Of Course, It's an *Electric Range*
It uses clean *Electricity!*

No messy burners on an electric range . . . just the sparkling cleanness of electric elements. For electricity is clean and spill-overs vanish into thin air . . . the electric elements completely clean themselves. You can take your finest party gloves (white, if you please) or your most delicate kerchief

and hold military inspection by actually wiping them over the electric elements. No fear, lady, they'll remain just as clean as they are . . . because electric cooking is the cleanest way of cooking yet discovered. An electric range stands inspection in the store . . . or in the kitchen!

THE COVER

Third Generation Techsan, coming up! Young Sidney Bacon will break a family tradition if he doesn't go to college at Tech when he grows up. His Grandmother, Mrs. L. C. Bacon, (left), of Lubbock, was a member of the first Tech class. She is the former Miss Katheryn Atkins. His pop (center), was a student in 1947, and his mother, (right) the former Jane Webb, was at Tech in 1948-'49. Young Sid was shown the sights of the rapidly growing college from the Circle during Homecoming.

Thanks Everybody . . .

THE 1951 Homecoming for Texas Tech is now only pleasant memories in the minds of some 6,000 who returned to the campus October 26th and 27th. Before the pleasant memory fades away, let's give credit where credit is due, for the best Homecoming in Tech's history according to Exes present.

Sometimes Exes are inclined to give credit for a good Homecoming to the Ex-Students Association office. This is not the case. Exes cannot very well play hosts to Exes. So, it is to the student body of Texas Tech that we are indebted for the pleasant week end.

Let's take the events as they happened and see just who is responsible for each one of them.

First, the president of the student body, Bob Schmidt, appointed a Homecoming committee, composed of members of the student council and made each one responsible for one phase of the Homecoming event. Harold Branan, business manager of the student council, was made chairman of the Homecoming committee and his excellent choice of committeemen was most important to the successful Homecoming.

The first thing Exes do upon returning to the campus is to register. Registration was capably handled this year by Miss Nancy Davis, a coed from Lubbock.

Friday night, Exes who could crowd into the old cracker-box gymnasium, were treated to an inspirational pep rally arranged by the Saddle Tramps and cheerleaders. Upon leaving the gym and driving about the campus, you were treated to a display of lighted buildings and decorated dormitories. Melvin Brock, an engineering student, was in charge of campus lighting. The American Institute of Electrical Engineers came to Melvin's assistance in providing the illuminated campus.

The dormitory associations provided the welcome-home atmosphere of decorated dormitories.

The incentive for these efforts was prompted by Mr. Alschuler of the Campus Toggery who provided a trophy for the best decorated dorm.

THE thanks for class reunions held Friday night go to various members of the reunions held. Mrs. Dorothy Vandagriff Cone, Miss Kathryn Weaver and Mrs. Pauline Yeager Bean must be given credit for the fine reunion of 'old-timers' held at the Lubbock Hotel.

Elmer Tarbox did a yeoman's service in arranging a reunion for the classes '39 through '43. Bill Anthony, Orville Alderson and Barbara Bedford Campbell were largely responsible for the fine reunion held by the classes '44-'48. The Lubbock '49 and '50 chapter played host to classes '49, '50 and '51.

Saturday morning, the exes were treated to a parade as fine as there will ever be seen in college circles. Parade directors were Brian Boyett of Moran and Rodney Balke of McLean. An expression of appreciation for this parade is due not only to Brian and Rodney, but to the 38 participating organizations. Lucian Thomas of Thomas Jewelry is also due a vote of thanks for the parade because he furnished trophies which these organizations cherish so much.

HOMECOMING takes on its most personal touch at the luncheon held at the gymnasium which, again this year for the third time, was given to the Exes by Mrs. Joe Bowman, and Mr. Jess Levens of Texas, New Mexico & Oklahoma Coaches, Inc. and Mr. Roy Furr of Furr Food Stores. Mr. Levens and Mr. Furr were present for the luncheon and two more genial or pleased hosts the Exes have never seen as these two men watched over 2,000 Exes enjoy the buffet luncheon and renew old acquaintances.

We believe that there is no other school in the United States as

large as Texas Tech where Exes are guests of the friends of the college for a luncheon of such a magnitude as this.

We cannot adequately express our appreciation to TNM&O and Furr Food Stores for the fine time which they afforded us.

Miss Jane Foster of the home economics division was responsible for the hostesses during the luncheon.

COACH Weaver and his staff, Pop Wiley and his band, Colonel Turner and Colonel White along with Major Baumgardner and Major Penuel and the ROTC provided the show from 2:30 until 5 p.m. that the exes took on with relish.

The Homecoming dance wound up activities that night in the gymnasium. And to the *Avalanche Journal* and *KFYO* we express our appreciation for their furnishing of Burl Hubbard's orchestra. And, to Alpha Phi Omega, a campus service fraternity, we are deeply indebted for their excellent job of decorating the gym.

The APO decorated the gym for the luncheon, cleaned up afterwards and had the gym ready for the dance Saturday night. They also operated the cloak room and cold drink concession. This is the fifth consecutive year that APO has taken over that unglamorous job for the Exes.

Many Exes came by this office and told us that this was the finest Homecoming that Tech has ever had and we are deeply indebted to the people mentioned in this article for making it thus.

And we are indebted not only to those mentioned—but to the entire student body of Texas Tech, as well. Without the cooperation of the students as a whole and the various campus organizations, Homecoming cannot be the success it was this year.

D. M. McELROY
Executive Secretary

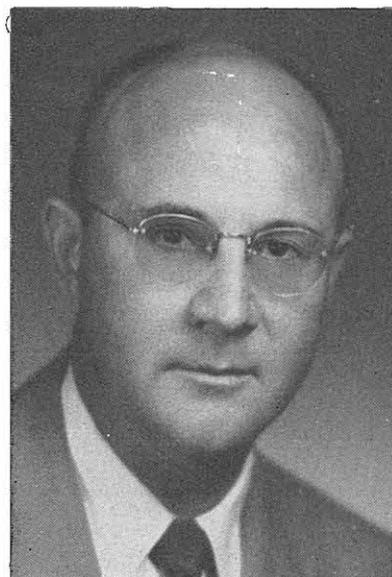

The Techsan Salutes

Olaf T. Lodal

Climaxing four years' work with Texas Tech Ex-Students Association as council representative, director and vice president, Olaf T. Lodal, '32 electrical engineering, was elected President of the Association at the Council meeting Homecoming eve.

The new president, a San Antonio professional engineer, entered Tech in 1927 following graduation from Brownwood High School. He was born at Gordon, February 9, 1908. In 1940, he was married to Miss Daisy War-riner of Fort Worth. They have two sons, Jan, age 8, and Gene, age 6.

His engineering firm, Lodal and Associates, Concul-ting Engineers, handles work in several fields of engineer-ing—civil, electrical and mechanical. Mr. Lodal is a member of the National and Texas Society of Profes-sional Engineers, American Institute of Electrical Engi-neers and the San Antonio Lions Club. He is registered as a professional engineer in Texas, Oklahoma, New Mexico and Arizona.

Dean Margaret W. Weeks

"It has been said that Miss Margaret W. Weeks' influence in raising standards of living extends over thou-sands of homes in West Texas—not only to the homes of former Tech home economics students but in the com-munities where these girls are exerting an influence sim-ilar to that of their teacher."

That is what Miss Marie Lewis, 1950-51 president of the Home Economics club, said at the presentation of Dean Weeks' portrait to Texas Tech during Homecoming. The portrait, paid for by contributions of former home economics students at Tech, hangs in the new Home Eco-nomics building.

Dean of the Home Economics division the past 26 years, Miss Margaret W. Weeks was born in Nova Scotia, Canada. She became a naturalized citizen in 1932. After teaching home economics in Nova Scotia two years, she came to Texas and taught in high school at Houston. She was for several years head of home economics at Northwestern College, Natchitoches, La.

When she was offered the position of dean of home economics at a Technological College, being organized in West Texas, she hastened to a library to find where Lub-bock was. "Population: 4,000 in a semi-arid land" read the atlas.

