approximately \$200,000 in federal and state grants, primarily for work with the elderly and with government officials.

This year the division will probably also serve about 170,000 students from high school through postdoctoral levels.

At Texas Tech one of the largest continuing education enrollments is in correspondence work, both at the high school and college level, with almost 11,000 enrolled in study-by-mail. Approximately 9,000 of these are on the high school level.

The courses serve those who want degrees or who are looking for professional development or who want to satisfy a simple yearning to know. Course content might range from child development to banking, from petroleum engineering to swine production.

On-campus instruction is fairly easy to arrange, but off-campus instruction requires imagination and determination. To teach courses in higher education,

instructors fly regularly to area cities—Midland and Amarillo, for instance to take coursework to faculty, administrators and staff of other institutions who want to continue their employment while starting work on doctorates at Tech. Resident credit is given for off-campus work, although students must come to the Tech campus for a residence period before degrees are awarded.

Mature women, 25 years old or older, are increasingly users of college offerings, and more than 1,400 of them came to Tech last year to extend their education either for pleasure or to prepare for new careers outside the home. Counseling and guidance, however, are offered to everyone and students are urged to save time and money by seeking help before registration.

"It's a healthy sign to say we don't know where we're headed in continuing education," Dr. Reese said. "We do know we're on our way. We do know we're moving in the direction of greater public service. Continuing education must be flexible enough to allow the public to influence the directions we take."

Randy Leifeste, sophomore music education major from New Braunfels, and Kathy King, junior accounting major from Lovington, N.M., are the two recipients of the Association's \$200 Band scholarships.

## Lubbock Principals Endow Scholarships

The principals at the 15 Lubbock Secondary Public Schools have established a new scholarship program for graduates of Lubbock Public Schools.

The school officials contributed \$750 to the Texas Tech Ex-Students Association Endowment Trust to create the first of what is hoped to grow into five annual scholarships. The scholarships will be for the Valedictorians of each of the Lubbock high schools each year to Texas Tech University.

The money contributed will be permanently invested to endow the scholarships. Only the interest each year will be used to provide the scholarships.

A spokesman for the principals said, "we felt that the establishment of this scholarship program will both help to recognize the top academic student in each of the graduating classes in the Lubbock school system and also serve as an encouragement to students in the future to work to become their school's valedictorian.

We hope that both individuals and possibly business concerns in Lubbock will make gifts to the Endowment Trust Fund to enable these endowed scholarships to grow, he continued. Anyone interested in making gifts to their

special fund are encouraged to contact Wayne James at the Ex-Students Association Endowment Trust Office at 742-3641.

"We are very pleased at the establishment of this new scholarship program by these school administrators," said Manuel DeBusk, Chairman of the Texas Tech Ex-Students Association Endowment Trust. We hope that their action will be an example for other individuals and groups to not only support these scholarships but to also endow other scholarships.

## Assistant Directors to be Hired

The authorization for the employment of two Assistant Directors for the Ex-Students Association was the main item of business at a meeting of the Association Executive Board during Homecoming.

One of the positions will be in the area of Association activities and the other will be to work primarily on the Loyalty Fund. The position of Assistant Director has been vacant since January 1975 when Tony Gustwick resigned to accept the Alumni Association Directorship at North Texas State University.

Association President Glen Cary stated the Board felt the two Assistant Director positions were overdue. He pointed out that both the Association and the Loyalty Fund have had big growth during the past three years and that in addition, two new organizations Texas Tech Ex-Students Association Endowment Trust and Texas Tech Specialties Inc. had been created. "The Association has outgrown its present staff structure," he stated.

"The Board realized that Wayne James no longer could give proper attention to all four organizations. He has to have some help," Cary said. "The Association actually needs a full-time professional person for each organization but for the time being it can not afford it," Cary continued.

President-elect W. K. "Bill" Barnett stated that the two new people will enable James to spend more time in planning and introducing new programs, working in the areas of wills and bequests and endowed scholarships as well as to expand both the Association and Texas Tech Specialties Inc. into some new areas of activity.

Cary pointed out that the Association is looking for people with experience in Association and fund raising type of work and who have worked with volunteers.

Association President Glen Cary presents a check for \$500 to Tech head cheerleader Eloy Villafranca to help cover expenses incurred by the cheerleaders during the year.

## Mackey Inaugurated as Texas Tech's Ninth President

Dr. Cecil Mackey was formally inaugurated as the ninth president of Texas Tech University and the second president of the TTU School of Medicine in October.

Dr. Judson F. Williams of El Paso, chairperson of the Board of Regents, installed Dr. Mackey in an afternoon convocation highlighted by an inaugural address by Dr. David A. Mathews, secretary of the U.S. Department of Health, Education and Welfare. Mathews is on leave from the presidency of the University of Alabama to administer the federal agency.

Dr. Mathews cited "three imperatives" facing higher education.

The first is that colleges and universities "must get off the defensive, a posture in which they found themselves in the tumultuous '60's.

The second is that universities need "to recapture their vitality as houses of intelligence and creativity. They are charged with developing and nurturing the mind, with all of the rare capacities of that mind."

Third, American universities are going to have to get a "better chemistry with the American public." That chemistry needs to be characterized by vitality and strength which he believes, "are somewhat absent today."

Thousands of visiting dignitaries, many in full academic regalia, participated in the proceedings which ceremoniously consummated Mackey's assumption of the presidency.

Among visitors were top officials of the nation's learned and professional societies; presidents and chancellors of colleges and universities who hold membership in organizations to which Tech belongs; special donors; national, state, district, county and local public officials, and "friends and family" of the university.

Dr. Kenneth H. Ashworth, commissioner of the Coordinating Board, Texas College and University System, introduced Dr. Mathews. Dr. Glenn E. Barnett, executive vice president of Texas Tech presided.

Others who participated in the inaugural included: W. K. Barnett of Level-land, president-elect of the Ex-Students Association; Dr. Jacquelin Collins and Maurice F. Crass III of the Texas Tech and School of Medicine faculties, respectively; Terry Wimmer, president of the Student Association; and Cristopher N. Heinrichs, president of the medical school's class of '79.

Tech president Dr. Cecil Mackey laughs with David Mathews, secretary of the Department of Health, Education and Welfare, during the inaugural ceremonies.

### FREE UNIVERSITIES VITAL TO OUR COLLECTIVE WELL BEING

The following is the response by Dr. Cecil Mackey on the occasion of his inauguration as president of Texas Tech University and the Texas Tech University School of Medicine:

