KEEPING COOL AT THE SWIMMING POOL—Like hundreds of others during these sweltering summer days these Tech coeds take advantage of “the old swimming hole” to keep cool. These five assembled at Mackenzie Park in Lubbock to play their card game. From right to left are Sandra Sadler, Merkel; Mary Whiteside, Sundown; Pat Knight, Midland; Faye Marsh, Ralls; and Johneen Bice, Dimmitt.

Board Takes Other Action

Meet Texas Tech's Sixth President

Dr. Edward Newlon Jones, 53, has been appointed as the sixth president of Texas Tech to succeed Dr. Dossie M. Wiggins, who tendered his resignation at the close of the spring term.

No newcomer to Tech, Dr. Jones has been vice president since 1948. He was named by a unanimous vote of the Board of Directors meeting in Dallas.

Announcement of the selection of Dr. Jones was made by Board Chairman Charles Thompson of Colorado City following the board's executive session.

"We are happy to announce the appointment of Dr. Jones," Thompson said. "We believe he has proved himself deserving of the position and qualified in every respect to serve as head of the institution. All the board members concurred in the decision."

To Assume Duties

Dr. Jones will take over his new duties Sept. 1.

There have been no provisions made at this time for a successor to Dr. Jones as vice president.

Before considering the naming of the new president, the board of directors also:

(1) Voted to allow Greek-letter fraternities and sororities at Texas Tech but added that "no houses will be allowed either on or off the campus without securing board approval in advance."

(editors note: As this issue of The Techsan went to press concrete work on the exact way in which nationals will be introduced onto the campus was still being done. In the next issue we hope to be able to tell each of you exes—especially those who were club members—just how your status as alumnae will be affected.)

(2) Empowered the president and the building committee, comprising C. E. Weymouth, Amarillo, Leon Ince, Houston, and Robert B. Price, El Paso, to represent the board in negotiation with the City of Lubbock on the possible construction of a new 12,000-seat coliseum, auditorium and field house to be used by both the city and the college.

(3) Approved Dr. Wiggins

Dr. E. N. Jones

plans to ask for raises for Tech faculty members which would amount to \$300 "across the board" and \$200 additional merit raises for others.

(4) Accepted an agreement with the State Highway Department on the Santa Fe railroad for the construction of an underpass under the railroad tracks for a proposed new highway bisecting the campus and running east of the railroad from the intersection of the Brownfield and Levelland Highways to Fourth St. in Lubbock.

The action of the board on the fraternity-sorority issue means that the eight men's clubs and the five clubs for women which have been active on the campus for a number of years may now affiliate with national Greek-letter social organizations. The groups voted last spring with one dissenting club in each to seek the right to petition the nationals.

Of major importance to both the college and the city of Lubbock is the projected construction of the coliseum, auditorium and field house. A bill was passed by the college last year giving the college board the right to dedicate campus land near Fourth St. and

College Ave. (that is the section adjacent to Jones Stadium) as a site for the building.

Bonds Were Voted

A \$1,750,000 bond issue was voted by the city of Lubbock seven years ago for the coliseum-auditorium-field house project. These bonds have not yet been sold.

The project is not yet in a definite state. Should plans materialize and the project be built on the campus it would be owned and operated by the city of Lubbock.

At its meeting the board of directors also approved a bid of \$10,000 from Hemphill-Wells Co. for advertising space on the new scoreboard to be erected in Jones Stadium.

The new scoreboard is identical with the one in the Cotton Bowl.

Dr. Jones will be the sixth president and the second Dr. Jones to head Texas Tech. Dr. Paul Whitfield Horn was the first president and was succeeded by Dr. Bradford Knapp. The third was Dr. Clifford B. Jones, the only man to be honored with the title of President Emeritus. The fourth was Dr. William M. Whyburn, and Dr. Wiggins was the fifth.

History Is Given

Dr. Wiggins resigned to enter the banking business in Lubbock.

Dr. Jones is a native of Downs, Kan. He has made a distinguished record as an educator and as a citizen. He holds a Bachelor of Science degree from Ottawa University, Ottawa, Kans.; a Doctor's of Philosophy from the University of Iowa and a Doctor of Laws from Ottawa.

He was a fellow in botany at the University of Iowa while he worked on his doctorate and after graduation he joined the faculty of Baylor University, remaining there from 1925 to 1942. He served as dean of College of Arts and Sciences from 1935 until 1939 and dean of the university from 1939 until 1942.

Dr. Jones was president Texas College of Arts and Industry at Kingsville for six years just before coming to Tech.

He was a fellow in the American
(Continued On Next Page)

(Continued From Page 2)

Association for the Advancement of Science, a past president of the Texas Academy of Science, the organizer and first chairman of the Texas Council of Church-Related Colleges, and a member of numerous professional educational organizations, an active churchman and Rotarian.

Dr. Jones learned of his election from Dr. Wiggins. He had official announcement from Thompson. Then each board member came onto the line briefly to congratulate Dr. Jones.

The new president is humble about the job which he is undertaking.

"Certainly I shall follow the major and essential policies which have characterized Dr. Wiggins' administration. I'd like for Tech to move further and further toward the goals established and approved by the board."

Dr. Jones does not assume the presidency at an easy time. Next fall the school faces a considerable decrease in enrollment. The social club program will be revamped and new emphasis is being given to graduate studies.

Build-Back Is Planned

"Next year we at Tech will try to hold the line," he says. "Then we will start out build-back expansion in enrollment in 1953. Indications are that 1953 will bring a heavier enrollment."

Dr. Jones stands solidly behind the expanded program for graduate studies and points with pride to the distinguished newcomers on the faculty.

"I shall continue to devote as much time as possible to the academic responsibilities which I have had as vice president," he says.

"When I came to Tech Dr. Wiggins and I had a division of responsibility. Of course, on matters of policy, I asked his concurrence and if the matter was sufficiently important it went before the board.

"I can say nothing significant at this time about the choice of a new vice president. He must be strong in the public relations field."

Dr. Jones and his family live at 3204 27th St. His new bride is the former Mrs. Fannie Woodson Wheat, former dean of women at Texas A. & I.

Speech Workshop Is Held At Tech

A two-part speech workshop was conducted June 6-July 3 by the Texas Tech speech department.

Dr. P. Merville Larson, head of the speech department, has said announced the two programs for the summer included work in dramatics and forensics. The speech workshop was the first time Texas Tech has attempted a summer speech program. Six high schools sent representatives. About 12 area high schools enrolled students in the workshop.

Groups interested in dramatics worked on acting and play production under the guidance of Edwin Levy, Denver, Colo. Students in the workshop participated in one-act plays, and a

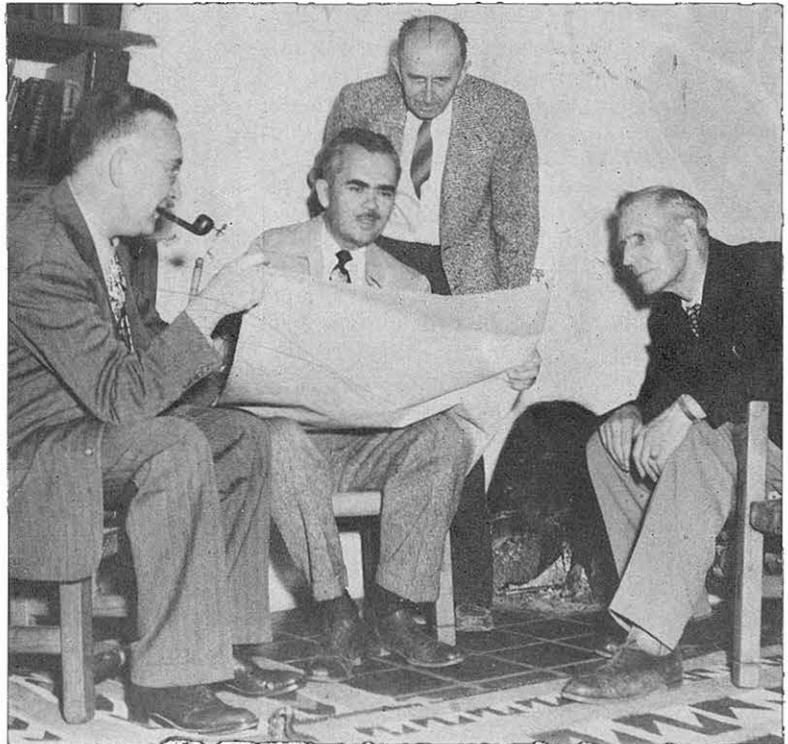

three-act evening performance, Dr. Larson said.

The forensic group, under the guidance of Dr. Larson, took part in discussion, debate, and extemporaneous speaking. They will worked generally on the high school discussion and debate problem for next year, which is "What kind of International Organization Should the United States Support?"

Both groups worked under the direction of Tech seniors and graduates in speech. The workshop is being set up primarily for high school sophomores and juniors.

A general session was held each day of the workshop. At that time, the group worked on individual speech improvements and effectiveness in speaking.

See inside back cover for Football Tickets.