Harold M. Brannan

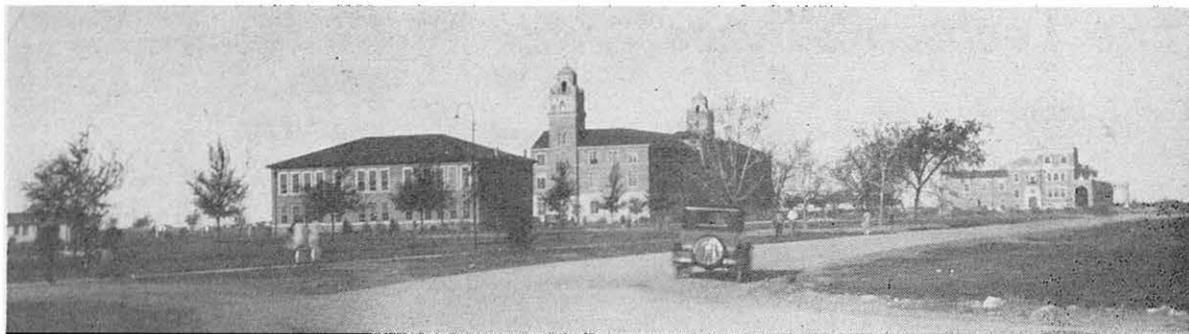

The chief headache of Homecoming organization falls each year to the chairman of the student Home-coming Committee. Heading that committee this year was affable Harold Brannan, pre-med junior from Dim-mitt.

Assuming leadership and responsibility was nothing new for Harold, who started off his college career by being elected president of the Freshman Class. Last year he was listed in Who's Who on the Campus; each year has received All College Recognition honors, and has served on the Student Council of which he is business manager this year.

Harold has served as president of Methodist Youth Fellowship, Northwestern Conference; vice president of Texas Intercollegiate Students Association, vice president of Phi Etta Sigma, freshman honor society. He is a member of Kemas, Wesley Foundation, Liederkrantz, Saddle Tramps and Alpha Epsilon Delta, honorary pre-med so-ciety.

Our sombrero is off to you, Harold. And to all your Homecoming Committee: Brian Boyett, Rodney Balke, Melvin Brock, Nancy Davis and Jane Foster.

Texas Technological College Campus as it looked about the time the author came up from Rising Star to enroll in the journalism department, in 1934.

Homecoming Reminiscences

By WAYNE C. SELLERS '38

The new Tech campus is almost too much for what D. M. McElroy terms an "old grad" to behold returning for Homecoming. Shiny new buildings everywhere, miles of pavement, grass on the campus and traffic signals which would baffle an Einstein are sure signs that Texas Tech is making progress in giant strides.

The Homecoming game this year with the University of Arizona brings to mind another Homecoming game with the same team. It was in 1935 and the college had combined its Homecoming activities with Tech's Decennial celebration. Texas Governor James V. Allred and University of Texas President H. Y. Benedict came up from Austin to help in the observance, but the elements weren't kind.

The famous South Plains weather fell apart and those of us who attended the game and sat in the old metal stands had to brush the snow off the bleachers to sit. Late in the fourth quarter Tech seemed to have the game safely won by a 6-0 score and most of the thoroughly frozen crowd left. The team from the Arizona semi-trop-

Editor's Note: Wayne C. Sellers of Sherman, returned to Tech for Homecoming this year for the first time in several years. Before assuming his present position as general manager of the Sherman Democrat in August, the Tech journalism graduate was employed in San Francisco, Calif. He formerly was associated with the Star-Telegram, Fort Worth.

ics wasn't bothered, however, and scored in the last minutes of the game, made a successful conversion and ruined the Homecoming game for Tech by a 7-6 score.

That was back in the days when Tech football players were known as Matadors and it must have been along about the same time after a 12-0 win over Hardin-Simmons we were astounded to see the Tech team running laps around the field as the spectators were leaving the stands. The next morning we read in the Lubbock Morning Avalanche that Coach Pete Cawthon had taken the players through a workout until 9 p.m. because he wasn't satisfied with a mere 12-0 victory over the Abilene school.

Those were the days when the building housing the Tech Theater contained a laundry and if a student wanted a cup of coffee or a sandwich on College Avenue south of Broadway the Log Cabin or Martin's were the places to go. W. B. Rushing had just founded the Varsity Bookstore in a freshly painted (was it grey Dub?) wooden building with a false front and the stock of goods consisted of a rack of current magazines, two shoe shine stands, a Coca-Cola box and Dub's boundless optimism.

North of Broadway on College there was the Tech Drug, run by "Uncle Henry" Fulton and Cecil Lofland. The Tech Drug was the hangout of the Matadors for they lived a half block down Main Street at La Fonda. Haircuts were

available by R. V. Sandlin, Clayton Harris, and others at the Tech Barber Shop next to the Tech Drug and the College Cafe offered wholesome food in an atmosphere not quite as sophisticated as that to be found down the street.

It was always a treat to go to town and if a nickel couldn't be produced to ride Ray Farmer's new Chevrolet bus which went up Broadway and down Main and a ride couldn't be thumbed at the corner of College and Broadway, the walk down the quiet residential street to town was always enjoyable. Sure enough "old grads" told us they could remember when there weren't any houses between Avenue Q and the campus.

Any trip to town was always concluded by a stop at Mark Halsey's Drug Store for one of his famous nine cent malts and it was an extra bonus if Pop Halsey himself was behind the soda fountain to slide the malt to you.

Those were the days before inflation had become a problem. Perhaps it was a year before the Arizona game mentioned earlier that Mrs. Gregory charged 25 cents for a meal in her dining room on Fourteenth street. If a student felt particularly affluent, he could eat in the front dining room with the professors and pay 35 cents, but the discovery was soon made that the only difference was rarefied atmosphere and lemon for the iced tea in the front dining room.

Room and board in the new

Tech Men's Dormitory was \$22.50 a month which seemed like a terrific amount when the trip had to be made once a month to the Ad Building to pay Hubert Burgess for the following month's room and board.

The new dormitories — men's and women's — were the marvel of the South Plains and it was quite a distinction to move in the first year although in the haste to get the students in, the contractors still had the plumbers hooking up necessary facilities for several days.

Preston Conerly, salesman de luxe at Hemphill-Wells, was first president of the dormitory group and each table of eight students in the dining room had a host and Pete Hudgins, now a Lubbock physician, was one who made a particular impression on this student.

Donald Henry, who had risen high in national government circles, Raymond Lamb, a petroleum engineer, and Morris (Tanner) Laine, now of the Midland Reporter-Telegram, were waiters who could always be depended on to slip an extra pitcher of milk out of the kitchen.

Leon Ince was president of the

student body and with his roommate Truman Green defended the honor of the engineers. Claude Thompson as student body president and Vice-President Wilmot Eaton must have come along a year later and talked the student body out of its collective breakage deposit to take the Matador band out of corduroy pants and put decent uniforms on the musicians.

It took Arch Lamb from Fort Worth to create a frenetic enthusiasm never before experienced when he organized the Saddle Tramps. The late Dr. Bradford Knapp, Tech president, was so taken at one meeting of the Saddle Tramps that he announced to all assembled that Arch would take his enthusiasm and leadership straight into the Texas Governor's chair. Although T.C.U. had lost two or three games that season, the Horned Frogs were defeated by the Matadors one cold, murky night and Lamb jumped to a microphone to proclaim to one and all that Tech "had just defeated the greatest team in the United States" and then proceeded to organize his Saddle Tramps in shifts to ring the newly installed victory bell until dawn.

Undoubtedly Dairyman Lamb has long since forgotten about politics and if Preston Smith had thought of politics then he kept it a secret for he was too busy filling radiators and inflating tires at his Magnolia filling station at Main and College to think about offering himself to the electorate.

Dr. R. C. Goodwin had a hard time with his 1 p.m. freshman chemistry class which, after a full meal, just wasn't in the mood to hear about the reaction of dilute nitric acid on copper and one day in quiet desperation intoned that the next session would bring a big paddle and bang it on his lecture desk to wake his class up.

Dr. W. C. Holden, along with the intrepid explorer Charlie Guy of the Avalanche-Journal, and other Lubbock citizens had just returned from discovering a new tribe of Indians in Mexico, and he did much better with his 8 a.m. class in freshman history.

A fine publication by the Tech Press resulted from Dr. Holden's trip and Editor Guy got so much material his Plainsman column practically wrote itself for a year.

Mention must be made of the All-College dances in the gym See **REMINISCENCES**, Page 15

Intently working in the background, second from left, is the author, who was employed by Tech Press while a student. The press was then located in the basement of the Engineering building.

Exes of El Paso held a dinner meeting at the Sky Chef Restaurant in October with 14 Tech engineering students and Dr. George A. Whetstone as guests. The Tech group was in El Paso for an engineering convention.

Chapter Roundup

Edited by D. M. McELROY, '35
Executive-Secretary

Inspired by the stupendous swamping the old school gave its most formidable foe of the conference at Homecoming, Tech Ex chapters swung into November with plans a-plenty.

