The Techsan Salutes

O. B. Ratliff is one of three men The Techsan salutes on this page for outstanding service as a past member of the Board of Directors of Texas Tech. Mr. Ratliff was appointed to the Board in 1943 by Governor Coke Stevenson and served six years. At present he lives in Lubbock, is in the farming business and deals in oil properties. He is a director in the Citizens National Bank, vice president of the Red Raider Club, a trustee of the Tech Loyalty Fund, chairman of the operation board of the Lubbock Boys Club, and a member of the Tech Foundation Board. He was born at Decatur on Aug. 11, 1910, graduated from Haskell High School in 1929 as president of his senior class, and entered Tech the same year. He transferred to the University of Texas after two years, later moved to Dallas and received his law license in 1936 from the old Jefferson Law School by working by day and attending school at night. Mr. Ratliff practiced law at Haskell and Spur prior to returning to Lubbock in 1945.

Charles W. Wooldridge was born at Fort Worth, Jan. 14, 1908. He entered Tech on its opening in 1925 and was graduated in 1930 with a BS in engineering. He played varsity football in 1928-29 and participated in varsity track in 1927-28. Mr. Wooldridge was president of his junior and senior class in college, vice president of the student council, business manager of the college newspaper and yearbook, and vice president of the Engineering Society. He became associated with Texas Power & Light Company after graduation. From February, 1942, to the present time he has served as director of personnel of the company. He was formerly a district governor of Rotary International, founder and first president of Texas Dogwood Trails, Inc., and vice president and director of the Dallas Rotary Club. He has also been a director of the YMCA, Family Service Bureau, and Dallas Chapter of the Texas Society of Professional Engineers. Mr. Wooldridge is a deacon in the Sears & Summitt Streets Church of Christ in Dallas. He served on the Board of Directors from 1947 to 1953.

Leon Ince was born in Blum, Texas, June 21, 1911. He attended high school at Cleburne and graduated in 1929. He worked to help support his family before entering Tech in 1931. During his college years he washed dishes, cooked, cleaned house and did yard work for room and board. While at Tech he was secretary of the Engineering Society, made Who's Who in American Colleges, was a member of Alpha Chi and Tau Beta Pi, and was president of the student body in 1934-35. Mr. Ince graduated in 1936 with a BS degree in mechanical engineering. After graduation he became plant superintendent for Cabell's Creameries in Dallas and a short time later was employed as sales engineer for A. M. Lockett & Co. in Kilgore. From 1938 to 1942, he was owner of the Leon Ince Co., in Kilgore, and from 1942 to the present, he has been a partner in the Lynn Elliott Co., of Houston. He served on the Board of Directors of Tech from 1947 to 1953. He is a past president of the Kilgore Jaycees, a past president of Houston Central Lions Club, and is now an elder in the Central Presbyterian Church at Houston, a member of the YMCA steering committee, the Masonic Lodge, the Elks Club, and Houston Engineers Club.

Homecoming Plans For 1953 Announced

Between 5,000 and 6,000 ex-students of Texas Tech are expected to return to the campus Nov. 6-7 for homecoming activities.

L. C. Walker, executive secretary of the Tech Ex-Students Association has announced that plans have been completed to feed and entertain the homecoming crowd. Plans for the annual event are similar to those of years gone by including the buffet luncheon, traditional parade, the Exes' dance, and, of course, the football game.

One of the biggest changes in plans calls for Tech's Red Raiders to provide a football victory for the homecoming fans. Last year the University of Houston spoiled the day by defeating the Raiders, 20 to 7. Arizona University will be Tech's opponent in this season's homecoming tilt. The game is slated for 2:30 p.m. on Nov. 7.

Friday night, Nov. 6, will officially open the weekend festivities with a pre-game rally and bonfire. Coach DeWitt Weaver and staff and several of the Red Raider squad are expected to be on hand. Tech's Matador band, under the direction of D. O. Wiley, and the cheerleaders will open the rally. "Old-Timer" cheerleaders, ex-Raiders and all Techsians are expected to be there to add to the enthusiasm and spirit of the rally.