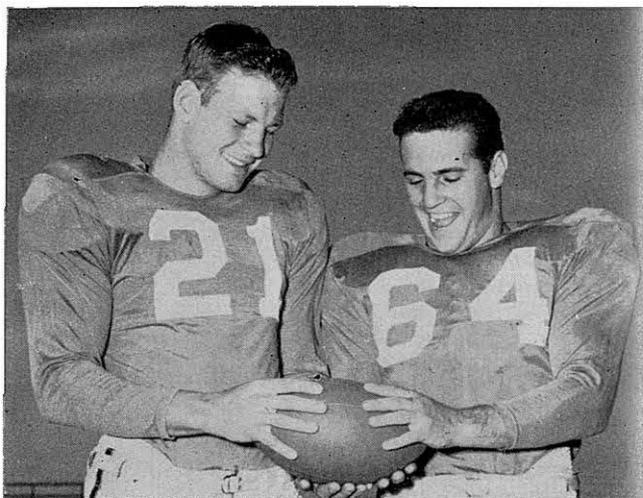

TECH PROFESSORS IN SPOTLIGHT—The four Tech faculty members shown above played leading roles in the recent nation wide flurry over "flying saucers." A national magazine, Life, featured a story on the saucers in which statements from the four shown above were given leading roles. From left to right are Dr. A. C. Oberg, Prof. W. L. Ducker, Dr. R. S. Underwood and Dr. E. L. George.

The Techsan Salutes

The Techsan is proud this month to salute one of the outstanding ex-students of Texas Tech and a woman who is among the top in her chosen profession of medicine, Dr. Pauline Miller, '29, of Lubbock. The doctor, who is a child specialist, is associated with St. Mary's hospital in Lubbock. She is a member of Altrusa Club, a civic organization, a member of Kappa Gamma, business and professional sorority, and many other organizations including the Lubbock-Crosby County Medical Society. Dr. Miller is one of the leading workers in the Mexican Well-Baby Clinic sponsored by the Lubbock Junior Welfare League.

A salute to a pair—rather than just one—is next on the docket for The Techsan this issue. They are Vernon (Buddy) Barron and Jim Turner, co-captains of this year's edition of the Red Raiders. Buddy is a guard. As a junior he headed the Double T Association. He made the Texas All-Star team playing for Temple high school. His partner, Jim Turner, is from Olney. A multi-purpose back, Turner led the Raiders last year in scoring and pass receiving. He was named to the Associated Press All-Border Conference defensive team last year.

Turner

Barron

Dean W. L. Stangel needs no introduction to any student who has ever attended Texas Tech, regardless of what division he or she was enrolled in. The affable head of the Division of Agriculture is as much a part of the campus as is the Administration Building. Recently Dean Stangel was named to another in a long series of honors and outstanding awards. The dean was chosen to be one of the 10 leading agriculture educators in the nation to make a tour of Central American countries and observe agriculture at work in that area. Dean Stangel has played the leading role at Tech in bringing the Division of Agriculture into its own as one of the best in not only the state but the U. S. Its graduates have distinguished themselves in many ways and are continuing to do so every year. Congratulations to a leading educator on a job "more than well done."

Former Tech Faculty Member To Fill Brother's Post At College

Talk about coincidence!

The Bible verse "Am I my brother's keeper?" would seem to have special significance now for Capt. John H. Baumgardner, a former Techsan who has been appointed assistant professor of air science and tactics at Tech.

The 36-year-old captain, who lives on Route 3, Lubbock, slipped into his job recently, a job that had been vacated only a week before by his younger brother, Maj. Haynes Baumgardner.

The major was ordered to duty at Maxwell Field, Ala. after serving at Tech for four years.

Teaching on the Tech campus is no novelty for the captain. A graduate of the school's agriculture division, he also was assistant professor of animal husbandry at Tech for six years, from 1945 to 1951.

Capt. Baumgardner is the oldest

in a line of seven brothers and sisters who have or are attending Tech. A teen-age sister, now in high school, also plans to enter Tech.

An instructor at Reese AFB for the past year, Baumgardner will take over the flight operations phase of instruction at Tech, the exact position his brother, Haynes, held.

He first came to Tech as a freshman from Wellington in 1934. Receiving his bachelor degree in 1939 he went on to get his master's in 1940.

In 1942, Capt. Baumgardner joined the infantry, but quickly switched to the Air Force, where he graduated from pilot training in 1943. He returned from the European Theatre of Operations in December, 1944. He flew 30 missions over Europe including strikes at such central Europe

HIS BROTHER'S SUCCESSOR—Capt. John H. Baumgardner was named as assistant professor of air science and tactics at Texas Tech recently. He will have charge of flight operation, a position his brother, Maj. Haynes Baumgardner, vacated recently when given duty at Maxwell Field, Ala. Capt. Baumgardner, a former Tech agriculture professor, also finds himself in an unusual situation of teaching at a school while officially on leave of absence from the same school.

Former Raider Visits In Lubbock

A former captain of Texas Tech's Red Raiders in the year 1940, Lt. Col. Lonnie McCurry, better known as Primo, was a recent visitor in Lubbock.

McCurry, who was also a star at Lubbock Senior High school, has worked up in the Marine ranks from private to his present rank.

Lt. Col. McCurry is on a short leave from duty at Camp Coronado in California, where he is an instructor in supporting arms at an amphibious troop training school. He expects to report to Camp Pendleton soon.

The Lubbock Marine officer enlisted in 1941, the year he was graduated from Texas Tech. He has had continuous service and was in World War II in the Pacific.

Plainview Student Is Elected To Post

A junior chemistry major at Tech, James Dent of Plainview, elected president of the State Baptist Student Union Council during a BSU conference in Lubbock in May.

Dent, 19, is a former president of the Tech BSU and was recently chosen to the Tech Student Council.

cities as Berlin, Leipzig and Munich.

The last few mission Capt. Baumgardner flew in his B-17 were as leader of the 95th Bomber Group. He was awarded the Distinguished Flying Cross, Air Medal with three clusters and the ETO ribbons with four stars.

Following the war, he returned as a teacher to Tech but was recalled to service in 1951. Oddly enough, the captain, though teaching at Tech, is officially on leave of absence from teaching at the same school.

The son of Mr. and Mrs. J. B. Baumgardner, who live at Wellington, Baumgardner married a Lubbock girl, the former Maretta Holloway, who graduated from Tech in 1941.

The couple has three children Rudolph, 8; Sharon, 6; and Alice 4.

Tech Becomes First College In State To Have Guernsey Herd

Texas Tech has received another "first".

With the recent arrival of Mullhocaway Beauty Heartsease, a 14-month old Guernsey bull and the first animal of the Tech foundation Guernsey herd on the campus, the college became the first college in the state with a Guernsey herd.

Bred by the Mullhocaway Farms of Clinto, N. J., the bull was purchased by the college at the 27th Guernsey sale at the Forsgate Farm of Jamesburg, N. J. The bull will be the junior herd sire of

of Tech's Guernsey herd. He is line bred and of Primrose butterfat breeding.

The bull is the son of Cold-spring's Noble Beauty King. His dam was Hilltop Heartsease Belle. The father of the newly acquired Tech bull recently sold for \$29,000.

In addition to the bull, 12 head of Guernsey cows—ranging from two to five years old—have been purchased by the college.

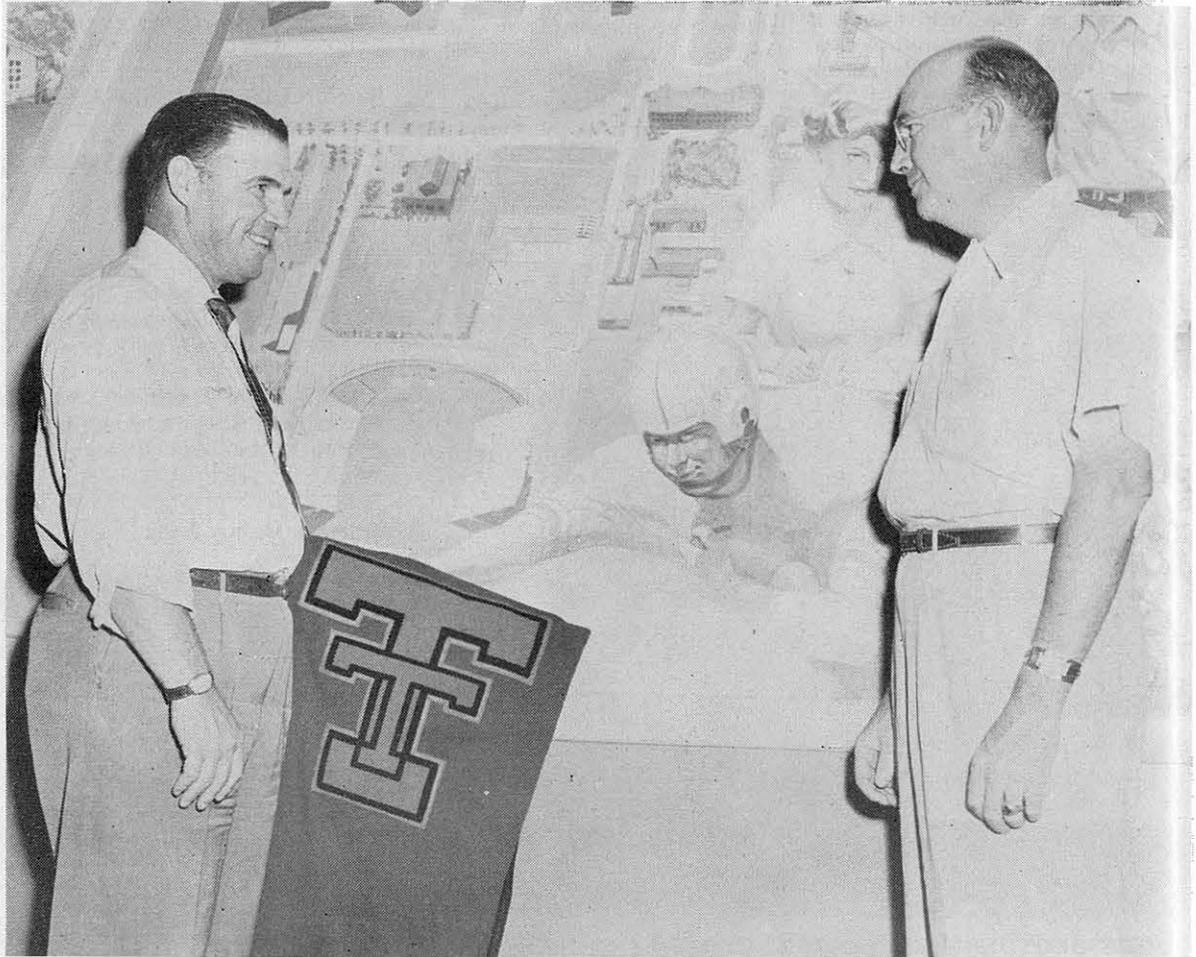

The cows were purchased by Koy L. Neeley, associated professor of animal husbandry, and Casey

Fine, assistant dean of agriculture, in early May. The cows will arrive on the Tech campus in the near future.