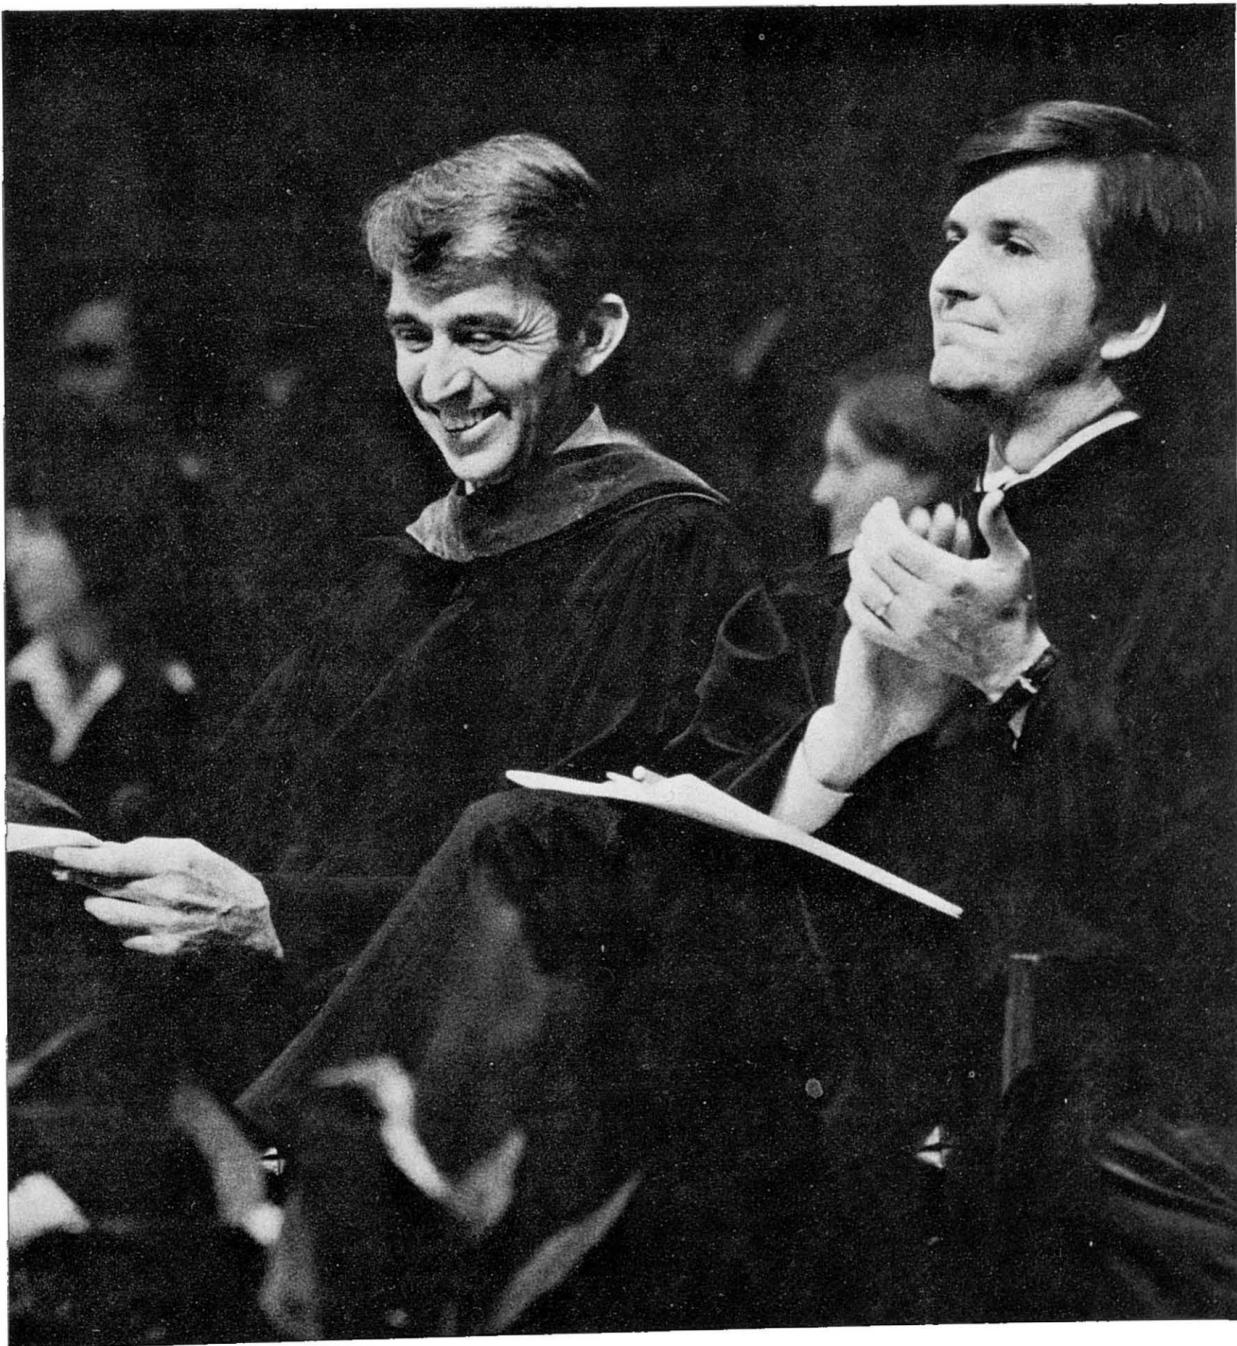

In a world so characterized by relentless change, it is important that we cling to some of the symbols and traditions of the past lest we find ourselves, without an anchor, set adrift amid the currents of impermanence. Universities are a proud part of our heritage and ceremonies such as this have long marked important academic events. They serve as opportunities for reflection and for recommitment—occasions to renew old faiths and recognize new affirmations.