Another event that most exes seem to look forward to, the annual buffet luncheon, will be held again this year at the Tech gym. Two Lubbock firms will feed the exes and their families, Saturday at 12:15 p.m. These firms, Furr Food Stores and the Texas, New Mexico and Oklahoma Coaches, Inc. will be hosts to approximately 2,500 exes and their families if past years are in indication.

Following the luncheon, new officers of the Ex-Students Association will be introduced. The Association Council will also hold its annual meeting Friday to discuss the Association's projects for the year. The Council is composed of 36 Association district representatives, presidents of the Ex-Students Chapter, officers of the association, elected officers of the senior class at Tech, and the president of the junior class.

The Association Council will elect new officers at a meeting Friday at 2:30 p.m.

Other important meetings scheduled for Friday include the annual class reunions. The "Old-timer" group, exes of the years '26

through '38 will stage their annual dance in the ballroom of the Lubbock Hotel Friday night with Mrs. Robert A. Hill in charge of arrangements. Burl Hubbard and his Orchestra will provide the music.

Classes '39 through '43 will hold their reunions at 8:15 p.m. in the Anniversary Room of the Student Union with Norman Igo as Chairman. Classes '44 through '48 will meet at 8:15 p.m. in Doak Hall under the chairmanship of Bill Casey, and Richard Dickey will head the reunions of classes from '49 on to be held in Sneed Hall at 8:15 p.m.

The big Homecoming parade is slated for 10:30 a.m. Saturday. The parade will start downtown and parade out Broadway to the campus as it has in the past. Last year there were 34 floats in the annual parade. Floats will be classified into three divisions and judged for their beauty, for their humor and for their historic or educational value. Trophies and awards for winning floats in the parade will be presented.

Al Alschuler has announced that he will again contribute a loving cup to the dorm that is judged to have the best decorations for Homecoming. Mr. Alschuler, owner of a Lubbock men's clothing store, has donated a cup for the past three years to the best decorated dorm. The cup becomes the permanent possession of the dormitory.

Campus organizations and social clubs have scheduled open houses for exes after the game. Also, several breakfasts are planned by various organizations to honor their alumni on Saturday morning. A complete schedule of events will be in a printed program to be distributed at registration booths.

All exes attending Homecoming activities are urged by L. C. Walker, executive secretary, to register at one of the booths which will be set up Friday at hotels and at five of the principal campus buildings. Registration helps the Ex-Students Association with current addresses and sometimes furnishes names of ex-students of which there was no previous record.

Max Preston, Tech's student council business manager, will act as student chairman for homecoming.

The traditional Homecoming dance for ex-students and their friends on Saturday night will close the weekend of festivities.

The dance will start at 9 p.m. in the ballroom of the new Student Union building. The orchestra will be sponsored by KFYO and the Lubbock Avalanche-Journal.

Out-of-town exes who have reserved football tickets through the athletic office are asked to write for them at least a week before the game. Exes who haven't made reservations should write for them immediately.

More Sororities Will Colonize

Three more sororities have accepted invitations to colonize at Tech: Alpha Phi, Sigma Kappa, and Gamma Phi Beta. Alpha Phi and Sigma Kappa have been invited to enter the campus at some time during the 1954-55 college year, the exact date to be determined later. Gamma Phi Beta will colonize during the 1955-56 college year.

Representatives of Alpha Chi Omega and Delta Gamma, two sororities who accepted invitations earlier, were to be on the Texas Tech campus during October to begin colonization procedures, according to Dean of Women Marjorie Neely.

They will confer with the college administration and will set up a method for colonization to begin at once. More than 60 college women already have signed the open rushing list in Dean Neely's office and will be eligible for consideration in organization for the new groups.

Tech Student Places Third In National Judging Contest

Gene G. Harral, Tech senior from Fort Stockton, placed third in the judging of Holsteins at the National Intercollegiate Dairy Cattle Judging Contest held recently at Waterloo, Iowa. The contest was held in conjunction with the National Cattle Congress. Tech's team placed ninth in judging Holsteins and 26th in the entire contest. Teams representing 33 colleges and universities competed.

Homecoming Game

There's a good chance ex-students will get to see the No. 1 runner in the nation perform at the Homecoming game here Nov. 7.