Several of the Guernseys were purchased from the Franchester Farms of Cleveland, O. and another group was purchased from the Repelmar Farms in Versailles, Mo.

The college has been allotted about \$15,000 for the purchase of its foundation Guernsey herd. According to Neeley, the 12 cows and the bull cost in the neighborhood of \$9,300.

The college plans to buy one more bull to add to the foundation herd.

HONORARY LETTERMEN FOR OUTSTANDING WORK—C. I. (Stony) Wall, left, retiring president of the Matador Club, boosters of the Tech athletic program, is showing his blanket to incoming president Homer Maxey. The blanket was presented to Wall as a gift for his work in the club and in recognition of his being made an honorary letterman of Tech's 1951-52 football team. Maxey is sponsoring a drive at this time for new members in the Matador Club and was recently nominated for president of the Ex-Student Association for next year.

The Hitchin' Post

In a double ring ceremony read June 25 in Fort Stockton, MISS DOROTHY CHRISTINE STEPHENSON and AUSTIN CARROLL CHRISMAN exchanged marriage vows. The bride and bridegroom are graduates of Tech. She was a member of Las Chaparritas social club, Alpha Lambda Delta, Junior Council, Forum, Phi Gamma Nu, Alpha Chi, was named most popular girl of her junior class and was Sun Princess to the El Paso Sun Carnival. The bridegroom was a member of Delta Sigma Pi at Tech. They are to live on their ranch south of Fort Stockton.

* * *

St. Paul's Episcopal Church in Abilene was the scene in June of the marriage of MISS NANCY DOLORES MORAN and AUBREY PHILLIPS, JR. At Tech the bride was twice selected a school beauty and was a member of Sans Souci social club. The bridegroom was graduated from Tech in May. He was center on the Red Raider football team, served as co-captain, was a member of Who's Who on the Campus, and was senior class favorite for 1952. They are to live in Regin, Saskatchewan, Canada, where Phillips will be a member of the Saskatchewan Professional football team.

* * *

JAMIE LEE REAGAN and HO-

WARD THURMAN MOORE, both Tech grads, were married in April in Amarillo. The bride was a member of Phi Gamma Nu at Tech. Moore is employed at First National Bank in Lubbock, where the couple is making their home.

* * *

The marriage of MISS JOYCE HARDIN of Lubbock and ARLAS CAVETT of Fort Worth, was read April 12 in the home of the bride's parents in Silverton. The bride was graduated from Texas Tech in 1950 with a B. A. degree in business. She has been employed by Great Western Drilling Co. in Lubbock for two years. Cavett was graduated from Tech in 1948 with a B.B.A. degree in management. He is employed by Stanolind Oil and Gas. Co. in Fort Worth, where the couple is living.

* * *

In a formal candlelight ceremony read in Lubbock early in April, LAQUITA DOOLEY became the bride of ROBERT LYNN MILLER. The bride was a freshman student at Tech. Miller was graduated May 26 from Tech where he was in the Air ROTC, Delta Sigma Pi and Sigma Iota Epsilon.

* * *

Mr. and Mrs. Shultz Augustus Hartgrove are at home on a ranch near Paint Rock after their marriage April 13 in Pecos. The bride was a student at Tech prior to her marriage.

* * *

Recently married in the Kessler Methodist Church in Dallas were KAY FINLEY, '46-'47, and Frank Dickson Hardwick. They are living at 2222 Anniels Dr. in Dallas.

* * *

CHARLES M. FUGITT, who graduated from Tech in 1944, was recently married in Dallas to Miss Mauricia Keathley of Dallas. Mrs. Fugitt was a hostess for Braniff Airlines.

* * *

CAROLYNE SUE MAYFIELD, a member of Las Chaparritas Club at Tech, and ORIS RACY REYNOLDS of Merkel, a member of Block and Bridle at Tech, were married April 27 in the home of the bride's aunt and uncle in Merkel.

* * *

In a ceremony read April 10 in St. John's Methodist Church in Lubbock, MARY WASHAM of Sweetwater became the bride of DONALD GENE SHIPLEY of Hereford. The couple is at home in Lubbock. The bride was a sophomore student at Tech where she was a member of Sans Souci, Alpha Lambda Delta and Home Economics Club. She was an applied arts major. Shipley, a junior student at Tech, was majoring in agricultural education. He was a member of Los Camaradas, Alpha Phi Omega, FFA and Aggie Club.

Mr. and Mrs. James Lewis We-
ley are at home in Odessa after
their marriage in Odessa in April.
The bride is the former ANNA
JO YARBROUGH, an ex-Techsan.

RUBY POTTS, a 1950 gradu-
ate of Tech, and Benjamin T.
Muller of El Paso were married
April 20 in First Baptist Church
in Lubbock. The bride was a mem-
ber of Las Vivarachas Club, Home
Economics Club and Home Eco-
nomics Council at Tech. The
bridegroom is employed by the
Baroid Sales Division of the
National Lead Co. Mrs. Muller
was formerly assistant Home
Demonstration Agent in Pampa.

MISS DOLORES ALLINE
WEBB, ex-Techsan, became the
bride of Lt. Richard Cobden Zie-
bell of Glenview, Ill. in a cere-
mony read May 10 in First Meth-
odist Church in Lubbock.

The marriage of MISS MAUD
DEE SKEEN of Lubbock and
Jesse Homer Stout was read
April 12 in First Methodist
Church in Lubbock.

Ford Memorial Chapel of the
First Baptist Church in Lubbock
was the scene April 10 of the mar-
riage of CHLOE ANNE HERRIN,
Tech grad, and LT. DELL WELLS
of Anton, who graduated from
Tech. The couple is to live in Lou-
siana where Lt. Wells is stationed
at Camp Polk.

Ex-Techsans RHODA MAR-
GARET BARRIER and DEAN
CHARLES ING were married
June 8 in First Christian Church
in Lubbock. Ing is in the Air Force
He is stationed in Manchester, N.
H., where the couple is at home
following a wedding trip to Colo-
rado, Chicago, Canada, Niagara
Falls and New York City.

ELVA LEA SMITH and Cleith
Ozell Walker were married June
7 in Peacock. The bride was a
member of FTA and Home Eco-
nomics Club at Tech. They are liv-
ing in Lubbock where the bride-
groom is stationed at Reese Air
Force Base.

Two Tech graduates, NEMA
FRANCES ROSS and CONRAD
H. RICKWARTZ, were married

June 7 in St. Elizabeth's Catholic
Church in Lubbock. The bride has
been a teacher in the Lubbock
Public Schools. Rickwartz, an
electrical engineering major, is
employed in Las Vegas, Nev.

OUIDA LAVERNE CAVETT
and IRVING (FROSTY) FROST
were married June 8 in Olton, Tex-
as. The bride graduated from Tech
in 1951. Frost is a junior electrical
engineering student at Tech.

The marriage of Miss Roberta
Ruth Hollingsworth and TROY
LELAND DANE was solemnized
June 13 in Lubbock. The bride-
groom attended Tech two years.

PATRICIA ANN COOK, a
member of Sans Souci Club at
Tech, became the bride of Forrest
Edgar Faver of Brownfield in a
service read June 8 in Lubbock.

In a double ring ceremony read
May 31 in the First Presbyterian
Church in Lubbock, VARA JEAN
McREE and James Arthur Bass
exchanged marriage vows. At
Tech, where she was a senior stu-
dent, the bride was a member of
Ko Shari Club.

Mr. and Mrs. James E. Johnson
are at home in Edinburg after
their marriage April 12. The bride
is the former EARLINE ROD-
GERS. She received her B. A. de-
gree in English from Tech in 1945
and her M. A. degree in 1950.

Miss Ann Buckley became the
bride of BILLY F. WILSON in a
ceremony read May 27 in First
Christian Church in Lubbock. Wil-
son received his B. S. degree in
mechancil engineering from Tech.
They are at home in Fort Worth
where he is employed by Bell Air-
craft Co. in the stress analysis
department.

The marriage of LAHOMA
JOYCE and Vernon Lee Ehlo was
read May 27 in Lubbock. The
couple is at home in Great Lakes,
Illinois, where the bridegroom is
stationed in the Navy.

Ex-Techsans ANNABEL LEE
and RODGER LEE PRUITT were
married May 26 in a formal after-
noon ceremony in Lubbock. At
graduation services that night, the
bride received a B. A. degree in
sociology and the bridegroom re-

Tech Professor Is Teaching In Austin

Dr. Seth Shepard McKay, pro-
fessor of history at Tech, is teach-
ing two graduate courses during
the summer tern at the University
of Texas.