The El Paso chapter carried on what is apparently becoming traditional among chapters — staging a reception for exes attending Tech's out-of-town games. The chapter was host at an open house held at the Embassy Room, Hilton Hotel, preceding the November 3rd game against Texas Western.

The Abilene Chapter has planned a big dance for November 20, Jimmy Jay, president, told us Homecoming. And the Fort Worth chapter has made plans for a gala Christmas party for December 7 at Meadow Brook County Club.

Tech Exes in Carlsbad and Albuquerque, N.M., have expressed interest in organizing chapters. And speaking of organization, the possibility of forming a chapter on far away Guam Island has been suggested by a Techsan sailor.

B. D. Gillentine, '50 marketing, Sherman, writes: "Even though I am many many miles from Tech, I am constantly reminded of the four years I spent there, not only by my friends still in school, but by people over here who have also been associated with Tech in the past."

"I believe it is possible to form a chapter of Exes here on Guam. There are three of us here in the Naval Supply Depot and I am sure there are several others at military bases over the island," writes Bill. **Big Spring Chapter:** Another

Fort Worth Exes heard Dr. D. M. Wiggins, President of Tech, at their October meeting held on the campus of Texas Wesleyan College. Pictured, right to left, are Dr. Wiggins; Dr. Law Sone, president of TWC, who introduced Dr. Wiggins; Charles McNeese, president of the Fort Worth chapter, and Lallah Wright, chapter secretary. An informal reception was held at the student union building following the address.

to the growing list of Exes chapters was added October 30 when Tech Exes of Big Spring organized.

Shelby Read, '33 geology, through whose efforts the Exes of the area were notified of the meeting, served as chairman pro tem.

Temporary officers were elected as follows: Horace Garrett, '32, president; Roy Rhodes, '48 electrical engineering, vice president; George O'Brien, '50 geology, secretary-treasurer; Mrs. Shelby Read, (Aleen Brown, '33 speech), reporter.

The meeting was held at the ballroom of Settles Hotel. Wyatt Posey, assistant coach, and your executive secretary attended.

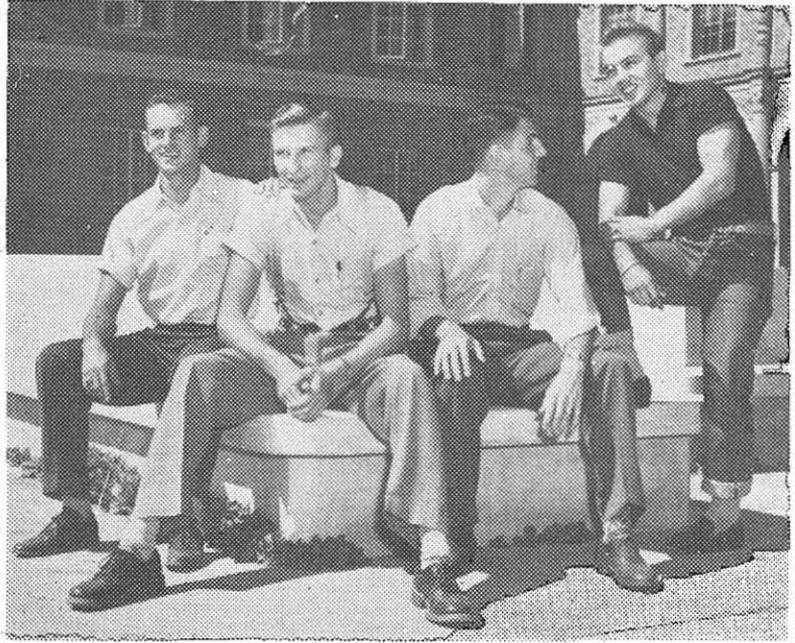

Houston Chapter: Frances Clark Nail, '47 journalism, secretary of the big hustling Houston Chapter, wrote us that they held their first meeting of the season, a chicken dinner, on September 25 and outlined plans for the open house and buffet supper October 6, preceding the Tech-University of Houston game, held at the home of the Leon Inces'.

"Some 160 exes and guests from Tyler, Lufkin, San Antonio, Baytown, Kirbyville, Port Arthur, Baton Rouge and Lafayette, La., Lubbock and Houston attended the open house," wrote the secretary.

Included among those present were Capt. Jack Robinson Jr., '47 textile engineering, and Mrs. Robinson, the former Nancy Rea, '48 textile engineering, of Lafayette, La., and James "Andy" Anderson, '48 civil engineering, and Mrs. Anderson, the former Glennis Waltz, '43 commercial art, former Tech cheerleader.

.....**San Antonio Chapter:** "The chapter sorely missed playing hosts to hundreds of South Texas exes at the annual openhouse preceding the Tech-A&M game (played in San Antonio prior to this year) but had a splendid get-together anyway. Some 24 members and nine kids gathered at the Olaf Lodals' lawn and listened to the broadcast," wrote R. J. Huff, chapter president.

"It was our first party of this sort, but I think it was highly successful — it didn't break up until 1:30 a.m." he said. A nominating committee was set up to elect new officers at a brief business session.

The recently-elected presidents of Tech classes for this year are pictured above. They are, left to right, George Morris, senior accounting major from Seymour; Dick Witte, junior mechanical engineering major from Borger; Bill Burton, sophomore chemical engineering major from Fort Worth; Elmer Wilson, freshman business major from Pampa.

Around The Campus

The soft pad of moccasin feet and slight rustle of the buckskin dress of an Indian maiden were heard on the South Plains again last month when a full-dress authentic American Indian fashion show was presented at the 23rd annual meeting of the West Texas Museum Association held on Tech campus.

Approximately 225 persons attended the style show presented at the museum by Frederic H. Douglas, curator of native art at the Denver Art Museum. The costumes were modeled by members of the Lubbock Junior Welfare League.

* * *

A foreign home economics student will get a free trip to Texas Tech, thanks to the Home Economics Club which is selling United Nations Cookbooks as a part of the project to raise the necessary money. The cookbooks were compiled by the Citizens Committee of the Unit-

ed Nations and published by the American Home Economics association. They sell for \$1 each.

* * *

The highest-priced bale of cotton in the world became property of Tech's textile engineering department last month, when Bob Womble of Womble-Olds Co. of Lubbock, presented it to L. E. Parsons, head of the department. Processing began immediately. The cotton was made into towels and washcloths for charitable institutions in Lubbock County and into drapery material for the Womble Company.

The bale which was the first produced in Lubbock County, this season, sold at public auction at \$3.70 a pound for 500 pounds, setting a new world's record high price for cotton. Carter Caldwell, of Slaton, grew the cotton.

* * *

A new government course, aimed at training students in city administration, is offered

at Tech this fall. The course, offered to graduates, requires "lab" work in city government offices during the second phase. The first year is taken up with subjects outlined by the government department. Lubbock city Manager Steve Matthews is cooperating with the college in the city program. Several city officials, including Matthews, are attending the class.

* * *

Twenty-one students from 15 foreign countries are among the 4,901 students enrolled at Tech for the fall semester. Countries represented include The Netherlands, Iran, India, Mexico, Honduras, Panama, Peru, Switzerland, Korea, Estonia, Columbia, Puerto Rico, Germany, Costa Rica, Greece and U. S. Territories of Canal Zone and Hawaii.

* * *

Price Daniel, Texas attorney general, was guest speaker at a smoker for members, pledges and rushees of Tech's eight men's social clubs held at the Rec hall on October 18.

* * *

Texas Tech was host for the first time to the Texas Association of Deans and Advisors of Men in a two-day meeting here opening October 30. Twenty-five Texas colleges were represented.

Opening session heard a welcome address by Dr. E. N. Jones, Tech vice president, and the meeting was presided over by Dean W. L. Penberthy, president of the dean's organization and dean of men at Texas A. & M. Also participating in the conference were Dean W. T. Walton, Hardin-Simmons University, and Carl V. Bredt, Texas University.

* * *

At the end of "Rush Week," 148 coeds were pledged to five women's social clubs. Ninety-three men were pledged to Tech's eight men's social clubs. at the end of their rush week in October.

* * *

The Tech chapter of American Institute of Architects received its national charter last month. The Texas Panhandle chapter of the AIA sponsors the Tech group. The charter was presented by Edd Wilson, Fort Worth architect, and architects from Amarillo, Lubbock, Big Spring and Plainview attended the banquet.

Techsans in the Service

Pvt. James Howard Stone, petroleum engineering '50 grad, has been selected to attend an Army Officer Candidate school upon completion of basic training with the 5th Armored Division at Camp Chaffee, Ark. Prior to entering service, he was an engineer for the City of Lubbock.