That's University of Arizona's Ken Cardella, ranked first among the nation's rushers by the National Collegiate Athletic Bureau, at deadline time. Cardella, playing tailback on Woodson's winged-T, has been averaging about 125 yards a game.

Cardella's showing is no surprise to Texas Tech's Red Raiders. He nearly wrecked the Raiders in the 19-14 thriller at Tucson last year.

That 1952 meeting of the two teams will go down as one of the most thrilling ever played by Tech.

Arizona, its best team in a decade trailing by only five points, had a first down on the Tech 12 with 48 seconds to play. (That's not good, for the opposition, especially when facing an offense-minded coach like Woodson). Three times the Wildcats passed. Three times defenders batted down the ball. In came a new quarterback with instructions from the wily Woodson. The slippery Cardella started around left end, cut back, and was snowed under on the 8-yard line by Joe Moore and other Raiders. It was the Raiders' first win in eight starts.

Scoring went thus: Tech 6-0; Arizona 7-6; Tech 13-7; Arizona 14-13; Tech, in the fourth quarter, 19-14.

Arizona started slowly this season, mainly because the passing attack—generally the feature of a Woodson team—wasn't clicking.

But in downing New Mexico in the fourth game 20-0, the Wildcats showed their aerial game was ready by making more yardage than they had all season previously.

An Arizona that can pass as well as run the ball will be mighty potent here Nov. 7. The game can easily decide the Border Conference championship.

Raider Spirit

You may be interested in knowing what to expect from the Raiders.

Last year's standbys are coming through as expected, but you'll note some changes and additions. Principal addition: Spirit. You'll like the way the Raiders are hitting this year.

You'll be pleased, too, by the depth at quarterback. Along with Jerry Johnson of Hale Center, there're Jack Kirkpatrick of Post, one of the 1951 Texas schoolboy sensations, and Buddy Hill, who quarterbacked Lubbock High School to a state championship last year.

A newcomer to the starting lineup is Dwayne West. The little center from Fort Worth Carter-Riverside saw virtually no action as a freshman and was ranked about fourth as the season began. Against Texas Western, however, he was all over the field breaking up passes, making tackles and recovering fumbles. He's been that way ever since.

Basketball Underway

Polk Robinson's basketballers have their practices under way now.

Returning lettermen are center Durward Bolding of Mansfield, forwards Jim Reed of Pine Bluff, Ark., and DuWayne Blackshear of Mountainair, N. M.; guards Jimmie Sexton of Lubbock and Carl Ince of Lubbock.

Squadmen back are guards Bill Busch of Valley View and Ted Watts of Abernathy, forwards Decker McKim and John Pittman of Lubbock, and Scotty Grundy of Memphis, center Eugene Carpenter of Big Spring.

Transfers, in residence the required year already, are forwards Jim Whatley of Clovis, from Eastern New Mexico, and Esten Blackmon of Abernathy, from Southern Methodist.

A fine group of freshmen are Walter Newton of Lexington, Ky., John Harrawood of Evansville, Ind., Ned Underwood of Snyder, Bill McDonald of Phillips, and Harry Scaling of Fort Worth Pas-cal.

These fish are eligible for varsity play, but they'll probably also meet a freshman schedule under Bill Miller. Miller, well-known to Tech as the son of West Texas State's Coach, Gus Miller, and a former Buffalo stand-out, is helping Polk this year. Bill is working on a doctor of Philosophy in education.

Tech opens against McMurry at Lubbock Dec. 1.

Dr. Ray Kireillis has begun workouts for his swimmers. This is Tech's fourth year to have a swimming team, and, judging from results shown so far, it should be the best to date.

Short Shots

Tech's pride in its freshmen was justified by the way they beat Clovis Air Base 77-0. Coach Bob Kellogg used his first string only sparingly . . . Bobby Cavazos' 15-yard toss to end Paul Erwin, tying the score at 7-7 against Texas A&M was Bobby's first completion in varsity competition . . . Jimmie Wilson figures 26,114 persons entered the A&M-Tech game via a ticket. That makes it the best attended football game in Texas west of Fort Worth . . . Most of the Raiders were playing in rain for the first time as Tech upset Oklahoma A&M 27-13 in Stillwater. Wilson wants to thank those of you who offered him tickets to the A&M game after the wire services carried the report that Tech ticket sellers disposed of his tickets in telling 1,400 reserved seats in 21 minutes.