He is teaching one research
course on the Texas Constitution
and another on the Constitution of
the United States.

ceived a B. S. degree in textile en-
gineering. They are living in
Greensboro, N. C.

Following a wedding trip to New
Mexico, MR. AND MRS. MORRIS
RAY WOMACK are at home in

May 27 in Olney. The bridegroom
was graduated in May from Tech.
Mrs. Womack, the former AZA-
LEE BRYANT, was a sophomore
student at Tech.

Junior students at Tech, JAN-
ICE JEFFERIES MCDONALD
and MARVIN LEE PAIR, ex-
changed marriage vows May 31
in Lubbock. The couple is at home
in Lorenzo where the bridegroom
is engaged in farming.

A Tech graduate, BILLIE SUE
BLACKBURN, became the bride
of Sgt. Charles Milton Robertson
of Ensley, Ala. in a June 2 cere-
mony in Lubbock. Mrs. Robertson
was a teacher in Lubbock Public
Schools. The bridegroom is sta-
tioned at Reese Air Force Base.

MR. AND MRS. GILES WIL-
SON DALBY will resume their
studies at Tech this fall following
a wedding trip to San Juan, Puer-
to Rico. The bride is the former
Nelda Flody of Post.

June vows were read in Silver-
ton for JEANNE DUDLEY and W.
H. Graham Jr. of Farwell in the
home of the bride's parents. The
couple is at home in Farwell. The
bride was graduated from Tech in
1950 with a degree in journalism.
She has been employed as society
editor on The State Line Tribune
in Farwell. Graham is a student
at Eastern New Mexico University
in Portales. He assists his father
on the State Line Tribune.

New Members Are Added To Faculty

Two new outstanding educators have recently joined the faculty at Texas Tech, it was announced by the office of the president.

The two are J. Evetts Haley, rancher in the Canadian area and one of the most noted historians in the nation; and Dr. Lewis M. Cline, one of the country's top-flight geologists.

Installation of the new faculty members is expected shortly after the start of the fall semester at Tech.

Haley, long a controversial and

colorful personality in Texas politics, will assume the title of Director, Institute of Americanism, a new department set up recently under the Charles E. Maedgen Foundation. Cline will be listed as a distinguished professor of geology.

Together with Dr. Carl Coke Rister, distinguished professor of history, the two men will provide Tech with a top-drawer trio of scholars and research men.

Haley is, perhaps, the more colorful of the new appointments.

Regarded as a "rugged individualist", college officials expressed happiness at obtaining him for the Americanism Department.

The department, as set up in the Maedgen Foundation, was conceived to set up a program at Tech that would perpetuate the basic principals of Americans as conceived by the nation's founding fathers. It was approved by the Tech Board of Directors two months ago.

Background Is Revealed

President of the Panhandle Plains Historical Museum until May 11, 1952, Haley was born in Belton in 1901. His mother, Mrs. John H. Haley, was one of the few women ever to serve on the Tech board of directors.

After early education in the Midland primary and secondary schools, Haley attended Canyon College (now West Texas State) where he was graduated in the early 1920's. He received his masters degree from the University of Texas in 1925.

For a time he worked as a field man for the Panhandle Plains Historical Museum. He continued with this society in different capacities until May 11, 1952 when, as president, he resigned just before accepting the appointment at Tech.

He also has served as field man for the Texas Collection at the University of Texas for several years.

After leaving the University of Texas, he managed the J. M. West ranches in Texas, New Mexico and Arizona. He now operates a ranch near Spearman and owns several others.

Wiggins Statement

In announcing the appointment of Haley, Dr. D. M. Wiggins said:

"It has been the sincere purpose of the college to put into operation at the earliest possible moment the program made possible by Mr. Maedgen and others who are definitely interested in development a program on the campus of Tech for the strengthening of the basic program of the American way of life.

"Texas Tech is dedicated to the sciences and technology. It is also dedicated to doing everything possible toward making safe the prin-

(Continued On Page 19)

ENTERED IN CONTEST—Miss Connie Wray Hopping, Littlefield, is one of the Tech coeds entered in this year's Miss Lubbock contest. The winner will compete for the Miss Texas title and from there to the national contest. Miss Hopping, who is a Tech beauty, has been joined in the contest by Miss Jone Osborne, a Tech junior whose picture appeared in the last issue of The Techsan. Jone was runner up in last year's contest.

JOHN H. WILSON, class of '35, lives on Providence Road in Char-

recently jointed him there. His address is: Battery 'C', 82nd F. A. Bn., APO 201, % Postmaster, San Francisco, Calif.

RALPH HOOKS of the class of '40, lives at 1369 Sayles Blvd. in Abilene.

^{'41}
LAWRENCE W. COYNE, '41 grad, is teaching agriculture for the U. S. Government in Lybia, North Africa.

D. L. PEMBERTON, '41, can be reached at the Pemberton Agency in Brownfield.

Route 2, Lockney, is the home of JAMES C. ROACH, a member of the class of '41.

^{'42}
MRS. CLIFFORD FREEMON, the former DORIS SOWDER, is living at 3259 January, St. Louis, Mo.

CHARLES FAIR of the 1942 class is living at 2210 N. Louisville, in Tulsa, Okla.

^{'43}
WILLIAM HOUSTON SCHWEITZER, '43, a former lieutenant

in the Navy, has received a medical discharge and is again employed by Humble Oil and Refining Co. at Baytown.

MARY SPARKS is living at 67-07 Santa Monica Blvd. in Hollywood, Calif.

DON SHEPHARD, '43, lives at 6945 Canal, Houston.

KENNETH W. ROBBINS; who graduated from Tech in '43, has been certified by the Texas State Board of Registration to practice engineering in Texas.

^{'44}
DONALD ROBBINS, '44, was initiated in May into the Vanderbilt University chapter of the Society of the Sigma Xi, national fraternity for research scientists in Nashville, Tenn. He is a graduate student at Vanderbilt.

MR. AND MRS. BOWEN DULANEY live in Bel Aire, Texas. They have three children. She graduated in 1944, he graduated in 1948.

LORETTA ALLEN, '44, lives in Abilene. She receives her mail

through Box 3103.

FIKE GODFREY, a '44 grad, is living in Spur.

^{'45}
J. W. SMITH, of the '45 class, is employed by Lovington National Bank in Lovington, N. M. His wife is the former JOSIE LEE BARNETT, also of the Class of '45.

^{'46}
BILLIE GRACE WEBB, '46, is living at Park Terrace in Lamesa.

MR. AND MRS. AVRO GODDARD are living at 3220 Dutton Dr. in Dallas. He graduated from Tech in 1946. His wife, the former BETTY MARY GUTHRIE, is also an ex-Techsan.

^{'47}
A business major, ROBERT W. GASTON, '47, is employed by Stanolind Oil and Gas Co. in the exploration department. His address is P. O. Box 268, Lubbock.

CHARLES W. JONES, who received a B. S. degree in petroleum engineering from Tech, is employed by Stanolind as field engineer in the company's area office at Levelland. He was formerly located at Sweetwater.

MR. AND MRS. CLYDE JONES, he is a '47 grad, are living in Levelland where Clyde is district superintendent for Southwestern Public Service. They have two children, Emily and Jeffrey.

MRS. ROBERT V. RICHARDSON of the class of '47 is living at 2218 23rd St. in Lubbock.

EMMETT E. HINSON, at '47 industrial engineering graduate, has been assigned as sales representative in Detroit, Mich. for General Electric's Chemical Division.

Six 1947 engineering graduates of Tech have been certified by the Texas State Board of Registration to practice engineering in Texas. They are JAMES A. LUCAS, OLIN E. MONK, AUSTIN M. WILLIAMS, L. K. STOUT, ARNOLD MAEKER and E. H. MC-ELROY JR.

^{'48}
BOB WILLIAMS, 1948 grad, was in Lubbock June 24 with his boss, John C. White, Texas Commissioner of Agriculture and another Techsan. Bob is "chief of stores and markets" in Texas.

MR. AND MRS. CARLO HAROLD GOODIN JR. of Borger, are the parents of a son, born in June. Mrs. Goodin is the former MARTHA MARIE SMITH. Carlo is

employed by Kewanee in Borger.

LOIS JEAN WEEKS, '48, is living at 2527 Matalen in San Antonio.

RUSSELL C. HAMMACK, '48, is employed by Sid Richardson Gasoline Company in Kermit.

MARY HAMMOCK, now Mrs. James M. Gibbin, is living in Midland.

R. E. JONES of the '48 class, lives at 1723 North Ohio in Roswell, N. M.

MISS VIRGINIA DACUS, formerly of Amarillo, has moved to 117 University St. in Palo Alto, Calif.

Five members of the '48 engineering class have been certified to practice engineering in Texas. They are HUGH E. MONROE, W. E. MCGOWAN, S. A. BROOKS, JACK MIMS, AND LEONARD L. TAYLOR.

DR. C. E. NOWLIN, who graduated from Tech in 1948, has moved his offices to Arlington from Dallas. He is an optometrist.

'49

CHARLES R. AKERS, who graduated from Tech in 1949 with a degree in petroleum geology, has been employed by the exploration department of Stanolind Oil and Gas Company in San Augustine.

Another '49 grad, Robert Norman, is employed by ARAMCO, Arabian American Oil Company.

COKE TOLIVER, a '49 business management major, is employed by Stanolind Oil and Gas Co. in the producing department in Brownfield.