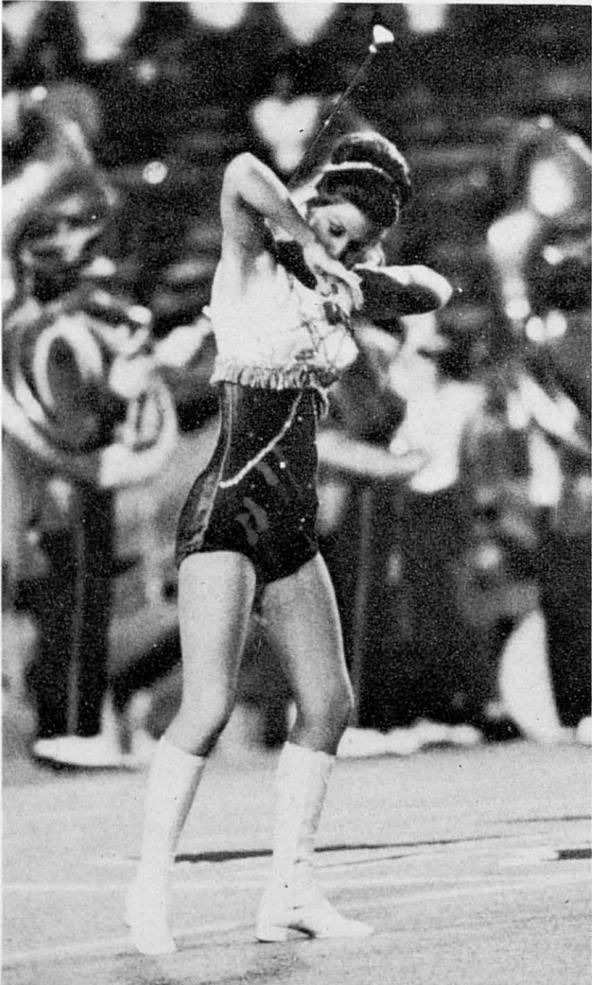

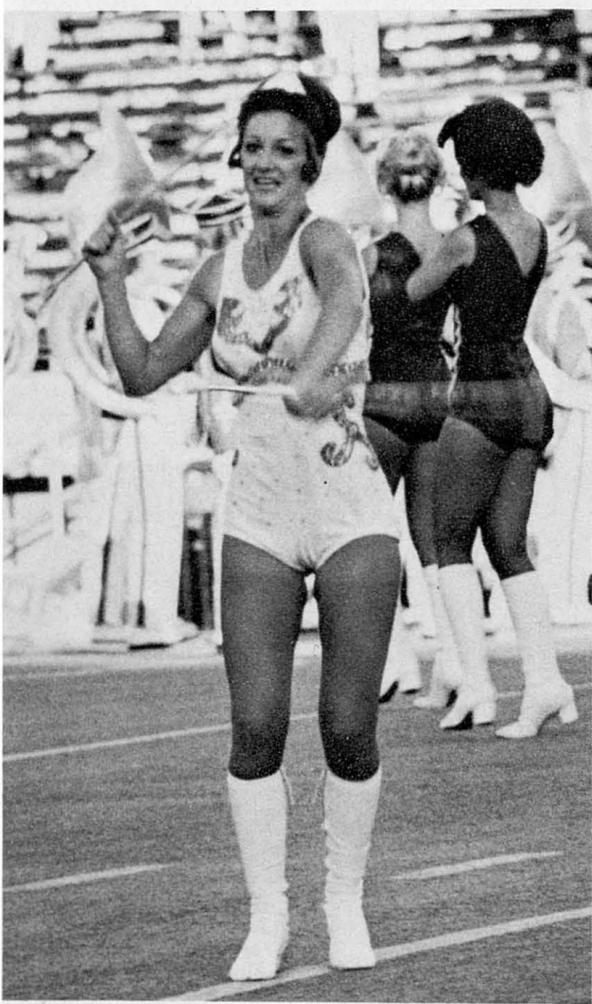

Thomas Jefferson, in the early days of the Republic, wrote that "No experiment can be more interesting than that we are now trying, which we trust will end in establishing the fact that man may be governed by reason and truth. Our first object should therefore be to leave open to him all the avenues of truth."

In this, our Nation's bicentennial year, it is abundantly clear that over these two centuries there has been no more important avenue to truth, no stronger force for reason within the democratic free society, than our universities. This would not have surprised Mr. Jefferson, for in addition to his many other uncommon talents, he also possessed an uncommon understanding of the role of the university.

Fragile though these institutions are, they have yet survived the onslaughts and the buffeting of the years, resisting politicalization, fending off the special interests, enduring anti-intellectualism and struggling under the burdens of financial stringencies. Let us not, however, assume that survival assures a certain future. Their continuation as free institutions, seeking truth unendingly, is vital to our collective well-being. The humanizing role of the liberal education has no counterpart and is increasingly important in a society where, as Alexander Solzhenitzyn, has observed, "Mankind's salvation lies exclusively in everyone's making everything his business..."

I urge all of you—as faculty, as students, as alumni, as regents, and as citizens, to join me reaffirming the frontier spirit of West Texas and the commitment to Texas Tech University that will be necessary to ensure the excellence and achieve the distinction this institution must have to reach its full potential.

Darrel Thomas

# Halftime Delights

By Lynn Hohertz

When football fans relax at halftime to the tune of the marching band and the routines of the feature twirlers, few of them realize the years of practice those few minutes in center field represent for the twirler.

Brenda Cunningham, a feature twirler for the Texas Tech University band, began her twirling career 12 years ago.

"I became involved with twirling because of my mother's interest in gymnastics and dance," said Brenda, a 20-year-old dance major from Fort Worth.

"At one time my mother was a circus performer who worked on the tetter board and trampoline. . . she now teaches in a recreational center," said Brenda.

Brenda also is recognized in competition twirling—winner of such titles as 1975 World's Twirling Champion, Miss Majorette of Texas for six years, Miss Majorette of America, Texas State Twirling and Strutting Champion and Junior National World Strutting Champion.

"Competition twirling is a lot different from feature twirling," she stated. "Competition involves more pressure. I'm more at ease on the football field and it's really exciting," she said.

Brenda shares this excitement and the title of feature twirler with Harvey Weant of Ozona.

Competition twirling is extremely time consuming and involves a tremendous amount of self discipline and practice.

"During the time I was involved in competition twirling, I practiced at least five hours a day," stated Brenda.

That practice cut into her social and scholastic life in high school. "I couldn't go out and do things with friends, couldn't have Friday night dates if I had Saturday competition and missed out on a lot of school activities. I missed a lot of school work which hurt my grades but I learned a lot through my twirling."

Brenda decided her senior year in high school to try out as Texas Tech feature twirler. She filled the position during the second semester of her freshman year.

"It takes a lot of work and time," she

said. There are requirements which have to be met in order to twirl for Dean Killion.

"We have to watch our weight. We weigh in each Monday and if we're overweight we don't twirl. It's important to look good on the field."

Other requirements include personality and speed. Killion likes fast twirlers, stated Brenda.

"I practice two hours a day now, she said. It really keeps me busy with school but I know I have a certain time to study and will get it done. The high school pressures are gone since being a twirler is more socially accepted in college."

Brenda constructs her own routines for each game and this is where her dancing background adds grace and finesse.

"I use basic routines from my competition solos," she said, "and then vary them depending on the music. You need to constantly add something new so an audience won't get bored."

Brenda considers her specialty to be a hip bounce in which the baton is bounced from her hip into the air. She also twirls hook knives.

"I've only cut myself once," she said, "at Hemisphere when the knives came down and caught me close to the eye. The knives really aren't that sharp, just heavy," she added.

Although the hook knives and machetes catch the fan's eye, the baton is much more complicated.

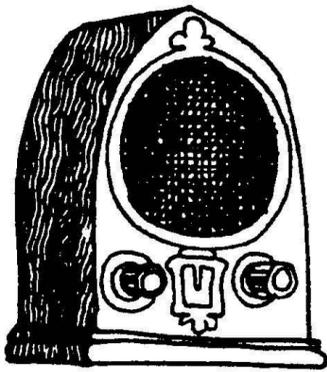

"Nobody realizes what is involved with the foot work and leaps incorporated with the baton. With knives, you are limited to what you can do."

According to Brenda, astroturf also causes complications as it is harder to keep your balance which is essential for baton rolls and aerial tricks.

The feature twirler also teaches twirling at such places as the Tech Band Camp.

What does Brenda see in the future? "I want to open a dance studio featuring twirling, gymnastics and dance," she said.

Any youngster interested in twirling needs to realize it takes more than just deciding to twirl. It takes years of experience and desire.

## Mass Comm Offers Practical, Academic Experience

Within the new \$2.96 million Mass Communications Building, students at Texas Tech University may well be working in both the most colorful and most utilitarian facilities for communications education in the Southwest.

After nearly 40 years of evolution, the mass communications department has moved into its new facilities.

Surrounded by individualized classrooms, offices, hallways and laboratories, students and faculty may never be able to catch up on missed sleep again—not amid the “popsicle” greens, the Caribbean blues, the passionate purples or the sunshine chartreuse adorning the walls.

When completed, the facilities, including the remodeled old Journalism Building adjacent to the new structure, will be valued between \$5 and \$6 million, according to Dr. Billy I. Ross, department chairperson.

“Students and faculty continue to work toward a separate school of mass communications, as are their counterparts at other universities throughout the nation,” Ross said.

Steps are already being taken to increase the number of quality mass communications students graduated from Texas Tech. With the rapid growth of the early years easing, more emphasis can be put on quality programs.

Harold Calhoun, partner in charge of the project for Calhoun, Tungate, Jackson & Dill Architects of Houston, said, “Our purpose was to provide a complete system for the teaching of all forms of media education.

“The actual media equipment will be installed gradually over a period of months or years, but the system is there, ready for installation, as the equipment is acquired.”

More than 30 faculty and 900 mass

and speech communications majors are using about 100,000 square feet of combined floor space in both new and old buildings, Ross said. Twenty-three classrooms and labs provide space for television studios; telecommunications labs; computerized newspaper production; advertising labs; studies on interpersonal, group and mass communications effects; and photography-film darkrooms and editing labs.