Tech Directors Hold Meeting

Tech's board of directors held a meeting Friday night, Oct. 9, and then met jointly with the directors of the Texas Tech Foundation Saturday morning, Oct. 10. It was the first joint meeting of the members of the two boards.

Much of the action at the board of directors meeting was routine. Highlight of the action was a vote to authorize the building committee to confer with Dr. Jones and other college officials on the advisability of preceding with the construction of a \$200,000 infirmary building on the campus.

The board voted an appropriation of \$4,700 to underwrite a traffic signal control system to replace the system now in operation on the campus, and adopted a definite policy for the use of Jones Stadium by groups other than those on the campus.

Roy Wells, administrative assistant, was elected as secretary of the board of directors and three new members were named to the Foundation board of directors. They were Chanslor E. Weymouth of Amarillo, former Tech director;

Dr. Dysart E. Holcomb, dean of Engineering; and Dean W. L. Stangel, Division of Agriculture. President Jones was named an ex-officio director and Marshall Pennington, Vice President and Comptroller, was named secretary.

Chairman Charles C. Thompson of Colorado City presided at the board of directors meeting. Attending were board members C. T. McLaughlin, Snyder; Fred Moore, Dallas; W. D. Watkins, Abilene; Robert B. Price, El Paso; Raymond Pfluger, Eden; and George E. Benson, Lubbock; Dr. Jones, Wells, Pennington, Dr. G. E. Giesecke, vice president; and E. W (Bud) Smith, executive director of the Tech Foundation

Grad Exhibits Jewelry

Miss Quepha Rawls, Tech graduate in applied arts, has on display original jewelry which she designed at both the Los Angeles County Fair and the Young American Craftsman exhibit in New York.

Freshman Class Is Third Largest In Tech History

The present freshman class, numbering 1,900, is the third largest in the history of the college, according to Registrar W. P. Clement. The total college registration count is now 5,404, largest since fall of 1950.

Latest class totals available were: sophomores, 1,097; juniors, 913; and seniors, 916. There are 572 graduate students. The ratio of men to women in the student body is about 5 to 2. The total enrollment is 4.4 per cent larger than the 1952 fall registration.

In analyzing the enrollment, Mr. Clement has said that Tech's registration 10 years from now may reach eight or nine thousand. He points out that the birth rate increased during war years, so that elementary schools are now crowded. In a few years, he notes, these elementary pupils will have matured to college age.

TECH GRIDDERS WERE HONORED at the annual reception given by the members of the Association of Women Students in the Student Union Building recently. Approximately 450 persons attended the reception. Shown above are two football players, Tackle Walter Gill, left, and Guard Bobby Hunt, right, as they chat with Suzanne Matteson and Gwen Williams. The girls are treasurer and secretary, respectively, of the association.

Tech Student Reports On Holland; Went As Community Ambassador

By **CLAUDIA MARTIN**
Toreador Staff Writer

Ever wonder why Holland has so many windmills?

Glenn Rainer found the answer to this among other interesting aspects of Dutch living during his two-month visit in Holland as Lubbock's community ambassador.

Rainer explains that daily rains in Holland imperil farms and accumulated water is removed with pumps run by windmills. The pumped water provides for cutting wood or grinding wheat. The famous canals then carry off the excess water.

Ten other Americans and Rainer spent three weeks with Dutch families. Each family had a son or daughter of approximately the same age as his guest. With his hosts, the Von Hell family, Rainer toured sections of Holland.

He tells of a visit with a family who has a daughter, Yos, whom he particularly liked.

"The cutest little thing," related Rainer, "but our love affair ended tragically, for I am almost 20 and Yos was only three and could speak no English."

His itinerary included a week's sailing trip on the Ijsselmeer (the old Zuider Zee) and a trip planned by the Bakkeveen School of Adult Education along the Rhine River where the group stopped at Dursburg, Cologne and Manheim. One Danish and five English students accompanied the American students on the latter trip.

An interesting aspect of shopping in this country, which is one-twentieth the size of Texas with a population of ten million, is that the customer goes to one store for bread, another for meat and another for vegetables.