BRUCE DOUGLASS of the class of '49 has moved to 1312½ Main St. in Duncan, Okla. from Abilene.

A '49 engineering grad, PERRY P. MOSS, has been certified to practice engineering in Texas.

MRS. DONALD BROWN, the former JAYNE THOMPSON, '49, lives in Vernon, Tex.

MELTON MARTIN, '49, works for the William Cameron Co. in Midland.

A '49 grad, BURRELL GALE TAYLOR, is employed by Kerr McGee of Oklahoma City as district engineer.

MR. AND MRS. CABOT W. DYSART, he is a member of the class of '49, are living at 439 Spring St. He has been in the army two years.

A member of the '49 class, ARCHIE B. COCKBURN, is employed by Shell Oil Co. in Midland.

ERNEST B. (BUD) CONLEY, who received a degree in international trade from Tech in 1949, re-

ceived a Bachelor of Foreign Trade at Thunderbird Field in Phoenix.

'50

JOE DEAN PAYNE is employed as a fifth grade teacher in Posey School in Lubbock.

Mrs. Joe E. Lewis, the former LAVERNE WATKINS, '50 graduate in home economics, lives in Tahoka, where she is a homemaker for her husband and small daughter, Laura Kay, who was born in November. Mrs. Lewis was teaching homemaking at Petersburg before her marriage.

Recently named junior mechanical engineer for the Stanolind Oil and Gas Company in Tulsa was NEAL R. MONTGOMERY.

HENRY C. LIBBY has been employed by Stanolind.

Another '50 grad, LEON C. GIESECKE, is stationed with the Navy in Waukegan, Ill., where he is attending journalism school. Leon worked in Matador until he joined the Navy in January of 1951. He was married to Miss Jareene Holcolm of Quitaque in 1950 and is a former Los Cam.

An ex-Red Raider, EURAL RAMSEY, who was on the varsity from '48 to '50, is now a corporal in the Air Force. He's stationed at Sheppard Field.

NEILON J. ROWAN is attending a quartermaster training school at Bainbridge, Maryland. He has been in the Navy since January, 1951.

JOSIBEL WHITLEY, a B. B. A. grad in '50, is employed as a clerk for Humble Oil and Pipeline Company at McCamey.

LT. DICK RECTOR, a former College Club member who married SUE CARLTON, a Tech beauty, is now stationed in Korea.

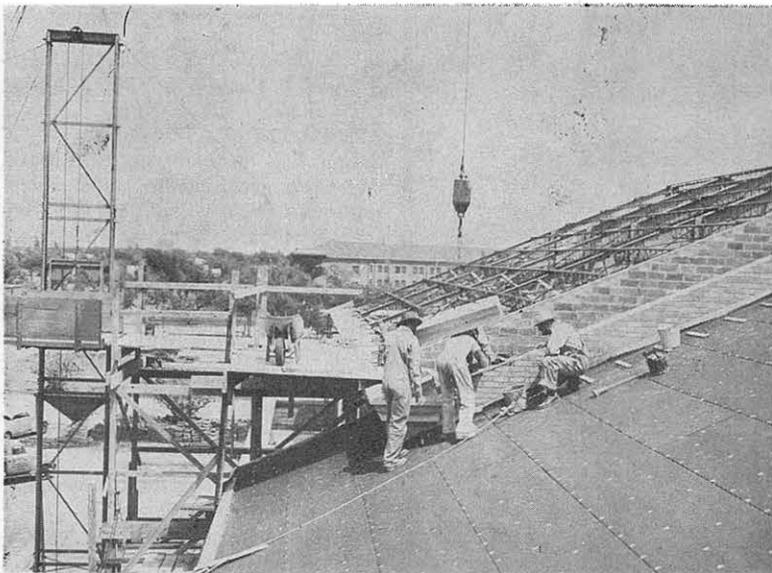

A civil engineering graduate, GARY L. BURTON, is living in Dallas and working for the U. S. Corps of Engineers.

JERRY HENDERSON, a '50 Tech journalism graduate employed by KFYO in Lubbock as chief continuity writer. CHARLOTTE BLACKBURN, another '50 journalism graduate, is also at KFYO.

BETTY VAUGHN is employed as a home service agent by the Southwestern Public Service in Borger.

HARVEY L. HAGENS is working with the Missouri Valley Construction Inc. on construction of

(Continued On Next Page)

STUDENT UNION PROGRESS—Workmen are shown above as construction on Tech's new Student Union building moves into the final phase. The modernistic structure is expected to be ready for use by Techsans, past and present, sometime in the fall. It will be equipped with the latest in design and furnishings. Funds from ex-students played a large part in pushing through final plans for the Student Union building.

a power plant in the Amherst and Earth area.

ROSS O'DANIEL is now farming and ranching near Tulia.

'51

HUGH COCHRAN is coaching in Odessa Junior High Schools. He was a Silver Key.

DAN A. BEE has been named junior petroleum engineer in the Stanolind offices in Midland.

Assistant to the county agent in Jackson County is CHARLES E. MURPHEY.

MILLIE RUSK, a graduate in history, is teaching third grade in the Slaton school system.

BETTY CARRIER, an English grad from Bonham, is teaching at Brownfield.

A '51 speech graduate, HELEN BROWN, is teaching at Tulia. She was recently elected treasurer of the Tulia Conclave of Kappa Kappa Iota, national social and professional teacher's sorority for teachers.

SGT. and MRS. GEORGE MORRIS are living in Lubbock. He is stationed at Reese AFB. Mrs. Morris is the former JANICE BERRY. She's teaching at Carroll Thompson Junior High School.

MR. AND MRS. CARL SCHOFFLER, she was GLENNA HACKNEY, are the parents of a daughter, Debbie Annette. Carl graduated in engineering and Glenna in home economics.

EDNA HILL, '51 home economics education grad, is dietitian at the McDonald Home in Houma, La. She is employed by the Methodist Board of Missions.

Another home ec. grad, WILLA FARIS is dietitian at Bethlehem Center in Chattanooga, Tenn. She is in charge of all home economics at the center and is also with the Methodist Board of Missions.

ROBERT NEWTON, petroleum engineering major, is with Humble Oil Company in Floyada.

H. A. TUCK JR., journalism grad, is a second lieutenant in a tank battalion at Camp Polk, La. He's married to the former Jennie Corrran, Lubbock, also a Tech ex. They recently became parents of a son. "Tuck" is due to go overseas in the near future.

J. C. CURRIE, a math grad, is with the Petty Geophysical Company in Lufkin.

PEGGY McCLATCHEY BELL, a '51 journalism grad, is woman's editor at KFYO in Lubbock. She also writes continuity.

An aggie grad, CHARLES BEEDY, has accepted a position as assistant agricultural agent in Potter County.

MRS. DONALD BYE, she was GLENNA LEE, has been teaching second grade in Idalou. She plans to join her husband in Japan soon. Lt. Bye is a graduate of South Dakota State University.

BOBBY ATWOOD is working for the Veterans Administration in Lubbock.

DONNA PYKA is working in Fort Worth. She was a journalism graduate.

Another journalism grad, BETTS DALTON, is working for a paper in Colorado Springs, Colo.

'52

JIMMY HENLEY, former assistant editor of The Treador, is now doing sports writing for the Fort Worth Star Telegram. Jimmy is going to school at Texas Wesleyan College on the side. He was a sports editor of The Treador also.

JAMES H. BENTLEY, a physical education major, is teaching in Shallowater schools.

A home economics grad, MYRNE McDONALD will teach in Lorenzo schools.

JACK THOMAS COLLUM, a chemical engineer, is working with Proctor and Gamble Company in Dallas.

BILL (Senator) PARSLEY has accepted a position as ensign with the U. S. Navy. Bill's wife, the former ALICE HIX, and young son are living in Abernathy until the newly appointed ensign gets located. While at school Bill was active in campus work, serving on the student council, as varsity show director and vice president of the senior class. He's training at San Francisco.

VENNIE MARIE LEWIS, a home economics education grad, is an educational assistant in the First Methodist Church at Childress.

JOHN LEE is a sports writer for The Lubbock Avalanche-Journal. John was sports editor of The Treador.

A petroleum engineering grad; DEWEY WILLARD PIERCE, is working for Magnolia Petroleum Company.

TOMMY D. DANIELS is the new Boy Scouts executive in the Ralls district. Tommy attended national Scout school in New Jersey and took over the Ralls district from another former Tech-san, C. E. WENDT, JR., a '50 journalism grad, who is now living in Levelland.

JOEL WETTER, a chemical engineer, is working for the Ken Wallace Company in Dallas.

A new employe at Sandia Corporation in Albuquerque is MELVIN H. BROCK.

STANDING ON THE OUTSIDE—The throng of persons who attended the recent opening of the new Music building on the Tech campus was so large that part of them had to be seated outside the building and were forced to look in the windows. It was one of the largest crowds ever to attend a non-athletic event on the campus.

Techsans In The Service

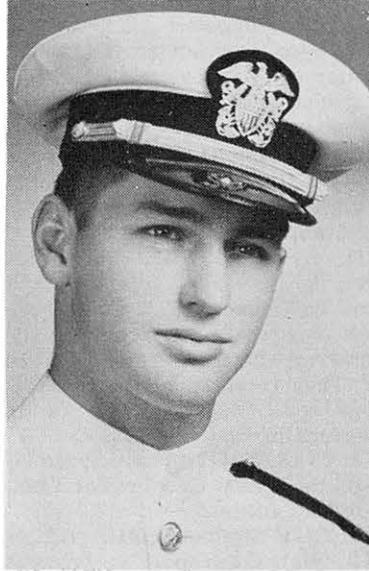

ROBERT GUY GUTHRIE and JAMES BUTLER were recently appointed ensigns in the Navy. Both were graduated from Tech in 1950.