Lieut. Vernon D. Wade, '48 electrical engineering grad, is stationed with the Air Force at Lubbock. Before entering the Air Force he was an instructor of electrical engineering at Tech. Mrs. Wade is the former Carolyn Mullins, '48, physical education grad.

Pfc. Weldon L. Dawson, '51 international trade grad from Westbrook, has completed his training at Lackland Air Force Base in San Antonio and is now assigned to the Human Resources Research center in San Antonio.

Lieut. Carlton E. Dodson, of Dickens, is currently stationed at Sheppard Air Force Base as a security officer. He received his commission through AROTC upon graduation from Tech.

Capt. Henry L. Gibbs, engineering student in 1951, was recently assigned to the Eighth Fighter-Bomber wing, the Fifth Air Force's pioneer jet unit of the Korean War.

Lieut. Neil Schart of Lockney, is a platoon leader at Wolters Air Force Base, Mineral Wells. He received a degree in industrial engineering from Tech in June, 1951.

Pfc. Billy Eugene Hamilton, former Tech sophomore, is serving with the Marines in North Korea. Hamilton, who has been in the service since last November, has seen action for several months in Korea.

Pfc. C. B. Wright, former Tech student and member of Silver Key social club, is stationed with the Air Force at Las Vegas, Nev. He will enter cadet school within a few weeks, after making one of the three highest scores on a special examination after complet-

ing boot camp.

2nd Lieut. William G. Soloman, '51 geology grad, is stationed at Malden Air Force Base, Mo., where he is assigned to the international school of the Air Force. His class of 45 student officers and 89 cadets is composed of six nationalities, Norwegian, Dutch, Belgian, French, Filipino and American. Cadets all train together as a part of the long-range program begun by the Air Force during World War II.

Cpl. Robert J. Collier, Tech student prior to enlistment in the Air Force in January, has been assigned to duty with the 328th Bomber Squadron as a gunner, following training in San Antonio, Denver, and Tucson, Ariz. He reported for duty in early October at Castle Air Force Base, Calif.

Lieut. Lloyd L. Schrader, '50 mechanical engineering grad, has been assigned to Amarillo Air Force Base as base maintenance officer. He was recently transferred there from Reese Air Force Base.

Pfc. Robert L. Cole, '47 government grad, has completed a 10-week course in ordnance work at Aberdeen, Md. A former high school teacher at Seminole, he has been in the Army one year.

Pfc. James W. Norcross, former Tech freshman and animal husbandry major, is stationed at Camp Pendleton, Calif. He has been in the Marines since January.

2nd Lieut. Charles F. Watson, '50 business grad, is a member of Class 51-F at the USAF advanced multi-engine pilot school at Reese Air Force Base, Lubbock. He recently received a medal of merit from the base commander for having led his class in the military phase of the training and was the only member of his graduating class to be recommended for a regular Air Force commission.

Joe Gayle Fleming, '50 agronomy grad, recently received his commission as second lieutenant

in the Air Force. He was a member of Kemas social club and Plant Industry club while at Tech.

Tommy Cooper, business ad student from Lubbock, recently left for Air Cadet training at Pensacola, Fla.

Eugene Havrene, former management student from Olney, is serving with the Air Force in Okinawa Island in the Pacific.

2nd Lieut. H. A. Tuck, Jr., '51 journalism graduate, is stationed at Camp Polk, near DeRidder, La. While at Tech, the native of Dumas was editor of the Treador. Before entering the Army, he was on the staff of the Amarillo Times. Mrs. Tuck is the former Virginia Corcoran, Tech Ex.

Brodie Adair, Tech sophomore and business ad major last year, recently completed Marine boot camp training at San Diego, Calif.

2nd Lieut. Donal P. Jackson, '51 physical education grad, has been assigned to Craig Air Force Base as the assistant special service officer.

2nd Lieut. Bill Sylvester, '51 government grad, from Ropesville, has been assigned to the Air Force base at Roswell, N.M. He received his commission through Tech's ROTC program.

2nd Lieut. T. C. Allen, '51 finance grad from Texarkana, is stationed at Kirtland AFB, Albuquerque, N.M. but is presently attending OSI school at Bolling Field, Va. Mrs. Allen is the former Jo Anne Deere, '50 business ad grad.

2nd Lieut. Tommy Jamison, '51 business grad, from Coleman, is on active duty with the Air Force at Roswell, N.M.

2nd Lieut. Bill Howard, '51 marketing grad from Lamesa, has been assigned to Walker Air Force Base, Roswell, N.M. as post exchange officer. A recent visitor to Tech campus, Lieutenant Howard reported several of his classmates were also stationed at Walker AFB. Included are Lieutenants James M. Byers of Perryton, who is assistant squadron adjutant; Gerald Miller, who is squadron personnel officer; Jack Trammel of Dorchester, who is assistant base adjutant; and Bill Cox of Lubbock, laundry officer.

2nd Lieut. Harold Walthal, '49 geology graduate, is stationed at Kirtland AFB, Albuquerque, N.M. His duties include helping to or-

ganize a squadron of the Arnold Air Society at the University of New Mexico. Mrs. Walthal is the former Pherbia Lou Jordan, '47 journalism graduate.

2nd Lieut. Thomas Hunter, '51 petroleum engineering grad, of Dorchester, is stationed at Sandia AFB in New Mexico. Mrs. Hunter is the former Mary Janet Johnson, Tech Ex.

2nd Lieut. John J. Boyd, '51 animal husbandry graduate of Seagraves and 2nd Lieutenant Milton Bennett, '51 agronomy grad of Anson, are also stationed at Sandia AFB, N.M.

Commander Ordis Eldon Forbess, '33 civil engineering grad, is now stationed at Port Mugu, Calif. where he is assigned to the U.S. Naval Air Missile Test Center.

Capt. James J. Ford, former Tech student, from Memphis, Tenn., is a flight instructor at Reese Air Force Base, Lubbock. He was stationed at Barksdale AFB in Louisiana before coming to Lubbock. During World War II he flew the hump from India to China and was in the ferry command in the States. He holds the Distinguished Flying Cross and Air Medal.

Jack Elton Johns, Navy hospital apprentice, has completed basic training at San Diego Naval Training center. He was attending Tech prior to his enlistment in July.

2nd Lieut. Joc Overton of Albany is undergoing a 10-months communications officer's course at Scott AFB, Bellville, Ill.

Marine Pfc. Hubert D. Payton, Tech Ex, is presently serving at Camp Pendleton as an observer with the First Anti-Aircraft Battalion. He enlisted in the USMC in January of 1951 and received his basic training at San Diego Recruit Depot. His home is Mertzon.

A Recap Of 1951

Homecoming

By O'WA
Editor

MOST OUTSTANDING FLOAT—Las Vivarachas entry with an "Orchids to Exes" theme, was judged the most outstanding float of the Homecoming parade. It also placed first in the beauty classification.

THEY DID—The Kemas social club got what they wanted from the Red Raiders at the Homecoming game and also won second place award in the comic classification with their entry pictured above.

This year Homecoming highlights were many.

And from far and near came Tech Exes, 5,000 strong. From Atlanta, Las Vegas, Denver, Washington, D. C., Kansas, Arkansas, Missouri they came for a week end jam-packed with activities.

"It was the biggest and best ever," said Mr. and Mrs. Lloyd Hacher, Brownfield, class of '41.

At the tip-top of the list of thrills that gladdened the hearts of old Techsans was the Red Raiders' overwhelming trouncing of Arizona University by an almost unbelievable score of 41-0. And Arizona was the college picked to take the Border conference crown this year, too!

Pete Cawthon, who coached Tech during its golden era of football in the '30's, returned for Homecoming. Head coach at Tech from 1930 to 1940, the native Alabaman was honored at several functions including the Double T

HOWDY, CLASSMATE!—Clasping hands are Robbins, (left) petroleum engineering grad, grad of Brownfield. Mrs. Robbins and Mrs. [unclear] are also exchanging greetings at the '39-'43

Highlights

club's annual breakfast, a dinner by 200 former Matador Club and Knothole gang members and during the spectacular half-time pageant at the ball game.