Rainer explains that though the statistics prove the crowded conditions, the Dutch alleviate any congestion by building their structures two or three stories high. The terrain includes meadows, woods and fields so that one is exposed not only to relaxing beauty, but to variation, says Rainer.

"The most basic thing I learned," reported Rainer, "is that in dealing with economic conditions we think Europe and even some of our own states as being simply statistics. In Holland I learned to respect these conditions as people—not statistics."

Because of its small size, it is possible to visit Holland's three

largest cities in one hour by train, Rainer explains. The bicycle, however, is the most common mode of travel since the width of the streets almost prohibits the use of the automobile and short distances from one city to another can be quickly and easily covered via the bicycle.

The junior Business Administration student left New York July 1 with 800 others on a student ship. He returned Sept 5.

"Not only did I learn much about human nature in Holland, says Rainer, "but also from the 800 students from various parts of the U. S. who went from here to Europe."

"I gained respect for the type of individual we have here at Tech after my association with people of our own country with differing cultures, education and beliefs," continued Rainer.

The older of the two Von Hell boys told Rainer that college entrance requirements in Holland include four foreign languages, knowledge of math through calculus, and chemistry—both inorganic and organic.

"Their high school education is comparable to our college degree," comments Rainer.

The Community Ambassadorship Program which was responsible for Rainer's trip was established in 1948 for the purpose of furthering international relations. Rainer was selected from 35 appli-

cants, five of whom were personally interviewed by representatives from the 20 local civic clubs who pledged financial aid. Rainer sent six stories to the Avalanche-Journal and expects to make some 150 speeches in Lubbock and the surrounding area.

Council Confirms Plans For Train To Houston Game

J. C. Chambers, Student Council president, announced recently that student interest is such that the Council will sponsor the special train to Houston for the out-of-town game Nov. 1.

Chambers stressed the fact that while 300 students are necessary for the trip, there is no limit on the number of students who can go.

The railroad has promised a baggage car for dancing on the way to Houston and to add as many cars as necessary to insure room for all who wish to go.

Tentative plans call for ticket sales to begin Oct. 19 and to end on Oct. 30. The council office will be open 2 to 5 p.m., Monday through Friday during this period to enable students to buy tickets.

Approximate cost of the tickets will be \$17, including the railroad fare and a ticket to the game.

Chambers added that students who take the special train will actually pay half fare for the trip, and will not have the added expense of a hotel bill to pay.

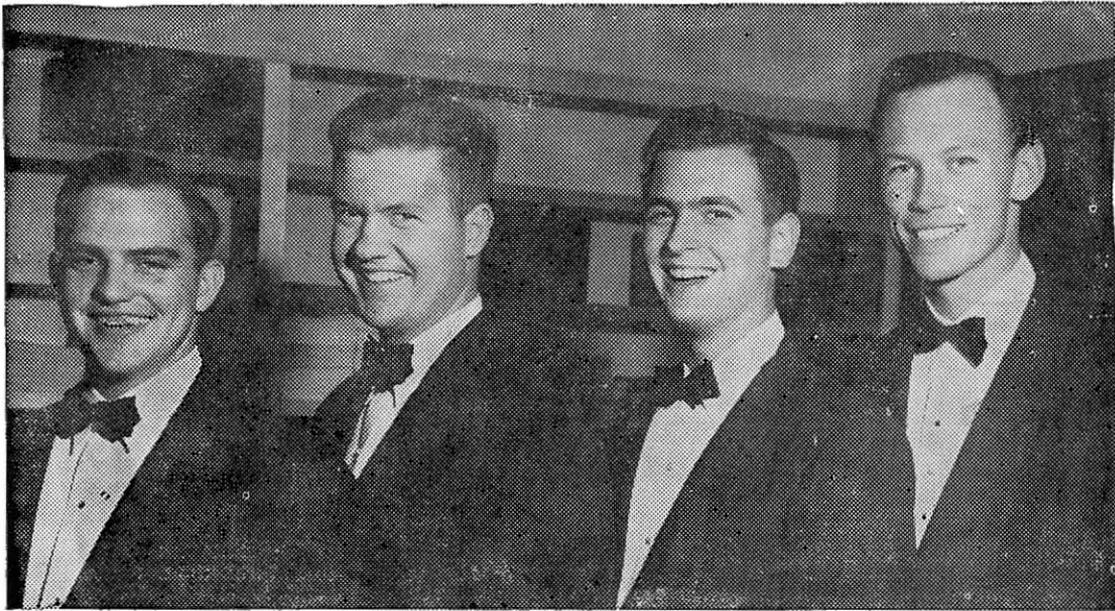

Band students will have a concession stand on the train.