PVT. GLENN MARBURGER, '51, who majored in management at Tech, is with the Counter Intelligence Corps at Fort Holabird, Baltimore, Md.

CPL. JAMES WINSTEAD LAYMANANCE, a former Tech journalism student, recently graduated from the Far East Command Chemical School at Camp Gifu, Japan. Winstead was stationed at Schofield Barracks, Hawaii, before his present assignment. His wife is living at 2019 16th St. in Lubbock.

Another former Techsan, PVT. IRA T. RIGGS, JR., whose wife lives on Route 1, Idalou, recently graduated from the Far East Command Chemical School in Japan.

AVIATION CADET JOHNNY W. EVANS of Fort Worth was recently graduated from the U. S. A. F. Advanced Single Engine Jet Pilot Training school at Webb

assigned to the Sixth Army headquarters in San Francisco.

Sergeant First Class MAX R. WILLIAMS is returning to the United States from Korea under the Army rotation plan. He was a member of the 25th Infantry Division. A veteran of 12 years military service, Williams graduated from Tech in 1939.

An Amarillo man, SGT. PAUL C. OLIVO, has recently returned to the U. S. from Korea where he had been for nearly a year. Before entering the Army in 1951, Olivo was a student at Tech.

LT. DON E. DAVIS recently left the 507th Army Postal Unit in Korea for return to the U. S. where he will be released from active duty. He lives in Brownwood.

PVT. WILLIAM W. DENNIS of Perrin recently joined the 4th Signal Battalion on the front in Korea. Before entering the Army in 1951, Dennis was employed as a linotype operator in Lubbock.

Recently promoted from captain to major in the Air Force was JACK ROBINSON JR., of Lafayette, La. He graduated from Tech in 1947.

LT. DOUGLAS R. BOREN is now just plain DOUGLAS BOREN and is living at Pecos.

ENSIGN CHARLES E. CLOWE JR. is serving aboard the USS Taussing DD746 in the Pacific.

CPL. R. B. ROWLAND is with the 47th Signal Co. 47th Infantry

Division at Camp Rucker, Ala.

LT. GEORGE ROUSE is stationed at Wolters AFB with the 950th EAG.

A '49 grad, HAROLD E. COBB, was recently made second lieutenant in the Air Force following graduation from the USAF Advanced Multi-Engine Pilot school at Reese AFB. Lt. Cobb is from Pampa.

LT. RAYMOND D. SELT is with the 41st Signal Const. Bat. Co. D at Fort Hood.

BOBBY GOSSETT was inducted into the Army in July 1951.

SGT. DONALD BURTON is serving with the Headquarters and Headquarters company of the 4th Signal Corps in the Pacific.

LUTHER FRANKLIN LOVELESS is now a captain in the Marine Corps.

Training at San Diego in the Navy is B. P. DAVENPORT III of Stamford.

From JAMES W. STEWART comes word that two Techsans are serving with the 2nd Signal Company in Korea. They are Stewart, who graduated in '50, and Lt. ISAAC C. ENOCHS, class of '49.

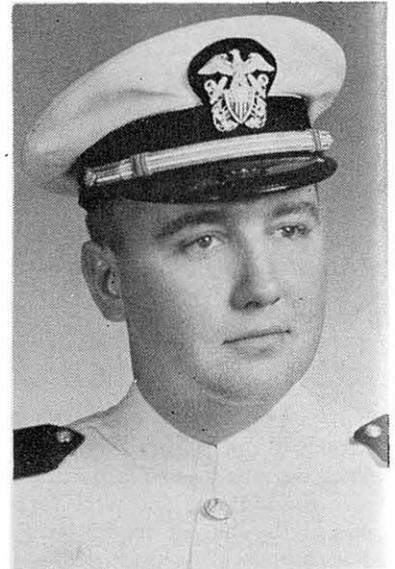

CPL. ELDON D. LANE is a supply clerk in Company A of the 61st Engineer Construction Battalion. His wife is living at 2214 8th St. in Lubbock.

A former Dumas resident, PFC. WARD W. WILLIAMS is in Company C of the 61st. Engineering Construction Battalion.

AFB in Big Spring. He is a former petroleum engineering student at Tech.

LT. COL. RICHARD HODGES was recently graduated from the Army Command and General Staff College at Ft. Leavenworth, Kansas. Col. Hodges, who entered the army in 1942, is a former Texas Tech student. He served in Europe during the war. He will next be

1952 Graduates Contribute To Exes Association

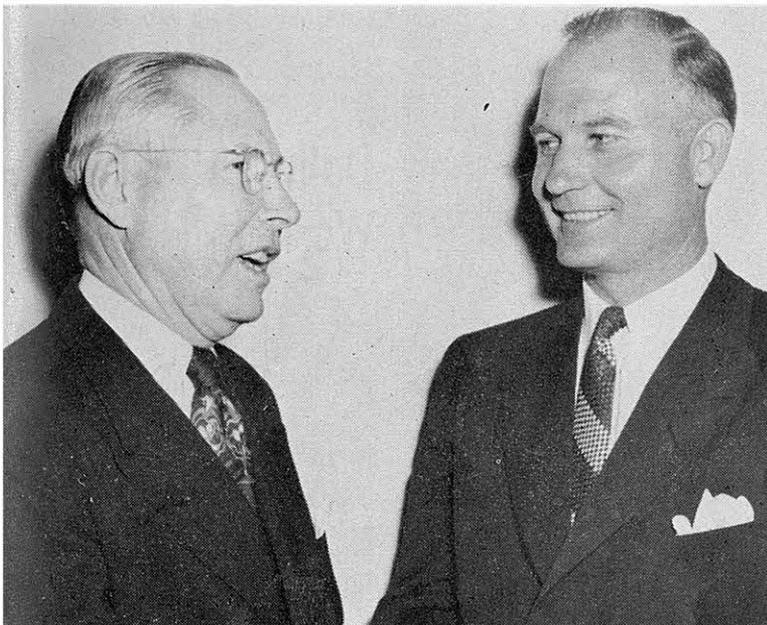

The editors would like to pay a slightly belated tribute to the 1952 graduating class.

Executive secretary D. M. McElroy informs us that a larger percentage of this year's approximately 700 graduates subscribed to the Loyalty Fund than ever before.

The graduates—now full-fledged exes—have for the part assured their respective stations in life by now.

They heard an address by Gov. Dan Thornton of Colorado, a former Techsan himself in which he urged them to "always be on their guard" against the pitfalls of Communism and Socialism which "are aboard in the world today."

The Texas Techsans is proud to tip his hat to these grads—the newest members of the family of ex-Tech students.

AFTER TECH GRADUATION—Tech's retiring president, Dr. D. M. Wiggins, left, is shown chatting with one of the college's better known exes, Gov. Dan Thornton of Colorado after the governor gave the graduating address at the spring exercises.

HOMECOMING PLANS

Its rapidly getting around to THAT time of year again.

By that we mean Homecoming, of course. The wheels of preparation have already begun turning to make the 1952 event one of the best and most memorable in Tech's history.

The football game will be with the University of Houston and the Raiders will be out to avenge a 6 to 0 loss handed them by the Cougars in Houston last year. It will be the second game the two teams have played in their history.

Other plans are also being formed. Pauline Bean, she was Pauline Yeager, and Mrs. "Woody" Cochran, both of Lubbock, are making plans for the "Oldtimers Dance" to be held in the Hilton again this year. That includes all former Techsans between 1926 and 1938.

Receptions will also be held for the other classes. So start making your plans for Oct. 31.

Former Techsan Wins High Award

Joe Aran Arrington, son of Mr. and Mrs. Joe Arrington of Lubbock, is the 1952 winner of the Beachamp Scholarship award, given annually at Vanderbilt University in the School of Medicine,

Nashville, Tenn. The scholarship is awarded annually to the senior medical student showing the greatest progress in neurology and psychiatry, who is otherwise worthy and deserving.

At commencement exercises held at Vanderbilt in June, Arrington received his M. D. degree. He received his B. A. degree from Texas Tech in 1948. He is president of Alpha Kappa Kappa professional medical fraternity, and is a member of the Vanderbilt chapter of Alpha Omega Alpha, national medical honor society.

Anderson Attends Hereford Session

Stanley Anderson, assistant professor on animal husbandry at Tech, recently attended the annual Hereford judges conference at Manhattan.

The conference was held for all major Hereford judges in the nation so that they could get together and keep judges looking for the same type characteristics in Herefords, so that shows all over the nation will be judged uniformly.

ROLAND M. NICHOLS, formerly of Amarillo and a former Techsan, is attached to the USS LSMR 403 in Korean waters.

Author Of Famed World War I Song Attending Tech

The co-author of one of the most popular songs written during World War I, "There's A Long, Long Trail Awinding," has been attending classes in conducting and band arranging in the Summer Band Program at Texas Tech.

He is Zo Elliott.

Elliott wrote the song with Stodard King, while both were at Yale.

"There's A Long, Long Trail," was aimed at a fraternity convention in Boston in the spring of 1913 at the Zeta Psi convention.

It was not published, Elliott explains, until he went to Trinity University in England. The song was put out by a London firm and picked up by Canadian soldiers, who spread its popularity to American troops.