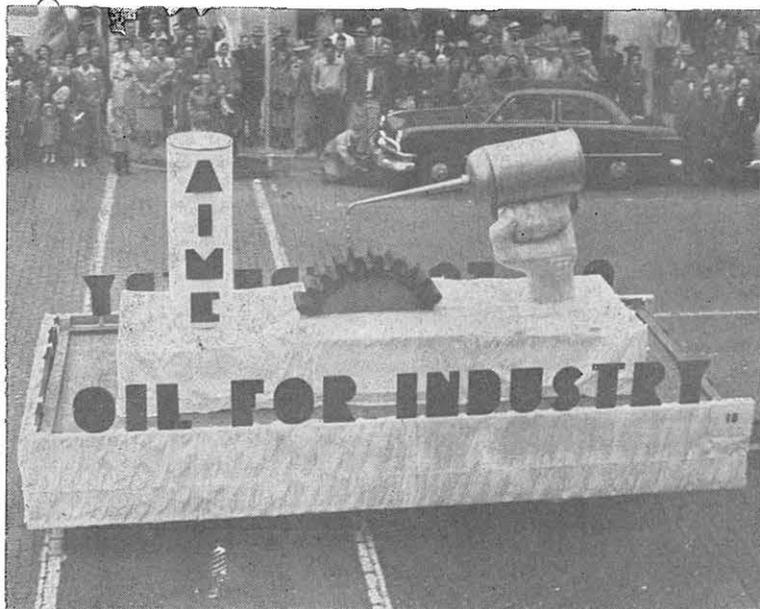

Spectacular Parade

What has been considered the most beautiful, most colorful, most spectacular parade in Tech's 21 years of Homecomings swung onto Broadway in perfect timing Saturday morning.

In addition to 38 magnificent floats, participants in the parade included contingents of Tech's ROTC, flanked by beautiful coeds selected as their company sweethearts; several Ex-Student Chapter cars, and, of course, Tech's highstepping band.

The winning floats were announced after a full hour's deliberation by a five-member judging committee. First place award in the beauty classification and the Thomas Trophy for the best

DESCRIPTIVE FLOAT WINNER—The impressive float entered by the American Institute of Mining Engineers was awarded first place prize in the descriptive float classification.

Members of the class of '43, Kenneth W. (Cocky) and George W. Weiss, (right) business administrator Kathleen Webb, '41 speech graduate, at Sneed Hall.

WELCOME HOME, ANY TIME—The Silver Key float speaks for Texas Technological College as a whole in welcoming Exes back to the campus "any time".

The Faculty Scene

Raymond Elliott, assistant professor of music, is author of a new music textbook, "Ears to Hear," the first part of a two-part publication. The text will be used in first-year theory and music education classes at Tech. Elliott started collecting material for the 200-page volume 14 years ago while an instructor at St. Joseph Junior College, St. Joseph, Mo.

* * *

Four Tech faculty members participated in the South-Central Modern Language association convention in Baton Rouge, La., during October. Theodor W. Alexander, instructor in foreign languages, addressed the conference, Roy R. Male Jr., assistant professor of English gave a paper, Joseph T. McCullen Jr., assistant professor of English gave a paper which will be published soon, and Dr. A. L. Strout, English professor, served on the executive committee.

* * *

Tech's first industrial psychologist, Dr. James E. Kuntz, was added to the faculty this fall. Services of the psychologist are offered to business and industry in the areas in training students for jobs in businesses and industries where applied psychological skills are needed, provide or promote conferences and institutes and provide a consultation service for business and industrial people. Dr. Kuntz received his doctorate degree from Purdue University.

* * *

L. E. Parsons, head of the textile engineering department at Tech, represented Tech at the National Counsel of Textile School Deans in Sanford, Maine, last month. Administrative problems of textile education were studied at the conference.

* * *

Two additions were named to the agricultural division faculty recently. Robert Renner, former professor in the dairy manufacturing department. Howard Creamery superintendent at Tech, was appointed assistant

Mr. Elliott

Keck, former sales engineer for Pacific Electric Motor Co. in California, has been named instructor in agricultural engineering. Renner is the son of Kenneth M. Renner, first dairy manufacturing department head.

* * *

Dr. C. B. Qualia, professor of foreign languages, accompanied by his daughter, Alice, made a two-month tour of Europe last summer. Most of their vacation trip was spent in Paris which was celebrating its 2,000th birthday.

* * *

Dr. Ernest Wallace, assistant dean of Arts and Sciences, spoke on "Our West Texas Heritage" before the Colorado City study clubs in October. The professor has written two books since 1942, "The Comanches on the White Man's Road" and "Charles DeMorse, Pioneer Editor and Statesman."

* * *

Another Tech faculty member who toured Europe during the summer was W. L. Bradshaw, professor of architecture. He made the tour, which was sponsored by Columbia University, in order to study contemporary work in town planning, housing and architecture. The group who made the

tour were mostly teachers and students.

* * *

A member of the home economics division, Miss Mabel D. Erwin, head of the department of clothing and textiles, also made a trip to Europe during the summer as a member of a party of American University professors to study marketing and production of textiles in leading centers.

* * *

R. C. Janeway, librarian of Tech, lead a discussion group at the third annual meeting of District I, Texas Library Association, held at Canyon, October 20. All librarians in the 44-county district were invited to the library association meeting.

* * *

Dr. Truman W. Camp, English department head; Dr. J. T. McCullen, assistant professor of English; Dr. W. B. Gates, dean of graduate studies, and Mrs. Ruth D. Wilson, instructor of English, participated in a workshop conference of English teachers from District Four held on Tech campus in early October.

* * *

William Lloyd Jenkins, instructor in the industrial engineering department at Tech, was named to the commission on higher education at the National Safety Conference held in Chicago. Jenkins attended the conference.

* * *

Several members of the Agriculture division faculty officiated at state fairs in Texas and other states this fall. W. L. Stangel, dean of agriculture; T. L. Leach, professor of agricultural education, and L. M. Hargrave, associate professor of agricultural education, officiated at the State Fair of Texas, Dallas. Dean Stangel was a judge at the State Fair of Oklahoma. He will be superintendent of the fat steers division of the Southwestern Exposition and Fat Stock show at Fort Worth in January.

Sports Roundup

Ready For Another Homecoming?

By **BILL HOLMES**

Ready for another Homecoming?

Athletically speaking, there's another Homecoming scheduled for Dec. 1. That's when the Hardin-Simmons Cowboys come to Lubbock for an afternoon game that may have a lot of bearing on the Border Conference Championship.

But championship or no championship, Hardin-Simmons on a Tech schedule spells nothing but "TROUBLE" in capital letters. It's generally felt that the spirit added to the occasion by the presence of so many of you exes contributed greatly to Tech's 41-0 victory over Arizona at Homecoming. That's why DeWitt Weaver and company would like to have you in the stands the afternoon of Dec. 1.

Hardin-Simmons, one of the fastest improving teams in the state, has played most of its games without Mitchell Malouf and Harold Taylor, a pair of swifties if there ever were any, in the lineup. With them in, the Cowboys will be extra tough for Tech.

Getting back to Homecoming—a most pleasant subject around here at the athletic office these days—it can be safely said that Coach Weaver was very pleased with the hustle shown by the Raiders. They've played games with more finesse—especially blocking and tackling—but the overall effect was gratifying.

In case you missed the game, here's a recap on the scoring:

Junior Arterburn slid out to the left, circled his left tackle for 37 yards. Punk Whitaker converted. 7-0, 2:25 elapsed in the first quarter.

Arterburn climaxed a drive—sparked by his passes to Bobby Cavazos—going over from six inches out. Whitaker converted. 14-0, 10:25 elapsed.

Jim Turner capped a 68-yard drive with a five-yard smash, Whitaker missing the conversion. 20-0, 3:10 gone in the second quarter.

Arterburn trying to pass, raced 49 yards. Whitaker's placement made it 27-0, 7:20 elapsed in the second.

Director of Tech Sports Publicity

Cavazos went over from the one and Whitaker converted to make it 34-0 after 3:10 in the fourth period.

Cavazos darted over right tackle from the five, Whitaker converted. Score was 41-0 with only 4:55 gone in the fourth quarter.

Arterburn's display will go in the books as one of the greatest performances by a Tech player. He ran 128 yards and completed 6 of 9 for 139—a total of 267 yards of Tech's 451 gained for the afternoon.

But save a lot of plaudits for Tech's defensive team.

Arizona went into the game with the nation's 14th rushing mark—256 yards per game. Tech held the Wildcats to a mere 65 yards rushing.

It was good, too, to have Pete Cawthon with us. His visit inspired both the coaches and the players. Coach Cawthon's wire accepting an invitation to appear, ended, "We've got to beat Arizona." That's what he told the Raiders at the close of Friday afternoon's workouts.