EX SPEAKS TO AGS

Raymond King, of the Lubbock Cotton Oil Company, spoke to members of Block and Bridle, honorary animal husbandry club, at their regular meeting on the campus recently.

GLENN RAINER

A QUARTET OF TECH STUDENTS, the Harmon Knights, sang at the Texas State Fair in Dallas as a part of the Texas Tech Day observance. They are, left to right, Billy Cormack of Amarillo, Ned Hardin of Lubbock, Clarence Whiteside of Lubbock, and Tim Magness of Friona. Aubrey Shouse, director of public information for Tech was in charge of the college's exhibit at the fair.

Chapter Chatter

● Houston Elects Officers—

Steve A. Brooks was elected president of the Houston chapter when the members met Sept. 11 for a dinner-business meeting. Other officers elected were Harold Filcher, vice president; Doris Ann Lang, secretary; Royce Hopkins, treasurer; and Mrs. Gilbert (Evelyn McLaughlin) Knox, reporter. Retiring officers were Lois Lohse, president; Steve Brooks, vice president; Mrs. James (Betty Lindsay) Huffman, secretary; and Gerald T. Kerbow, treasurer.

President Brooks appointed a committee to plan an open house for all exes who attend the Tech-Houston game Nov. 21. On the committee are Charles Dvorchek, chairman; Gilbert W. Knox, Ben High, and A. B. (Tony) Ullrich.

Top topics of the Houston exes are incorporating the chapter, constructing a Houston Chapter Clubhouse, and ferreting out exes who, so far, haven't heard the call for new members. The club also plans to continue awarding a yearly scholarship to an outstanding high school graduate, to interest more honor students in attending Tech.

● **Lubbock Meeting**—Nolen Swain was re-elected president of the Lubbock Ex-Students Chapter for

the years 1949-51 in a meeting Sept. 24. The anniversary room of the new Student Union building at Tech was the site for the initial fall meeting of the club. Other officers elected were Richard Dickey, vice president; Ed Cosby, treasurer; Mrs. Tim Hatch, secretary; and Mrs. W. G. McMillan, Jr., reporter. The group made plans for homecoming and heard a talk by L. C. Walker, executive secretary of the Association. Refreshments were served in the snack bar following the meeting.

● Odessa Exes Have Barbecue—

Tech exes in the Odessa area held a barbecue in West County Park on Aug. 14 and sold tickets for the Red Raiders' home games this year. Assistant Tech coaches were on hand to discuss prospects for the football team.

● Midland Chapter Holds Meet—

A buffet supper was held in Cole Park at Midland on Aug. 11 by the Midland chapter of the Texas Tech Ex-Students Association. L. C. Walker spoke at the supper and films of a Tech game were shown.

● Schenectady, N. Y., Exes Have Picnic—

In their third meeting of the year, the Tech exes of Schenectady, N. Y., held a picnic for the members and their families at Pine Grove Dairy Farm. Mrs. Wayne Rash, reporter, said, "the food was good, the day was love-

ly and a lot of talk was shared about Texas." Present at the picnic were John and Juanita Craig, Ed and Elwanda Turrentine, Wayne and Susan Rash, and C. H. and Mona Thomas.

● **Chapter Reporters**—What is happening in the other chapters? Send your chapter news to the Editor, Texas Techsan, so that we can present a well-rounded summary of activities sponsored by each chapter.

Tech Officials Attend Meet; Discuss Cotton Research

President E. N. Jones, accompanied by Marshall Pennington, vice president and comptroller, Dysart Holcomb, dean of engineering, and K. Lanse Turner, director of cotton research at Tech, were in Austin recently for a meeting of the Texas Cotton Research Committee.