Elliott, who has been termed a "chronicler of wars" with his music, wrote a marching song called "British 8th", written for Field Marshall Bernard Montgomery's gallant British 8th Army. Thus it was that the march was heard

New Geology Prof At Tech Has Unusual Collection Of Books

About 3,000 pounds of books Dr. Lewis M. Cline, Tech's recently appointed distinguished professor in geology.

The books were accompanied by

wherever the 8th went in Europe. Poet-Laureate of England John Masefield, wrote some verses for it on captured Fascist stationery complementing him for honoring his Army with the march.

Six years of Elliott's life have been spent in Europe, where he visited every country except Russia.

The song writer was a corporal in the first World War, and received a citation for excellent effect on the morals of troops because of his music, but he was a soldier who never got overseas.

Seeking to improve a mind already well-versed in music it is that Zo Elliott, co-composer of a well-loved American song, is attending Tech's summer band school.

The volumes are part—not all—of Dr. Cline's personal library. The new Tech professor transported the load from the University of Wisconsin in a four-**Plans Are Indefinite**

Dr. Cline's appearance in Lubbock has been a brief one to date. He took advantage of the between semesters vacation at Wisconsin to rush his books here and look for a place to live.

Referring to his books Dr. Cline said, "that's about two thirds of them. I left the rest in Madison."

Dr. Cline stated he had not made definite plans for his role at Tech as a distinguished professor yet.

He did say that "he liked the opportunities in this county for a geologist.

Though Dr. Cline and J. Evetts Haley, Tech's new director of the Institute of Americanism who was appointed at the same time Cline was, have never met they were born only 10 miles apart.

Cline's birthplace is in Temple and Haley's in Belton, both neighboring towns in Bell County.

Dallas Student's Work Is Honored

Robert H. Norris of Dallas, fourth-year, senior in the five-year architectural course at Texas Tech, was recently invited to place a sample of his work on exhibition at the New York convention of the American Institute of Architecture.

The work was sent.

The convention, held the latter part of June, was attended by Prof. F. A. Kleinschmidt of Tech's Department of Architecture and Miss Jerry Kirkwood, delegate from the Tech chapter of AIA.

Norris' class problem, "A University Social and Religious Center," was rated top honors by a jury of award of the Beaux-Arts Institute of Design late in 1951.

MUSEUM GETS ARTIFACTS—Dr. W. C. Holden, left, is shown with Tech students examining some rare pieces recently presented to The Museum. Under Dr. Holden's guiding hand the Museum has been developed into one of the leading attractions on the campus as well as in the city of Lubbock. And the doctor and his staff are still working on new plans for further development the Museum's collection.

Cradle Rockers

Mr. and Mrs. Charles E. Murphey of Edna, Tex. are the parents of a daughter, Patricia Kaye, born June 21. Murphey was graduated in 1951 with a B.S. degree in agriculture.

* * *

A son was born in June to Mr. and Mrs. Roger K. Owen of Borger. He was named Mark. The Owens have two other children, Ann, 7, and Kendall, 3½. Owen, a 1948 electrical engineering graduate, is employed as division power engineer for Southwestern Public Service Co. in Borger.

* * *

Mr. and Mrs. R. S. E. Wulfjen are the parents of a son, Robert Luke, born April 8. He is a 1939 graduate. Mrs. Wulfjen, the former Maxine Craddock, was a member of the class of 1945.

* * *

Nancy Jo was the name given the daughter born to Mr. and Mrs. James W. Mims (she was Mary Alice Bell, Class of '48) in March. They have one other child, David, 3.

* * *

Mr. and Mrs. Duane Setliff of

Portales, N. M. are the parents of a daughter born June 25 and named Susan Denise. He was a member of the class of 1950.

* * *

Mr. and Mrs. Walter Maloney are parents of a daughter, Vicki Leone, born January 22. The mother is the former Florene Hendricks, '50. Maloney is in the Navy, stationed at San Diego, Calif.

* * *

Donald Jay Loshier Jr., born June 7, is the son of Mr. and Mrs. D. J. Loshier. He weighed in at 7 pounds, 7 ounces. The Loshiers live at 3153 Pickwick Lane, Houston.

* * *

A son, Darrell David Webb, was born March 29 to Mr. and Mrs. Darrell Webb Jr. Webb was a member of the class of 1950. They are living in Big Spring.

* * *

Mr. and Mrs. Richard Stripling are the parents of a son, David Stripling. David is now six months old. The Striplings (he graduated in 1951 with a degree in mechanical engineering and she is also an ex) are living in Camden, N. J.,

Professional Group Formed On Campus

A chapter of Kappa Phi Kappa, the largest national professional fraternity for undergraduate men in the field of education, was recently installed at Texas Tech with the national president, Dr. E. J. Ashbaugh, as the installing officer.

The local unit became the Beta Xi chapter of the national organization, now numbering more than 60 chapters from coast to coast. The fraternity, founded at Dartmouth College, is 30 years old.

In Lubbock for the installation were Dr. Ashbaugh, dean emeritus of the school of education, Maimi University, Oxford, Ohio, and Frank A. Peake, national secretary-treasurer, Fairfield, Ala.

Officers of the Texas Tech group are Joe Dean Payne, Lubbock, president; A. L. Inderman, Teague, vice president and William Escobar, Jr., Benjamin, secretary.

where he is in the research engineering division of R. C. A.

* * *

Mr. and Mrs. Delaine Crawford, she is the former LOY CATHERINE BARNETT, '48, are the parents of a daughter, Linda, born May 3. She (Loy Catherine, not the baby) writes they are now living on a farm near Troy.

* * *

MR. AND MRS. JAMES R. STAFFORD of Taylor have a daughter, Judy Kay, born Dec. 6. James, who graduated in 1949, is employed by the U. S. Department of Agriculture, bureau of entomology, plant quarantine, in the division of pink boll worm control.

* * *

MR. AND MRS. WILLIAM (BILL) WRIGHT, '38, graduate in M.E., now have a second child. He is Donald Newton Wright, born Feb. 9.

GERALD RAMSEY and Mrs. Ramsey, the former NINA TYNES, both '41 graduates, have a daughter, Carolyn. Gerald is head dietician at SMU.

TECHSAN IS HONORED—Lt. Roy J. Holmes, a Tech graduate in 1950 was recently awarded the Bronze Star for Meritorious achievement in Korea. Lt. Holmes is an ambulance officer in the medical company of the 7th Infantry regiment, 3rd Division. He was cited for the period of Nov. 23-24, 1951. Mrs. Holmes lives in Borger.

Class Members Present Tech Professor With Research Books

College professors usually find themselves in the role of supplying students with special research books and material.

Dr. John S. Carroll, professor and head of Texas Tech's education department, has found himself on the other end of the transaction however.

Forty-eight students of an Advanced Curriculum Workshop have presented the Tech professor with 75 volumes of material dealing with their work for the spring semester.

Presentation of the towering stacks of books was made at a class party held in the home of Dr. George Mecham, associated professor of education who taught

the course, by Mrs. Bernice Benton, a Wilson Elementary School teacher. Most of the students in the class were administration officers and teachers in West Texas schools.

The books, which are to be used as a nucleus for a research library in the course, were termed by Carroll as "a real resource to future workshop in the course, were termed by Carroll as "a real resource to future workshop grounds."

A general fund for special books was started by class members at the beginning of the semester. A books were needed, money was withdrawn from the fund.

Texas Tech's Pi Omega Pi Receives National Charter

The Texas Tech chapter of Pi Omega Pi, national honorary business education fraternity, received its national charter at a banquet in Lubbock recently.

Robert C. Hurmence, Lubbock graduate student, president of the Tech chapter received the charter for the group from Dr. Vernon Payne, national treasurer and head of the business administration school at New Mexico Highlands University.

Other officers for the club are Jean Isom, Lorenzo, vice president; Gwendolyn Wilkinson, Matador, treasurer and A. J. Dozier, Seymour, secretary.

Sponsors of the club are H. J. Cameron, assistant professor at Tech, and Mrs. Addie Bell Mauzey, Lubbock.

NEW MIDLAND OFFICERS AT BARBEQUE—Recently elected officers of the Midland chapter of the Tech Exes Association are shown above. The group gathered for a barbeque recently and this picture was taken by Jim Lindsey, a former Techsan of 1938 and editor of *The Toreador* who is now associated with *The Midland Reporter Telegram*. From left to right are Miss Mary Ann Goodard, secretary; D. M. McElroy, exes executive secretary; Jack E. Blake, first vice president; J. R. (Dick) Story, second vice president; Joe Luckett, Jr.; Mrs. Bill (Estell) Johnson; Mrs. J. R. (Ruth) Story; Raider Head Coach DeWitt Weaver and Mrs. J. R. (Barbara) Culver. (Photo Courtesy *Midland Reporter Telegram*).

New Faculty Members—

(Continued From Page 9)

principles of free enterprise and sound individualism.

"Such a program cannot be left to chance. I sincerely feel that Mr. Haley with his background in scholarship and understanding in basic Americanism will provide the proper leadership in putting into operation this program. We predict that someday this initial undertaking will be expanded into a program which will receive the cooperation of every basic department at the college. This department will not only be concerned in teaching basic principles of Americanism on the campus but it also proposes to extend its influence into the lives of citizens of this great West Texas area."

Born In Oklahoma

Dr. Cline, who is 43 years old, also possess an impressive academic and professional background. Born in Duncan, Okla., he graduated from Kileen High School in 1926. He was graduated with honors in 1931 from the University of Tulsa where he received his bachelor's degree.