One of the outstanding personalities to return for Homecoming was Peter Willis Cawthon, pictured above with Mrs. Cawthon as they arrived in Lubbock. The former coach was honored at several Homecoming functions including the Double T Breakfast at which time he was presented a \$100 western hat.

The Hitchin' Post

JOLENE BRAGG, Tech Ex, and Billy Bob Jones were married at the home of the grandparents of the bride at Tahoka on October 24. After a wedding trip to New Mexico the couple were to be at home in Lubbock where they are both employed.

* * *

The wedding of MARY BAKER and Manly Parks Lee was solemnized October 19 at the home of the bride's sister in Clovis, N.M. The bride was a member of Las Chaparritas social club while a student at Tech. After a wedding trip to New Orleans, La. the couple will reside in Hamburg where Lee is engaged in farming and cattle business. He was graduated from Auburn Polytechnic Institute at Auburn, Ala.

* * *

ANTOINETTE ROSEMARY BRABBER, Tech Ex, and Everest Anthony Dworaczyk were married at St. Joseph's Catholic church in Slaton October 23. After a wedding trip to Mexico, the couple will reside in Wilson, where the bridegroom is engaged in farming.

* * *

CHEROLYNE LOUISE ROBERTS, business administration '49 graduate, formerly of Levelland, and George Wayne English, formerly of Anton, were married September 20 in the First Southern Baptist Church in San Diego, Calif. They are residing in Chula Vista, Calif. following a wedding trip to Hollywood and Los Angeles. While at Tech, the bride was a member of the Junior council, Phi Gamma Nu, and Association of Women Students. She is employed by the Bank of America at Chula Vista. The bridegroom, a graduate of Draughon's Business College, Lubbock, is employed by the Rohr Aircraft Corporation.

* * *

Jessie Aline Rankin, McKinney, and SHERMAN LEROY VAUGHAN, industrial engineering '50 graduate, were married October 20 at the First Christian Church of McKinney. The couple is residing in Houston where he is employed.

* * *

The marriage of Myrna Law-

rence of Lubbock, to CPL. JACKIE B. COOK, Tech Ex, was solemnized recently in Lubbock. Corporal Cook was to report to New Jersey for overseas shipment shortly. The bride will remain in Lubbock.

* * *

Vows were exchanged in the Slaton Church of Christ October 14 by Dorthea Mae Burks and W. H. DAWSON, former student of Tech. The couple will reside in Lubbock where the bridegroom is employed by the Texas Highway Department.

* * *

CHARLOTTE ANN POWELL of Breckenridge and GENE CLINTON GARNER of Eastland, were wed in a candlelight ceremony at the First Baptist Church of Den-

ver City on October 6. The bride attended Tech, where she was a member of Las Vivarachas social club. Garner was graduated from Tech in May. He was a member of Los Camaradas social club. The couple is living in Mission, after a wedding trip to New Mexico.

* * *

Ann Conley and JAMES E. VERNON were married recently at St. John's Methodist Church in Lubbock. The couple is residing in Puerto Rico where the bridegroom is stationed with the Air Force. He was a student at Tech until enlisting in the Air Force in November, 1950.

* * *

Recently wed in Lubbock were Miss Frances Horne and BOBBIE JOE BONNER. He is a former

Tech student. They are residing in Littlefield where he is employed by the Gulf Oil Company.

* * *

MARY EDWINA FULTON and THOMAS WELDON EVANS were married recently in the minister's study of the First Baptist Church in Carlsbad, N.M. The couple is living in Lubbock, following a wedding trip to New Mexico.

* * *

JUANITA JANELL ROSS, '50 sociology grad, and James Dayle Blackburn were married October 11 at the Asbury Methodist Church in Lubbock. The couple is living in Lubbock.

* * *

SUE HICKS, former Tech student, and S/Sgt. Stafford Shipley were married September 29 at the First Baptist Church at Littlefield. The couple is residing in Massachusetts where the bridegroom is stationed at Camp Edwards.

* * *

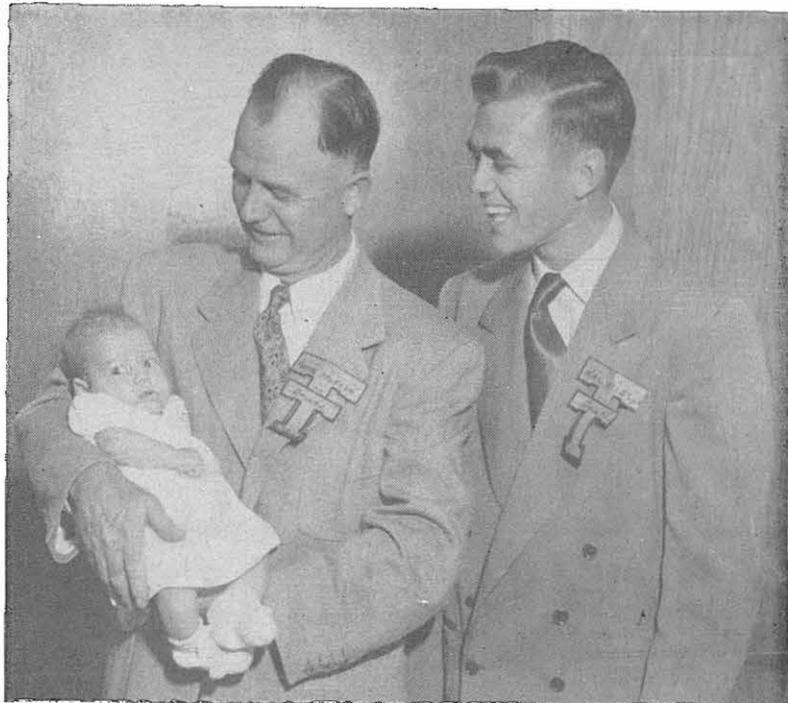

RICHIE ANN McCRUMMEN, '51 graduate from Seminole and Lt. Charles Hamilton Stewart of Topeka, Kans., were married at the First Christian Church parlor in Lubbock, October 6. While a student at Tech, the bride was a member of DFD Social club and Major - Minor club. Lieutenant Stewart was graduated from Reese Air Force Base, Lubbock, and is stationed at Topeka, Kans., where the couple is residing.

Homecoming Reminiscences

(Continued from Page 5)

with Ned Bradley and his orchestra making what seemed to be the prettiest music ever heard. Felix Walker was mighty handy with the saxophone and Eaton sat very erect on the piano bench. The Bradley arrangement of "Tiger Rag" is probably unique in the annals of music because every member of the orchestra except Eaton played a trumpet and on the nights "Tiger Rag" was to be played there must have been no trumpets left in Lubbock.

The Toreador had just moved to its new office in the basement of the Engineering Building with Lomer Nelson as editor. Howard Reed was still holding down the La Ventana office on the third floor of the Ad Building.

Techsans of the past and future: O. R. (Chick) McElya, graduate of 1934, of Dallas, brought his young grandson, Bruce, back to Tech for Homecoming. Bruce's dad, Hal, (right) was the first second-generation Techsan to enroll at Tech. He served with the Navy after attending Tech one year, then returned and was graduated in 1951.

Cradle Rockers

Richard L. Nader, '49 civil engineering grad, and Mrs. Nader, '50 Ex, announce the birth of a son, born July 1. Nader is employed by the Corps of Engineers and is working on the Lavon Dam at Wylie.

Robert Roy Lacey, Jr., '48 civil engineering grad, and Mrs. Lacey, the former Melba Louise Lewis, '45-'46 business major, announce the recent birth of a daughter, Janet Maurine. The Lacey's also have a son, R. R. Lacey III, age two and half.

Mr. and Mrs. R. W. Goad recently became parents of a son. He is an assistant football coach at Tech.

Mr. and Mrs. Bill McKee announce the birth of a daughter, Vickie Jean, born September 6 at Falfurrias. Mr. McKee, a 1949 petroleum engineering grad, is employed by Magnolia Petroleum

Company in the production department at Premont. Mrs. McKee is the former Wistie Reid, student at Tech in 1948.

Mr. and Mrs. William M. Fox recently became parents of a daughter, born in Lubbock. Mr. Fox is an assistant professor of management at Tech.

Mr. and Mrs. Tommy Rasor announce the birth of a daughter, Linda Beth Rasor, born September 24 at Crowell. Both parents were journalism majors at Tech in 1946-48 and the mother is the former Frances Santell. They have a son, Tommy, age two.