Video and audio cassette recorders, one-way glass partitions between control room and experimental rooms, ceiling-mounted microphones, wall-mounted television cameras and remote-controlled cameras are just part of the equipment either on hand or planned for the speech communications areas.

One of the most prominent features of the new building is the multi-media room, designed for large-group audiovisual presentations. Projection equipment includes a dual 16mm unit, programmed slide-motion picture system and a high intensity projector.

Designed for producing TV programs, too, the room is acoustically treated and has a 25-foot-high light grid over the performing area. A multiple screen with front or rear projection, color video monitors and a stereo audio system also are featured.

## Horn-Knapp Library Named for Garner

The new study library in Horn-Knapp halls has been named in honor of Dorothy Taft Garner.

Mrs. Garner first came to Tech from Norman, Okla. in 1956 and served as assistant Dean of Women. In 1964, she became coordinator of women's residence halls remaining in that position until her retirement in 1974. She had lived in Horn Hall until February 1972.

The library contains approximately 500 books and magazines, some donated by Garner and Tom Mills, architect for the Horn-Knapp renovation. A portrait of Garner and pictures of previous Carol of Lights projects have been placed in the library.

She is credited, along with Dr. Gene Hemmle, professor of music, with developing the Carol of Lights Project. The two met with dormitory and choir students at Christmas time in 1958 to sing carols. That meeting resulted in the traditional Carol of Lights lighting and singing program still conducted during the holiday season at the university.

Residents of Stangle Hall honored Garner in 1969 by creating the Dorothy Taft Garner Scholarships awarded to two Stangel residents each year.

Her daughter, Ann Garner Hilliard is a '58 graduate.

# It's not too late to join the 1976 Century Club

An organization of Ex-Students and Friends of the University, the Century Club is based upon financial support of at least one hundred dollars per year through the tax deductible Texas Tech Loyalty Fund.

In 1974, the membership was expanded to include three additional levels of memberships. Golden Century Club is for members that contribute a minimum of \$250, Ruby Century Club for gifts above \$500 and the Diamond Century Club for \$1,000 or more. Members receive an appropriate pin or tie clasp and a charm signifying the level of membership.

All gifts for membership should be made payable to the Texas Tech Loyalty Fund. Membership is also available through the Bank Authorization Plan and by gifts of securities. Loyalty Fund officials have pointed out that gifts for membership may be paid on a monthly or a quarterly basis.

Gifts are tax deductible and any previous gift in 1976 will count toward Century Club membership.

Morley Jennings

Polk Robison

Buddy Barron

## Athletic Hall of Fame Inducts Three Men

Two former athletic directors are among the three persons inducted into the Texas Tech Athletic Hall of Fame.

The three new inductees are Morley Jennings, Tech AD from 1941-51; Polk Robison, ex-Ad and associated with Tech for 40 years of its 50 years; and Vernon "Buddy" Barron, Raider footballer from the 1950's.

The three men bring the number of men in the hall to 38. They were inducted at halftime of the Arizona football game in Jones stadium.

The honor is the second in a matter of two months for Jennings, who was

inducted into the Mississippi State Hall of Fame last month. After graduating from MSU, where he was a multi-sport athlete, Jennings became athletic director and coach at Ouachita College from 1912-1926 when he took over as AD, head football and baseball coach at Baylor.

He coached the Bears 1926-40, compiling an 83-60-6 record. He moved to Tech in 1941 and served until 1951. After stepping down as athletic director, Jennings stayed on at Tech until 1965 as a professor in the school's P.E. department.

He is a member of the National Football Foundation and Hall of Fame, the Helms Hall of Fame and the Arkansas Hall of Fame.

Robison is now Tech's athletic administrator of finance and development, the latest step in his association with Tech. He first came as an athlete, helping the Raiders to the 1934 Border Conference basketball title. After graduation and a stint as coach at Burkburnett, Robison returned to Tech in 1941 as assistant football and basketball coach.

He was named head basketball coach in 1942, and except for the 1946-47 season, led the Raiders until the 1960-61 season. He led Tech to the SWC championship in 1961 and a pair of Border Conference championships. He had a 154-196 record.

In 1961, he became athletic director and served until 1969 when he moved to the financial position.

He is currently a member of the NCAA Executive council, the organization's financial group.

Barron earned three varsity letters in football (1950-52). He was captain of the 1952 team and was a starter on the 1951 team which downed Pacific 25-14 in the Sun Bowl.

Barron is past president of the Tech Ex-Letterman's Association, past president of the Lubbock Chapter of Southwest Football Officials Association and a former SWC official. He is currently serving as president of the Lubbock Chamber of Commerce.

All three men reside in Lubbock.

## Issac Breaks Rushing Record

The only thing that Larry Issac remembers about Donny Anderson is seeing the former all-American catch a pass. Now, however, the rushing record which Anderson held for more than a decade belongs to Issac.

For those, who were around in the mid '60's, Anderson punted, ran, caught passes and even played defense. He made A-A twice before shuffling off to the pros as the highest paid rookie in the game. He left behind a string of broken tackles and a stack of 2,280 yards of rushing offense.

Anderson put it all together for three years, but now, Issac, with a extra year—half in his case—to play, has knocked Anderson down to No. 2.

Larry Issac

Darrel Thomas

## Tech Spikers Boast Winning Season

The Texas Tech's women's volleyball team has finished their 54-7 season with one of the best records in the state.

"Obviously, we had a good season," said Coach Janice Hudson. "Our only disappointment was that we didn't get a bid to the national play-offs."

The Tech team had a disappointing performance in the State tournament, losing in the consolation finals. Competing as an at-large team, they nabbed the consolation trophy in the Regional tournament, where 10 Texas teams and six teams from Oklahoma and Louisiana competed for a chance to play in Nationals.