In 1934 he was awarded his masters degree from the University of Iowa and a year later received his doctors degree at the same school.

He taught at Tulsa for a year, at the University of Iowa summer camps for two years and at Texas A&M for one year. He also taught at Iowa State college for seven years and at the University of Wisconsin for more than five years. He resigned his position at Wisconsin to come to Tech.

Every major geological province in the country and in the Canadian Rockies of Alberta and British Columbia has come under his surveillance. He possesses a 2,000 slide collection of geological data.

In lauding Dr. Cline, Dr. Wiggins also outlined the duties of the new distinguished professor. He said, "This appointment is cumulative of a careful search by the college, with the assistance of a committee, for the best available man in the nation to give additional impetus to the teaching of geology at Tech. Because of the tremendous soil production and operation in West Texas areas it is particularly fitting that the services of a distinguished professor to be available to the college and

Ronald Schulz Is Named To Speech Faculty At Tech

Ronald Schulz, supervisor of Northwestern University's Workshop Theatre for almost five year, has been appointed to the Texas Tech speech department staff for the fall.

Dr. P. Merville Larson, head of the speech department, said Schulz will replace Cecilia Thompson, who is on leave to study for a Ph. D. on a fellowship. Schulz will join the faculty in September as an assistant professor.

He will direct many of the theatre activities as well as teach some drama and dramatic literature classes.

The 33-year-old teacher graduated as valedictorian from Rio Hondo High School in 1935 and attended Brownsville Junior College two years. He attended evening classes at the University of Minnesota from 1937 to 1941 prior to entering the armed services. He was discharged as a captain in 1945.

Schulz received his BS degree from Northwestern in 1947 and his MA from the Northwestern graduate school in 1948.

Since 1947, Schulz has been supervisor of the Workshop Theatre, which produces 18 short plays annually. He was a graduate assistant from 1947 to 1950, and a teaching fellow in dramatic production from 1950 to 1952. He expects to receive his Ph. D. in 1953.

In 1948, Schulz was director of the Highland Park, Ill., Community Players, and directed the Bovinia Players at Highland Park in the summer of 1947.

"Schulz's knowledge of collegiate theatre and his being born and reared in this area gives us a combination one doesn't find easily," Dr. Larson said.

to the industry. I feel that in Dr. Cline we have found a man of outstanding research ability and teaching capacity to assist in doing the job that has for some time been anticipated by the college and its board of directors."

Dean Stangel Is On Tour

Dean W. L. Stangel of Texas Tech's agricultural division has been named one of the 10 leading agricultural educators in the United States who are making a tour and study of agriculture in British Honduras.

Dean Stangle is the only man from Tech to make the trip.

He left Lubbock by plane on July 18 for Mobile, Ala. where he joined the nine other agriculturalists. They are making the trip to Honduras via the S. S. Parisima.

The trips will include two days in Honduras observing the operation of the United Fruit Co. whose headquarters is on the north coast. From the company the group will go to the Pan American School of Zamorano. This school is sponsored by the fruit company.

From Zomorano, the group will go to Guatemala, where they will visit the capital and tour the highlands.

All ten men are guests of the United Fruit Co. In addition to Stangel, educators from Wyoming, South Dakota, Nevada, Louisiana, Arizona, Arkansas, Indiana and two from New Mexico will make the trip.

Purpose of the trip is to show educators the tropical areas of Central American countries where United States companies are doing to develop improved living and economic conditions in previously undeveloped areas.

The United Fruit Co. is interested in exchanging ideas with the agricultural educators to get suggestions as to how to improve and hasten progress.

The company is particularly interested in the interchanging of ideas as to what steps can reasonably be taken to improve friendly relations with the Middle American countries.

As a side purpose of the trip, the fruit company is interested in hiring some young U. S. college graduates for employment in the Central American countries and by providing these 10 leading agricultural situation is in these countries.

Around The Campus

By AUBREY SHOUSE

June was more constructive than previous months at Texas Tech.

The highlight of the month was the appointment of Dr. E. N. Jones as Tech's sixth president.

But other small candles were spread out during June that kept the month bright.

Board Takes Action

A board of director's item that has caused considerable interest on the campus was the action taken on a proposed coliseum, auditorium, and field house on the Tech campus.

The proposed \$1,750,000 building, to be owned and operated by the City of Lubbock, would about "make" Tech a convention and conference site. Seating capacity of the building is expected to be about 12,000. The board offered a site for free southeast of Jones Stadium, at the old stadium and Naval Armory grounds.

Lubbock took some action immediately after the proposal was announced. A committee was appointed to investigate the coliseum possibilities.

Offer Is Made

Then, the Panhandle Plains Fair Association made the city an offer, which might throw a wrench in Tech's chances for the coliseum site. The association offered space at fairgrounds pointing out the advantages of more parking space. Tech's use of the building at the fairgrounds—across town—would be practically nil.

Nationally affiliated social fraternities and sororities were okayed by the board. Earlier, the various clubs had asked for national affiliation by large majority votes.

The effects of this move are undetermined. Some say, "Fine" and others say "Terrible". One thing is certain, it will take some time for the nationals to move it, since Tech independent social clubs have not sided with individual nationals, and are unacquainted with most procedures.

Conference Are Held

June was also the month of conferences, workshops, and short courses. Although Tech had a disappointing enrollment of 1,900 for the first summer term, special interest students flocked to the

Tech campus to participate in speech correction clinics, choral, band, and orchestral schools, school administrators' conferences, a conference on family life, and several other special schools.

About 300 from area public schools came to the special conference on guidance and counseling June 17-19. Dr. Charles Gilbert Wrenn professor of psychology of the University of Minnesota, was the main speaker.

The band, choral, and orchestral school registered about 275 pre-college and college students. The Family Life Conference has about 35 regularly enrolled, but cooperating groups add more to each conference study group.

Dr. Ernest Wallace's latest book, "The Comanches", was received with success at an autograph party June 23-24 at the college bookstore. His book was published by the University of Oklahoma Press.

Campus Authors

Another author on the campus to receive recognition is Raymond Elliott, associate professor of music, director of Tech Men's Glee Club, and director of music theory. His book, "Ears To Hear," first published for Tech's classroom use by the Tech Press, was accepted by Prentice Hall Publishing Co. It is expected to be ready for distribution early in the spring.

Other campus names to appear in the news were the following:

H. J. Cameron, Jr., assistant professor of business education, presented a paper on basic education at the New Mexico Highlands University's Business Education Conference June 14. . . . R. L. Mason, assistant professor of mechanical engineering, delivered a paper "Comfort in the Southwest by Means of Evaporative Cooling"—at the Amarillo Section meeting of the American Society of Mechanical Engineering June 16

Dr. John S. Carroll, head of the department of education, attended a conference of the Ford Foundation's Fund for Adult Education June 9-13 in Chicago, Ill. Tech is a test area of the foundation for the next three years Dean W. L. Stangel, dean of agriculture, is one of 10 leading educators of the U. S. to make a tour

of the British Honduras in July. He leaves Tech July 18 and will return July 30. The trip is sponsored by the United Fruit Co. . . . Miss Lillian Norwood, head cataloger for the Tech library, will take an advanced cataloging course at the University of Texas the second six weeks Dr. Ernest Wallace, assistant dean of arts and sciences, will represent Tech at the state conference on "The Measurements and Evaluation in Education" put on by the Texas Commission on Coordination in Education at Schreiner Institute in Kerrville July 16-32 Dr. Gene Hemmle, head of the department of music, was in Austin June 24 to be guest conductor of the University of Texas Chorus. He was guest lecturer June 26 at the Music Seminar at H-SU, Abilene . . . Dr. James Kuntz, associate professor of psychology, is the author of one section of the new psychology textbook, "Reading in Experimental Industrial Psychology." The book is a collection of 64 reports on outstanding research projects. Dr. Kuntz' article was included in the Engineering Psychology section and was entitled, "Legibility of Numerals, The Optical Ratio of Height to Width of Stroke." . . . Miss Marion Thompson, assistant dean of women, terminated her duties at Tech June 14 and will drive to her home in Bellows Falls, Vt. She is being replaced by Mrs. Peter Innes (nee Nancy Nall) who held the position prior to Miss Thompson.

Vows uniting in marriage JOAN BROWN and JERRY POWELL were pledged in June in Lubbock. They are to be at home in Killeen, where Powell is stationed at Fort Hood. Both are former students at Tech.

* * *

June vows were read in Amarillo for Barbara Elaine Nelson and DR. JEFFREY B. LANDERS JR. The bridegroom was graduated from Baylor Dental College. He attended Texas Tech and is a member of Amarillo Jaycees and Rotary Club. The couple is at home in Amarillo.

LET'S GO, RED RAIDERS!

Ex-Student Applications for 1951 Football Tickets FOOTBALL TICKET POLICY

1. Applications for season tickets will be accepted by the Athletic Department beginning on date of this announcement, and closing August 15, 1952.
2. 1951 Season ticket holders will have until August 1, 1952, to reserve the same seats held last season.
3. 1951 Season tickets not claimed for 1952, by August 1, will be reissued to the earliest applicants.
4. Checks covering season tickets must be received

with application by August 1, and checks covering tickets to individual games must be received with application.

HOMECOMING UNIVERSITY OF HOUSTON, NOV. 1

5. Application by former students for the Homecoming game must be made not later than Oct. 1, 1952. Check plus 25c mailing charge must accompany all ticket orders.
6. To assure the best seats available, place your orders early.
7. Indicate the number of tickets desired for each game in space provided. Ex-students using this form will receive priority.