Francis H. Brockman, '49 business administration grad, and Mrs. Brockman, the former Jo Ann Brown, '47-'49, announce the birth of a son, Mark Thomas, born May 28 in Houston. Brockman is employed by Southwestern Bell See **CRADLE ROCKERS**, Page 16

Telephone Company in Houston. Delbert Timmons, '50 grad, and Mrs. Timmons, the former Louise O'Hair, H. E. Ex, announce the birth of a daughter, Cynthia Elaine, born September 29 at Amarillo. Timmons is assistant county agent at Amarillo.

Mr. and Mrs. C. M. McKinney announce the recent birth of a daughter, born in Lubbock. Mr. McKinney is an assistant professor of Physics at Tech.

Weldon Christian, '43 mechanical engineering grad, and wife, the former Jo Nell Cox, '39-'43 home economics major, announce the birth of a son, David Randall Christian, born August 19. Christian is job engineer with B I a - Knox Construction Company in Tulsa, Okla.

Dr. and Mrs. James Barron of San Angelo announce the birth of a daughter, Iris Lee, born September 26. Mrs. Barron is the former Vernemma Freeman, '47 home economics grad.

Mr. and Mrs. Harold Gillespie of El Paso announce the recent birth of a daughter D'Anne. Gillespie, a '47 mechanical engineering grad, is connected with Standard Oil Company in El Paso.

Dr. L. M. Morrisset, '44-'47 premed, and Mrs. Morrisset, the former Barbara Leonard, '48 education grad, announce the birth of a son, Michael Leonard, born August 24 at Wylie where the doctor is doing general practice.

Mr. and Mrs. E. W. Scott are parents of a new son, born recently at a Lubbock hospital. Scott is a Tech student.

Class Notes

'27

POPE GIBNER is engaged in farming and ranching near Spearman.

MRS. EDITH CARTER BOWERS, sociology graduate, is a housewife in Abilene.

'28

WILLIAM HURLEY CARPENTER, business ad major, resides in Lubbock where he is assistant general manager of Texas, New Mexico and Oklahoma Coaches, Inc. Mrs. Carpenter, the former MAGDALEN DIDERICK, received a degree in business administration from Tech in 1936.

A resident of Fort Worth is MRS. LILLIAN FERGUSON CROWDER, math graduate.

'29

A housewife in Silver Springs, Md., is MRS. JOHN A. BRESNAHAN, the former PAULENE PARKER, Tech student from 1925 through 1928.

MRS. THORD DOCKRAY, the former ERIKA CAROLYN PETERS, sociology graduate, is a resident of Lubbock.

'30

ROXANA RUTH FORD, home economics graduate, is now associate professor of home economics at the University of Minnesota. She also holds a master's degree from Tech, awarded in 1940 and a Ph.D. from Iowa State College.

JOE ALLEN BALLARD, history graduate, is coordinator of veterans education at Estelline. Mrs. Ballard, the former GLADYS J. LEARY, 1929 English graduate, is a teacher in the Carey schools.

Ranching near Ozona is HUGH CHILDRESS, JR., former student.

'31

WILLIAM STEWART GALLOWAY, engineering graduate, is employed at St. Louis, Mo., by Gulf Refining Company. Mrs. Galloway is the former MINNIE MAE HAYGOOD, student of Tech in 1932-33.

L. D. BARRICK, chemistry

graduate, is chemical director of Aronld Hoffman Co. at Raynham, Mass.

LEE B. DAVIS, business ad graduate, resides in Dallas where he is appliance sales manager for Graybar Electric Company.

RALPH GLOVER, engineering graduate, is employed by the Public Roads Administration and resides in Oklahoma City, Okla.

'32

In the general practice of law in Dallas is JOE A. FAUCETT, government graduate.

Owner of Radio Station KPAN in Hereford is MARSHAL CLINTON FORMBY JR., government graduate, who is a former Texas senator and Dickens County judge.

WILLIAM E. DENTON, premed student, is a resident of Dallas where he is employed as pipeline salesman for the Couley-Lott-Nichols Machinery Co. of Lubbock.

JOHN M. DYER, electrical engineering graduate, resides in Tulsa where he is transmission engineer for Public Service Company of Oklahoma.

ILSE H. WOLFE, home economics graduate, resumed teaching duties at Oklahoma A. & M. College this fall after a year's leave of absence, which was spent in Germany with the Education Section of the U.S. State Department.

'33

E. G. CAUBLE JR., agricultural economics graduate, was transferred recently from Denver to Washington, D.C. where he is marketing specialist with the program analysis division, livestock branch, Production Marketing Administration in the Department of Agriculture.

MRS. D. C. FRANKS, the former REGINA REE RHEA, home economics major, resides in Lubbock.

JOHN E. TATUM, electrical engineering major, resides in Amarillo where he is district engineer for Southwest Public Service Company. Mrs. Tatum, the former IMOGENE COUCH, was

a vocational home economics major at Tech in 1933.

JAMES WAYNE TIMMONS JR., chemistry major, recently moved from Denver, Colo., to North Kansas City, Kans. He is employed by the U.S. Rubber Company.

'34

DR. FRANCES RUTH BENSON, math graduate, is engaged in the practice of optometry in Amarillo. Dr. Benson studied optometry at Northern Illinois Optometry College after graduating from Tech.

A resident of Guatemala, Central America, JOYCE CELLE DOBKINS, economics graduate, is co-owner of the Mayatex Fabrics company.

Second grade teacher in Port Arthur Public Schools is MRS. SARAH E. GIBSON GANTT, elementary education graduate.

MRS. WILLIAM W. GAMMILL, the former MARIE REDDELL, history graduate, is a housewife in Denver, Colo.

'35

JOHN F. MOORE, agriculture major, is engineering aide with the Soil Conservation Service at Spur.

MRS. JOHN E. HARDING, the former LORENE CAROLYN CHILDRESS, resides in Lubbock. She received a bachelors degree in journalism.

ERLE CLYDE MAYO, electrical engineering grad, lives in Coleman where he is resident engineer with the State Highway Department.

'36

Residents of Houston are MR. AND MRS. W. K. DAVIS, both members of the class of '36. Davis, a geology graduate, is vice president in charge of operation with Western National Gas Company. Mrs. Davis is the former LORENA DORROH ODOM, history graduate.

A public accountant in Lubbock is MRS. ETHEL M. BAIN DODD, education graduate. Mrs. Dodd also holds a master's degree from

See CLASS NOTES, Page 18

Homecoming —

(Continued from Page 11)

all-around float went to Las Vivarachas' white and orchid entry which featured a lovely coed in a cellophane box with the theme of "Orchids to the Exes." Second place in the beauty section went to Las Chaparritas float and third prize was awarded the Sans Souci float.

First place in the descriptive class went to AIME, an engineering association, whose entry was a huge oil can dripping oil onto a cogged wheel. "Oil for Industry" was the theme. Second and third prizes in the descriptive entries were awarded D.F.D. and Dairy Manufacturing club.

Winning comic float was the FFA entry, which depicted life in the new Student Union building in 1963. Second and third place winners were Kemas and AIEE.

Luncheon Outstanding

A total of 2,080 persons attended the Exes annual Saturday buffet luncheon provided by Texas, New Mexico and Oklahoma Coachs, Inc. and Furr Foods Stores.

"The luncheon was the best Homecoming function I have ever heard of, much less attended," declared J. M. Simpson, Odessa, '49 graduate.

Following the luncheon, new Association officers, elected at the executive council meeting Friday afternoon, were announced.

Olaf Lodal, '32, San Antonio, was elected president for the ensuing year. Homer Maxey, '31, Lubbock, was elected first vice president and Lallah Wright, '33, Fort Worth, was named second vice president. Ralph Blodgett, '41, Spearman, was elected director and George Langford, '32, Lubbock, was re-elected representative to the Athletic Council.

Hundreds of Exes participated in the Friday night series of class reunions, a function inaugurated at the 1950 Homecoming.

"Oldtimers," members of classes '25 through '38, gathered by the scores for a gala evening of glad-handing and back-slapping, reminiscing and dancing at Hotel Lubbock. Credit for the highly successful reunion goes to Dorothy Vandagriff Cone, '35,

and Kathryn Weaver, '39, who headed arrangements.

Campus dorms were scenes of three other class reunions. Classes '39 through '43 congregated at Sneed Hall. Elmer Tarbox, '46, served as chairman. Members of classes '44 through '48 met at Doak Hall and classes '49 through '51 held their reunion at Drane Hall. Bill Anthony, '45, was chairman of the former group and the Lubbock Chapter of '49-'50 Exes were hosts to the latter group.

Clubs Honor Exes

Many individual clubs and associations held breakfasts, coffees and receptions Saturday morning preceding the parade and other social gatherings following the game.