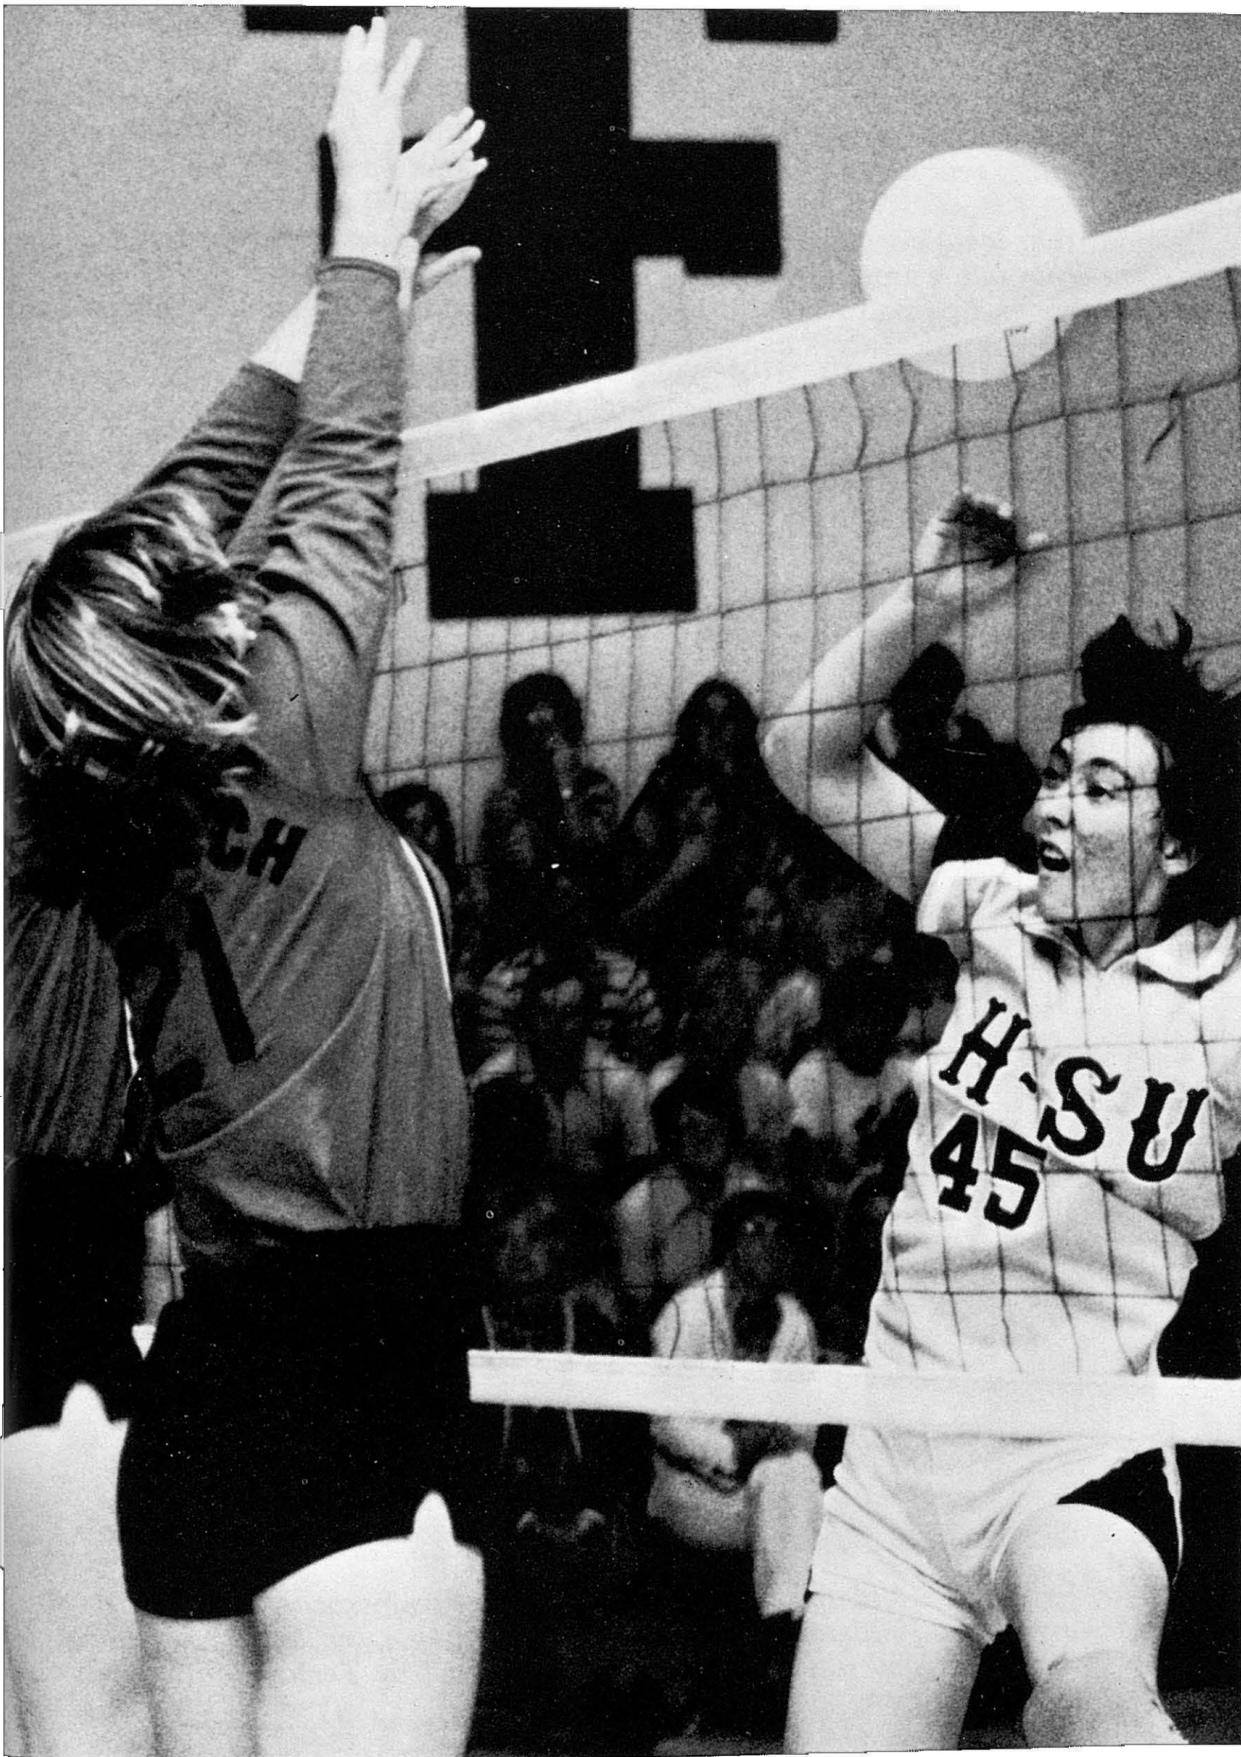

Tech's spikers use a multiple offense, also called a "six-two," Hudson said. Of the six spikers on the starting team, two are also setters. This situation allows for a fast offense with many different

plays, she said.

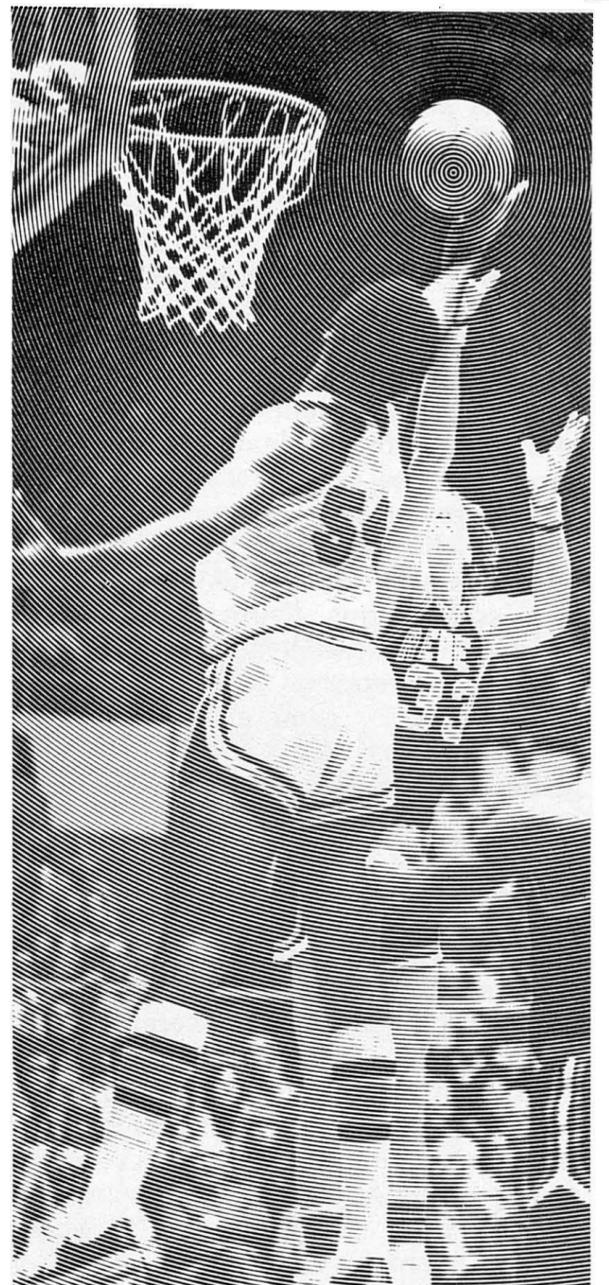

Lisa Love, junior from Arlington, and Ruth Knight, junior from Big Spring, are the two starting players that are also setters and spikers.