The committee, which includes representatives from Tech, University of Texas and Texas A&M, met to exchange ideas and discuss their policies of operation in cotton research.

Tech's Division of Engineering is doing research on the cotton fiber and in the textile field.

The Hitchin' Post

WANDA DICKENS and Bill V. Raynor were married June 30 in a church wedding at Pueblo, Colo. She received her BBA degree from Tech in 1949. They will make their home in Colorado Springs, Colo.

Gloria Joan Hink and CHARLES OLIVER MAYO exchanged wedding vows July 14 in Little Rock, Ark. The couple will establish residence in Cedar Hill, Tex.

KATHLEEN WILLIAMSON and P. L. CROSSLEY are living in Lubbock after a July wedding in the First Methodist Church at Childress. Mr. Crossley received his BS in June. His wife was a '52 La Ventura Beauty.

Nancy Carr and EARNEST H. EADS, JR. were married in the Claude Methodist Church on July 19. He attended Tech and is now serving in the Navy.

Carolyn Burgess and JACK L. DRAIN exchanged marriage vows in Dallas on Aug. 10. He recently completed a tour of duty in Korea after flying 100 missions as a jet pilot.

Joanna Curry and CHARLES TATE GRAHAM are at home in Lubbock after their wedding on July 3. They were married in the Trinity Baptist Church in Lubbock. A geology major at Tech, Mr. Graham is employed by Lane Wells Co.

Joan Harmon and EDDIE HENDERSON, '53 graduate, were married in the Amherst Methodist Church on July 16. They will live in Lubbock.

BARBARA LOU WALTERS and JAMES H. HODGES, both Tech exes, were married Aug. 22 in the First Presbyterian Church at Galveston. He graduated from Tech and for the past two years has been attending seminary at Princeton. He will return this fall for his senior year.

PAT MARTIN and A. B. ENLOE are living in Wilcox, Ariz., following a July wedding in Lubbock. The bride was a member of Delta Delta Delta at Tech, and

the bridegroom, a graduate, was a member of Silver Key. He is in business in Wilcox.

Gaynelle Wyatt became the bride of Lloyd J. TAYLOR JR. in a July marriage in Wichita Falls. He is a Tech ex and is associated in business with his father in Wichita Falls.

CHARSLY JOAN PRICE and J. P. JONES were married in the First Baptist Church at Lubbock in July. Both are Tech exes and the bridegroom entered Southwestern Medical School in Dallas in September.

JOCELYN NELL SPEER of Amarillo and Billy Mac Shipley of Lubbock were married July 12 in Amarillo. The couple will live in Lubbock.

Joyce Graves and D. PERRY MCALKINE, were married in July in Abilene. They will live in Amarillo where he is employed by the Cooper-Woodruff Construction Co.

NANCY ANN COBB and DELWIN C. STULTS, both Tech graduates, were married in July at the St. John's Methodist Church in Lubbock. The bride received her BS and MS in education from Tech. The bridegroom received a BS in petroleum engineering and was a member of Phi Delta Theta.

Betty Jane Heckathorn and JERROLD DOUGLAS WILSON exchanged marriage vows in a July wedding at Dallas. He graduated from Tech and is now a second lieutenant in the Marine Corps.

Mamie Jean Holloway and ROY ANGLIN were married in Keller on June 20. They will make their home in Fort Worth.

LORAIN E. HENDERSON became the bride of J. S. Millsap at a July wedding in Houston. He received his commission as a first lieutenant in the Air Force in August.

FRANCES LEE OSBOURNE and Robert A. Lanier, both of Houston, were married in a July wedding at Houston. She attended

Tech and was graduated from TCU.

CAROL FOY AUSTIN became the bride of John Weldon Howle on July 13 in Carlsbad, N. M.

Martha Ferguson and CHARLES L. HARMAN were united in marriage in a July wedding at Houston.

Glenda Gae Young and EDWARD KEITH ANDERSON will make their home in Midland following a July wedding in Breckenridge.

MYRIAM LOUISE KELSO and Harold Dean Burkhardt were married recently in Lubbock in the First Methodist Church. The couple will live in San Antonio. She is a graduate of Tech.