Many events were crowded into the half-time activities at the ball game. The Thomas trophy was awarded the best all-around parade float, the traditional Freshmen shoe race was held, and a spectacular show was presented by the Tech band with cooperation of the ROTC.

A big "Howdy Exes and Welcome" was spelled out on the playing field by the ROTC units and band, under direction of Dr. D. O. Wiley. In addition to honoring Cawthon, tribute was paid James H. Grimsley, longtime custodian at Tech, and who has been given credit for propagating the traditional "howdy" greeting at the college.

The celebration officially closed out with the Homecoming dance at the gym. Music was furnished by the Varsitonians, through courtesy of KFYO radio station. Alpha Phi Omega, national service fraternity, was in charge of decorations.

Class Notes —

Tech awarded her in 1940.

R. LEON MARKS, agriculture economics graduate, is engaged in farming near Clovis, N.M.

LINDSAY J. AUSTIN, business ad major, owns and operates the Austin Finance & Discount Corp. in Fort Worth.

ROY THOMAS SHAMBURGER, civil engineering graduate, is employed as party chief for Sun Oil Company working out of the Lubbock offices.

'37

JOHN ELZIE HARDING, education economics, is an assistant professor of economics at Tech. Mrs. Harding, the former LOR-ENE C. CHILDRESS, '35 Journalism gradcate.

ELMER RALPH CLEAVINGER, administrative education, resides in Canyon where he is a partner in the Canyon Implement Supply Company.

A resident of Ft. Lauderdale, Fla., is MARION LARRY DEDERICK, English graduate. He is office manager for the Turner Construction Company there. Mrs. Dederick, the former REEBERTA BERNICE CROSBY, received a BA in education from Tech in 1938.

ZAN BURROUGHS, engineering major, is vice president and manager of the Cisco Peanut Company in Cisco. Mrs. Burroughs, the former ARVELLA BOSTICK, received a BS in home economics from Tech in 1942.

DAVID ANSEL THOMAS, business graduate, now lives at Ann Arbor, Mich.

Ray H. Hynds, and wife, the former GERALDINE WATSON, Tech Ex, are residing in Port Isabel where he is superintendent of schools. They have one daughter,

Six Tech Degrees In Family

"Regarding the query in the October issue of the Texas Techsan as to which family has the most Tech degrees, our family boasts six," wrote John A. Lindsey Jr., 130 Field Crest Drive, San Antonio.

Mrs. J. A. Lindsey of Lubbock saw six of us through:

Kathryn Lindsey (Mrs. E. V.) Middleton, '31, Lubbock.

Alice Lindsey (Mrs. G. E.) Smith, '35, Lubbock.

John A. Lindsey Jr., '34, San Antonio.

Margaret Lindsey (Mrs. Clyde) James, '34, Lubbock.

Betty Lindsey (Mrs. J. W.) Huffman, '39, Houston.

Robert L. Lindsey, '41, Fort Worth.

Can anybody beat that record?

Raynelle, aged two.

'38

DONALD THOMAS GIBSON, geology graduate, is residing in Tyler where he is employed as a geologist with Stanolind Oil & Gas Company.

MRS. FRANKLIN HALL BURR, the former MILDRED LENORA MORRIS, music graduate, is employed by the Rice Belt Insurance Agency in Crowley, La.

JOYCE LEONARD GLASS de FREGOSO, history graduate, is residing in Reynosa, Mexico. She was formerly employed as an English-Spanish secretary in Mexico City.

Engaged in the general practice of law in Lubbock is JAMES GRAY DENTON, government graduate.

MRS. ETHY LOU HADDE, primary education major, is residing in Dearborn, Mich.

WINSTON PHILLIPS BRUMMETT and wife, the former GWENDOLYN ADELLE McKINNON, '37-'38, are residing in Lubbock where he is engaged in the general practice of law.

'39

An assistant professor of animal husbandry at Tech is JOHN HENRY BAUMGARDNER. He holds both bachelor's and master's degrees from Tech. Mrs. Baumgardner, the former MARETTA FRANK HOLLOWAY, received a BS in home economics in 1940 from Tech.

Residents of Corpus Christi are BIRT RALSTON BRUMBY and wife, the former JEAN McGEE, '38 home economics graduate. He is employed as production superintendent of the Panhandle Production and Refining Co.

James Walter Forbis, MA, government, is managing editor of the "Texas State House Reporter" in Austin.

'40

Practicing law in Abilene is W. LEE BYRD, speech graduate. Mrs. Byrd is the former WINIFRED WEEKS, Tech Ex.

MARVIN WARLICK CARR, government graduate, and wife, the former BILLIELEE RAGAN, commercial art student in 1940-41, are residing in Lubbock where he is a partner in the Carr & Carr law firm.

WAYNE F. SMITH is employed as an Internal Revenue agent

Pictured above is Dorm IV, winner of the Alschuler award, presented to the best decorated dorm at Homecoming.

in Fort Worth.

ROBERT L. PENDLETON, business ad graduate, is the Ford dealer in Ordway, Colo. Mrs. Pendleton, the former MAURINE RAINS, attended Tech in 1939 through 1941.

'41

CLYDE MARION PEDERSON, geology graduate, is engaged as a geologist with Cities Service Oil Co., at Midland.

EVELYN PATTY, home economics graduate, is employed by the Texas Medical Center in Houston.

JOHN LEO PATTERSON, civil engineering graduate, resides in Baytown where he is an engineer for Humble Oil Co.

A resident of Lubbock is H. D. PHILLIPS JR., chemistry graduate. He is owner of the Plains White Tractor Co.

ROBERT JORDAN RAMEY, agriculture major, is engaged in farming near Dimmitt.

'42

THOMAS J. COFFEY, English graduate, and Mrs. Coffey, the former CATHERINE McCOLLUM, '42, speech grad, recently moved from Fort Worth to McAllen.

DR. THOMAS MOORE PRIDEAUX, chemistry graduate, is practicing medicine at Lamesa. Mrs. Prideaux is the former NORMA JEAN SPENCER, foods and nutrition graduate of the '42 class.

Senior engineer with the Melpar Company of Alexandria, Va., is BENJAMIN H. DENNISON, electrical engineering graduate.

Mrs. Dennison is the former MARY FRANCES BELL, business student, '40-'42. They reside in Arlington, Va.

Dr. D. P. TERRELL, zoology major, is engaged in the practice of pediatrics in McAllen.

'43

M. A. ROGERS, textile engineering graduate, is associated with the Bonham Cotton Mills in Bonham.

An attorney for Sinclair Oil Company in Fort Worth is JACK GREEN. Mrs. Green is also a Tech Ex.

JACK ALAN PRATHER, petroleum engineering graduate, is living in Dallas where he is engineering foreman for Sun Oil Company.

'44

MRS. EMIL E. PANEK, the former SUZANNE JANE SIMONS, business ad and speech major, lives in Cheyenne, Wyo., where she is a housewife.

EDITH L. WILLIAMS, journalism grad, was recently appointed continuity director for radio station KFJZ in Fort Worth. During her senior year at Tech she was an employee of the Avalanche-Journal, served on Mademoiselle Magazine's college board and was a member of Theta Sigma Phi, national honorary journalism society. After graduation in June, she was society editor of the Clovis, N.M., News-Journal.

Korean Ex Writes Of Hardships

Separated from Texas Tech by thousands of miles, 18 years and devastation of war, Mrs. Laura Song of Seoul, Korea, even in these troubled times, still keeps in touch with her alma mater.

Mrs. Song, '33 home economics graduate, returned to her native Seoul shortly after graduation from Tech to teach at Ewah College in Korea. She married a Korean engineer who also was educated in America. He fought in World War II and never returned nor was heard from.

In a recent letter to Dean Margaret Weeks, head of the home economics division, Mrs. Song wrote: ". . . I cannot tell you of the hardships we have met so far, but I am thankful we are still alive."

"Last December we had to get out of Seoul, so my son, Sung Soo, and I left and came to Pusan," she wrote. "We had all hoped to get back to Seoul this fall but were disappointed."

"I have often wondered if there are not former Tech students here in Korea now . . ."

In describing the life of the children of the country she said, "They have to study in the mountains or the coast side, which is pitiful. Sung Soo has to walk four miles to school each day."

"We all hope we will soon have the world peace," she concludes. Her address is: Mrs. Laura Song, Main Post Office, Box 10, Pusan, Korea.

LOOKING FOR A NEW JOB?

As A Service To Ex-Students, THE TECHSAN
Is Publishing A List Of Job Openings,
As Furnished By The College Placement Service.