Lisa Pipes, junior from Big Spring; Cheryl Davis, sophomore from Dallas; Teresa Jones, freshman from Monahans; and Betty Campbell, freshman from San Antonio are the other four members of the starting team.

Team members credit Hudson for instilling a winning attitude and stressing perfection in practice. Hudson used to coach at Monahans High School. She also has played on the United States team that played in the North American Caribbean Cup Tournament, preliminary to the Pan American tournament. She has been Tech's coach for two years.

Karen Thom

Feb. 19	.....	New Mexico Military

# Football Memoirs Given To Tech

A key witness to Texas Tech University's first football game 51 years ago has contributed his memoirs of that contest to Texas Tech's Southwest Collection.

William Curry Holden, an important figure in the university's history, attended the 1925 game as a booster of the McMurry College Indians, Texas Tech's first opponent. Then a professor of history at the Abilene school, Holden described the contest as "one of the most amateurish games Tech ever played," but said the team "made up in enthusiasm what it lacked in skill."

A conspicuous figure at the game, Holden was described by a "Lubbock Avalanche" reporter as "the tall fellow who played the game at the sidelines." "The McMurry coach and I roomed together," Holden explained. "We were both young and full of vinegar at the time. He had no assistants of any kind. I didn't give much help to him because I knew absolutely nothing about football. But we were both tremendously interested in those kids. Anything they were involved in we were 'gung ho' for it."

Abilene merchants were as enthusiastic about the game as McMurry students and faculty. J. W. Couch, a tire dealer, was among several who furnished cars to transport McMurry rooters across the lonely 175-mile stretch to Lubbock. "At the time I don't believe there was a foot of pavement

between Lubbock and Abilene," Holden said.

Lubbock businessmen were as supportive of Tech, Holden indicated. "At that time, Lubbock was made up of big boosters and boasters. There was a spirit here in Lubbock that I have never encountered anywhere else. All for one and one for all. They were very possessive of Tech, and were behind everything Tech did," Holden said.

The location of the Texas Tech playing field puzzled Holden. "The one thing that stands out in my mind about that game was where it was played. With all of those twenty-three hundred acres out here that were nice and level—all of it had turf on it—they just scraped off that first field way out where the South Plains Fair parking lot now sits.

"It was just an unfenced caliche hill. There were rocks of all sizes covering it—some as big as baseballs. I don't know how those boys played that game without ruining everybody's arms and elbows."

Despite the location of the game, fans came from miles around to witness the new school's first showing. "It was the biggest game McMurry had ever matched," Holden said.

A crowd of over forty-five hundred gathered on Fair Park grounds that Saturday afternoon. Holden described the group as "a pretty country looking rag-tail bunch."

Holden said the teams didn't look much better than the crowds. "The McMurry team was a bunch of kids from a cotton patch. But at least they had three years of football behind them. The Tech team, nicknamed the Matadors, consisted of kids who had never had a football in their hands. They were from towns where they just didn't play football. They'd never seen a football game until the coach got them out there and tried to teach them how to do it."

Texas Tech's Nevin Trostle kicked off to McMurry to open the game. During the first quarter the Matadors drove to the McMurry 25, but a field goal attempt by Tech captain Winfield Nicklaus of Amarillo was blocked.

The kicking game dominated the contest as the teams combined for a total of 22 punts. "That was the only way they could keep from tackling so much and tearing themselves up on the rocks," he explained.

Holden remembered well the last few seconds of the game. "Tech had the ball on about the 20-yard line. It was the fourth down. Time was running out, so Tech gambled on kicking a field goal. Tech made a perfect kick through the goal posts. But time had run out a second before the play. Few noticed the shrill whistle indicating the score did not count. Tech fans exploded, not paying attention to the referee's whistle. When they finally realized what happened, it took the wind out of their sails," Holden recalled.

The Matador-Indian game ended with a 0-0 score.

Texas Tech center Nevin Trostle of Shamrock received the honor of beginning the school's colorful history of collegiate football as he kicks off to McMurry College on an October afternoon in 1925. Ending in a scoreless tie, the game was witnessed by 4,500 fans, including McMurry instructor William Curry

Holden who later became a professor of history at Tech. Holden's memoirs about the game, as well as photographs and other accounts, are preserved by Tech's Southwest Collection.

# NO-LOSS

Philanthropy is characteristic of Americans. Planned giving can greatly enhance the impact of your gift. The Texas Tech Ex-Students Association Endowment Trust was created to help Ex-Students and other Friends of Texas Tech provide permanent support of worthy programs.

Endowment simply means funds permanently invested to earn more dollars. The income earned from the investment may be used to support such worthy programs as scholarships, research, student aid or other places where the need is greater.

The Texas Tech Ex-Students Association Endowment Trust was established where individuals, groups or corporations can make gifts that will be lasting. It provides the donor an opportunity to pick a particular area in which his gift will continuously work to benefit the purpose he selects or if he wishes, he can let the Trustees determine an area where the need is the greatest.

Gifts to the Endowment Trust may be of different types:

- Gifts of cash
- Your gift can be appreciated securities, either given now or at a time you determine.
- You may give a paid up insurance policy or one you agree to continue to pay the premiums for
- The Endowment Trust will readily accept gifts or pledges, such as an amount of cotton, grain, land or any form of real property.
- You may choose to give oil leases, overrides, oil royalties or other forms of minerals.
- Many have already chosen to make a bequest through their Will.

We anticipate that many contributors to the Endowment Trust will want to consult their accountant, attorney or other financial advisory prior to making a commitment. For credit on 1976 income tax, gifts must be received by December 31, 1976.

You may receive information on the many ways the Texas Tech Ex-Students Association Endowment Trust can aid you by completing the coupon and sending it in.

# Ex-Students Honor Retirees

Texas Tech faculty and staff who have retired during the past 12 months were honored by the Ex-Students Association at a luncheon during Homecoming.

The 1976 honorees represent 26 different departments at Tech with a total of 567 years of service to the institution.

Those being honored and their years of service include:

**Mr. Daniel Aleman**  
Custodian Foreman, University Center  
10 years

**Mr. Edward Austin**  
Electrician, Building Maintenance  
15 years

**Mrs. Isla Calvert**  
Secretary, Psychology  
11 years

**Dr. Mary Dabney**  
Professor of Physical Education  
24 years

**Dr. Joe Dennis**  
Professor of Chemistry  
38 years

**Dr. Laura Evans**  
Professor of Education  
17 years

**Mr. Joy Feazell**  
Automotive Maintenance Foreman,  
Physical Plant  
25 years

**Mr. Wright Ford**  
Steamfitter, Building Maintenance  
13 years

**Mrs. Lela Fowler**  
Cashier, University Center  
15 years

**Mr. Bob Goodson**  
Technician III, Engineering Services  
20 years

**Miss Cummie Gould**  
Centrex Systems Operator  
14 years

**Mrs. Velma Green**  
Custodian, Building Operations  
11 years

**Mr. Otto Helweg**  
Tree Trimmer  
10 years

**Mr. James Hillard**  
Associate Track Coach  
12 years

**Mr. A. J. Hogan**  
Painter, Building Maintenance  
11 years

**Mrs. Floy Johnson**  
Bindery, Texas Tech Press  
11 years

**Mr. Philip Johnson**  
Professor of Petroleum Engineering  
29 years

**Mrs. Betty Jones**  
Secretary, Contracting and Purchasing  
19 years

**Dr. Ralph Jones**  
Professor of Political Science  
11 years

**Mrs. Floy Morrison**  
Assistant Director, Placement Service  
12 years

**Mrs. Lura Murphree**  
Custodian, Building Operations  
18 years

**Mrs. Dorothy Padgett**  
Clerk Typist, Library  
10 years

**Mr. Orville Perser**  
Building Custodian Foreman  
23 years

**Miss Fannie Pillow**  
Associate Professor of Education  
12 years

**Mr. John Prestridge**  
Linetype Operator-Printer,  
Texas Tech Press  
11 years

**Mrs. Emma Roberts**  
Food Service Manager, Residence Halls  
18 years

**Mr. William Sandel**  
Professor of Industrial Engineering  
10 years

**Mr. Willie Shields**  
Cook, University Center  
10 years

**Mrs. Dorothy Smith**  
Clerk, Southwest Collection  
11 years

**Mrs. Mary Strandtmann**  
Assistant Professor of Mathematics  
24 years

**Dr. Ernest Wallace**  
Horn Professor of History  
24 years

**Mr. Terrell Warren**  
Professor of Architecture  
12 years

**Mr. Ova Wheeler**  
Plumber Foreman  
23 years

**Miss Willie Wolfe**  
Associate Professor, Home Management  
19 years

**Mrs. Martha York**  
Administrative Assistant, Admissions  
14 years

# Class Notes

**31** Mildred H. Taylor, a former Lubbock teacher for 30 years, moved to Weslaco where she substituted for two years. She received a M.E. degree in '56. Her hobbies include oil painting, watercoloring and crocheting. Her daughter is Jeanette Taylor Long '61, of Brownfield.

**38** Barney and Frances '40 McCasland traveled in the summer to the Far East to visit sons Scott and Pike in the Philippines. Barney spent the rest of the summer consulting.

**40** Dr. John R. Bertrand recently completed 20 years as president of Berry College at Mount Berry, Ga. He majored in agriculture at Tech and received the Distinguished Alumnus Award in 1971.

**46** Bettie Sylvanus has been named Business Teacher of the Year for 1976 by District XIV Business teachers at the District convention. She teaches business courses at Anson High School.

**49** H. P. Bezner is the drilling manager for Esso Exploration and Production U.K. in London. His wife Vicky and three daughters also are living in London. They have one son attending Tech.

John E. Coppinger has been promoted with Halliburton Services from division engineer to assistant manager of the Corpus Christi division.

Doyle E. Rogers has been appointed vice president—Texas for Southwestern Bell Telephone Co. He will move to the firm's Dallas headquarters in Dallas from St. Louis, where he has

been vice president—revenues and public affairs. He and his wife, Marci have one daughter and a son, who attends Tech.

B. J. Whitworth

B. J. Whitworth has been named Manager-Product Reliability for Hughes Tool Company. He will have the responsibility for developing the program, organization and training to monitor and control Hughes' product quality on a worldwide basis.

**50** Robert H. Evans has completed 35 years of service with Gulf Energy and Minerals Co.—U.S. He is a production superintendent in the Monahans area. He joined Gulf in the Sand Hills area in 1941.

**54** Gordon Treat has been named vice president-operations for National Pipe and Tube Co. He assumes responsibility for all operations at the firm's pipe mill in Liberty, Tex.

Gordon Treat

James Rudy

**55** James S. Rudy has been appointed North Texas zone manager for Oak Farms Dairies, with office at the firm's headquarters in Dallas. He and his wife, Mary Jane have moved with their three children from Kansas City to Carrollton.

Don Hufstedler has been selected to the board of directors of American State Bank. He and his wife Lynnita, are the parents of four children. They reside in Plainview, where he manages the E.K. Hufstedler & Son implement firm.

**56** John and Patricia '57 (Johnson) Hutchens are living in Metairie, La. He is a partner in charge of the New Orleans office of Ernst & Ernst, an international certified public accounting firm. They have three sons, ages 11, 9 and 7.

**57** John "Chick" Smith has joined Polaris Production Corporation's petroleum department in Midland. A new consulting firm has been formed by members of the Polaris engineering staff to be known as Payne, Spires Smith and Associates.

## Who's Who

**Buddy Barron '49**, president of Buddy Barron and Co., Realtors, has been elected president of the Lubbock Chamber of Commerce and **Owen Hamilton, '53**, president of the Hamilton Roofing Co., has been elected vice president.

Prominent San Angelo rancher, **Bill Pfluger, '60**, is the current president of the Texas Sheep and Goat Raisers Association.

**C. A. Cash, '35**, of Amarillo, board chairman of Diamond Shamrock Corp., was one of two recipients of the Texas oil and gas industry's top honors, the Texas Mid-Continent Oil and Gas Association Distinguished Service Award. He is a former member of the Texas Tech Board of Regents and received the Distinguished Alumnus Award in 1971.

**Dr. Robert Rouse** has asked to resign as chairman of the department of economics effective August, 1977. He said his resignation was a personal decision and indicated he will stay with the department as a professor and may branch out into new areas of the teaching field. Rouse has served as chairman for 19 years.

**J. Culver Hill, '32**, has been named to the Texas Tech Mass Communications Hall of Fame and will be inducted officially on February 17 during Mass Communications Week. Hill retired in 1975 as advertising director of Hemphill Wells Co. after 50 years employment with the firm.

Sherry Franz, San Antonio senior and president of W.S.O. receives the third annual Community Service Award from Texas Tech Ex-Students Association President-elect Bill Barnett of Levelland.

**Dr. Lawrence L. Graves**, dean of the Tech College of Arts and Sciences, has become president of the National Council of Colleges of Arts and Sciences. The council is composed of representatives of 165 state universities. He served as president-elect for a year before elevation to the presidency.

**Mrs. Gertrude S. Morse, '35**, director of Food Service for the Texas Tech University Center has been named a finalist (third place) in the third annual Havasalat Contest. The national contest is for anyone involved full or part-time in menu planning, purchasing, preparing or serving quantity meals for a food service establishment. Her winning recipe, "Chicken-Broccoli Mornay Salad," won her a silver engraved salad bowl trophy and a cash award.

**Richard D. Latham** has been selected to replace **Roy Mouer** as Texas Securities Commissioner. Both men are Tech graduates. Mouer resigned the position to become a partner in the firm of Salmansor and Smith in Austin.

Inside the costume of Raider Red, is Tech junior **Gary Wright**, an engineering major from Richardson. He is the son of John Wright, '42 and has had two sisters to attend Tech.

## This 'n' That

The Lubbock City Council recently purchased 24 new orange and white city buses. The Student Association and the Ex-Students Association Past President Council at Tech have passed resolutions requesting the buses be painted another color—preferably red and black.

University officials have announced they are seeking appropriations of \$121.8 million for the biennium from the Legislature. This compares to \$83 million for operating the University in the current biennium.

## Do You Remember

- ... Pete Cawthon's father was a member of the first graduating class at Texas A&M?
- ... Pete Cawthon was asked to make the flight on which the famous Knute Rockne lost his life?
- ... the 1932 Texas Tech football team was the highest scoring major team in the nation with 382 points scored in 12 games?

# '76 Grads . . .

# Deaths

The funeral for **Harrison Eugene Woodard**, age 46, of Fort Worth, was held in September. Woodard and his single-engine plane were found in a wreckage near Broken Bow, Okla. Woodard, '54, an architect, was president of Woodard Associates & Co. of Hurst. He is survived by his widow, Mable Lee Woodard.

Services were held for **Danny E. Parrish**, age 33, widely known political strategist and pollster. Parrish, '66, a native of Lubbock and resident of Fort Worth, was hospitalized several weeks undergoing treatment for hemophilia. He was former executive director of the Texas Hemophilia Association.

**Charles Ewen Forehand**, age 38, of Coynosa, died in October from injuries sustained in a fall from a radio tower he was tearing down. He was a farmer and operator of Green-Forehand Feed Lot in Pecos. He received his bachelor's ('61) and master's degrees from Tech. Survivors include his wife, a son and a daughter.

Services for **Mrs. Lolita Johnson**, age 51, of Wolfforth were held in November. She died after a lengthy illness. Mrs. Johnson taught in the Frenship Public Schools for 25 years. Survivors include her husband, John, a daughter and a son.

**J. Dixon Bullock**, age 52, died with cancer in September. He was president of Bullock's Jewelry Inc., Roswell, N.M. and a '49 graduate. He is survived by his wife Pat, and two sons.

Services for **Charles C. Crenshaw, Jr.**, of Houston, were held in September. Crenshaw was graduated from Tech in '36 and received his law degree from Southwestern University in Washington, D.C. He practiced law in Lubbock before moving to Houston. Survivors include his wife, Pauline, one stepson and two sons.

**Morgan Gist**, age 72, died from a heart seizure in September. He was graduated from Tech in '32 and was the founder of Gist Tool Co. He invented and manufactured Gist Positive Centralizers. Survivors include his widow, Velma, and two sons.

The funeral for **Kathryn Weaver**, age 59, of Lubbock was held in October. She was graduated in '39 and was a member of Kappa Alpha Theta and a charter member of the Lubbock Junior League.

**Patrick Doherty**, age 21, an agricultural student from Des Moines, N.M., died from a gunshot wound to the head. Doherty had been a Lubbock resident since 1972. He was a member of the Student Agricultural Council, the Student Improvement Board and Alpha Tau Omega fraternity.

Services were held in October for **Robert Luther Lee**, age 42, of Lamesa. Mr. Lee died following an extended illness. He attended Tech and is survived by a son and a daughter.

**M. R. McDonald**, age 66, of Crosbyton died at his home in October after suffering an apparent heart attack. A native of Summerville, he attended Tech. He is survived by his wife and two sons.

**Eugene Moser**, age 68, of Ardmore, Okla. passed away in October of an apparent heart attack. He attended Tech and taught in Colorado nine years. At the time of his death, he had been employed by Continental Oil Company for more than 25 years.

Funeral services for **Mrs. George Elton Smith**, the former Maurine Harris, were held in Arlington earlier this year. She was a '34 graduate and passed away after a lengthy illness. She and her husband were members of the Century Club. Survivors include her husband, George Elton '33, and a son, Roger, '63.

**Rev. Dr. Hubert Hopper**, age 66, of Dallas died in his home in October. He was a '32 graduate of Tech, Austin Presbyterian Theological Seminary and Austin College. He was pastor of Glendale Presbyterian Church. He is survived by his wife, Elizabeth and two daughters.

Services were held for **Herman Lawson**, age 65, of Waco, who died in October. He had attended Tech and for 42 years, he was a heavy equipment operator for Universal Atlas Cement. He is survived by his wife, Lois.

**General Washington Whitaker III**, age 45, of Fort Worth died in October after a lengthy illness. He was an electrical engineer for the Federal Aviation Administration. He attended Tech.

**John Charles Tosh**, age 45, of Lubbock died in November after a sudden illness. The Lubbock native was retired from the U.S. Air Force. He had attended Tech. Survivors include his wife, three sons and two daughters.

**Irene Ham Kuykendall**, age 69, formerly of Abilene, died in September of an apparent heart attack. She had received her master's degree from Tech in '66 and taught school for 43 years retiring from the Southland schools in 1974. Survivors include three sisters.

Funeral services were held in November for **Mrs. Mollie Jane Gaddy**, age 94, who died following a brief illness. She was an employee of Tech for 20 years before her retirement.

Services were held for **Mrs. Beverly Moorhead**, age 50, who died in November following a long illness. She was a '53 graduate of Tech and a member of Delta Kappa Gamma sorority. She had taught school in Abernathy for 25 years. Survivors include her husband, Jerry, a daughter and a son.

**Ivy Green Savage**, well-known Lubbock educator and longtime civic leader, died in November of natural causes. Her 42-year educational career included teaching and administrative duties. She was active in civic clubs and organizations. She was graduated in 1935 and earned her master's degree in 1941. Survivors include her son, William T. Savage '39, of Lemont, Ill. and Mr. Paul (Betty) Mills '41, of Lubbock.

Mass was held in November for **Louis Catuogno, Jr.**, age 44, a member of the music department faculty at Tech since 1961. He died in Dallas after a lengthy illness. He was an assistant professor of piano, where he served as chairman of the keyboard division and also taught undergraduate and graduate piano pedagogy.

Services were held in September for **James W. Ross**, age 43, a Harlingen resident, who died of self-inflicted gunshot wounds, according to family members. He attended Tech and was a former Floyd County resident.

Services were held for **Ed Klein** earlier this year, who died in April after an illness of a few months.

## Memorial Gifts

During the past month, memorial gifts to the Texas Tech Loyalty Fund have been received.

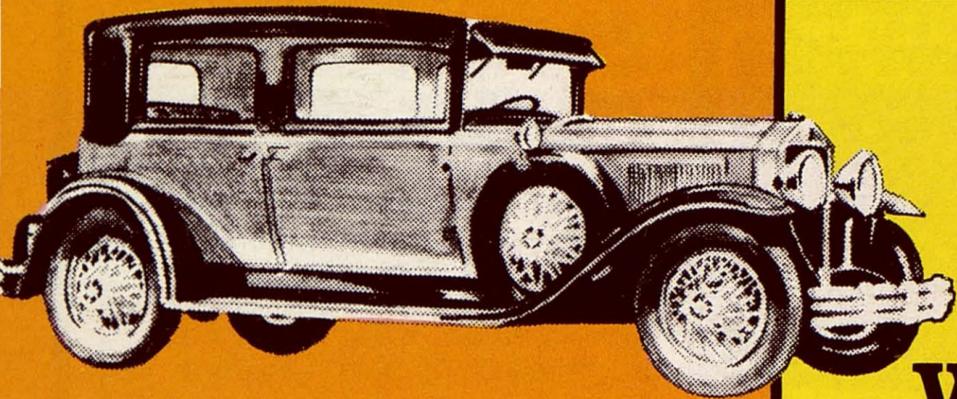

### In memory of:

John Stephen Cox by his mother, (Mrs. Theresa Lokey Cox)

# Scoggin-Dickey—Texas' oldest metropolitan Buick dealer

Sometimes oldest doesn't mean best . . . but our longevity should be important to the car buyer . . . it's hardly likely we could operate all these years without being straight forward and fair dealing. At the same time, every contract we make today is backed by a good reputation which we feel we've worked hard over the years to gain. We'd hardly risk it by making promises we couldn't keep. We think we're best . . . not because we're old but because we've spent so many years trying to serve you better.

**We've been  
serving this area almost  
as long as Tech has.**

**(47 years)**

**Buick.**

**Dedicated to**

**the Free Spirit in**

**just about everyone.**