EVELYN SUE BURKS and RONALD DEAN SMITH were married in August in St. John's Methodist Church in Lubbock. Both are Tech graduates and the bride was a member of Alpha Chi, Sigma Delta Pi and Forum. The bridegroom is employed by Hemp-hill-Wells Co.

KATHERINE STARNES of Lubbock and BILLY WAYNE SELKE of Abernathy were married in the First Methodist Church in Oakland, Calif., on Aug. 27. She is a '53 graduate and is teaching in Palo Alto, Calif. He was a senior at Tech before enlisting in the Navy, and is stationed at Oakland.

SUSIE CHRIESMAN and WALTER G. SCUDDAY, both Tech exes, were married in August at the First Baptist Church in Fort Stockton.

Mary A. Crawford and VIRGIL ST. CLAIR exchanged wedding vows Aug. 30 in the First Methodist Church at Trenton. He is a Tech grad and is employed as a geologist for an oil company in Corsicana.

Billie Joyce Houchin and JAMES CAUDLE were married in an August wedding in Lubbock. He is a civil engineering grad.

(See HITCHING POST, page 16)

Kuykendall Grant Presented To Tech

Trustees of the Kuykendall Foundation of Lubbock have announced the establishment of \$10,000 in freshman scholarships at Texas Tech beginning this fall and extending over a five-year period.

Ten scholarships, worth \$200 each, will be awarded each fall through 1957 to worthy entering freshmen as selected by the Faculty Committee on Scholarships and Awards at Tech. Primarily designed for freshmen, a student who holds a Kuykendall Foundation Scholarship may apply for the award in subsequent years.

The \$10,000 gift is one of the larger scholarship grants given Tech.

Applicants for the new awards must live in the 19-county area of the South Plains. Other qualifications include good character, citizenship and scholarship, and genuine need. At least one of the 10 winners will be a graduate of Lubbock High School, the trustees specified.

The foundation, backed by the Kuykendall Chevrolet Company of Lubbock, gave the scholarship committee at Tech freedom in giving the awards stating from eight to twelve scholarships could be given, varying in both directions from \$200 each. The foundation trustees will get regular reports on the progress of scholarship holders.

Hurd Will Finish Fresco This Fall

Peter Hurd will return to Lubbock in November to continue work on the fresco paintings in the Museum. His assistants, John Meigs and Manuel Acosta, and his wife and son will accompany him.

His work will be concentrated on five panels. The town builder and cattleman will be painted in the first panel to the right of the South Plains Gallery. In the next panel an early-day cowboy will be painted visiting with the rancher, portrayed in the adjacent part. Above the south door will appear the school teacher and to the right of the south entrance will be the pioneer woman.

Mr. Hurd plans to complete these panels this fall. Everyone is invited to watch the progress of the fresco, according to an announcement from the Museum director's office.

ELO J. URBANOVSKY

Urbanovsky Named To AIPE Committee

A Tech professor, Elo J. Urbanovsky, has been named to the four-member Education Committee of the American Institute of Park Executives. Urbanovsky is the head of the department of Horticulture and park management at Tech, and the landscape architect for the campus. He will attend a November meeting of the new committee in Ann Arbor, Mich.

The committee sets up minimum requirements for a college curriculum in park management and plans short courses for colleges where park management is not taught during the regular terms. The University of Michigan in Ann Arbor and Texas Tech are leaders in instruction in park management.

Five Sororities Pledge 140 Coeds

Texas Tech's five newly nationalized sororities have indicated that 140 coeds will be on their pledged programs for 1953.

Names of the women students who have received bids were released recently. Pi Beta Phi will pledge 26; Delta Delta Delta, 37; Kappa Alpha Theta, 33; Kappa Kappa Gamma, 23; and Zeta Tau Alpha, 21.

Two hundred and twenty-nine rushees participated in the opening phase of the rush week program. Of the 50 coeds who signed up for open rush, some participated in regular rush week and some did not.

B. A. Staff Adds 11 Faculty Members

The Business Administration Division has 11 new faculty members.

They are: James O. Teague, part-time instructor of accounting; Vernon L. Behner, part-time instructor of accounting; A. B. Segars, part-time instructor of accounting; C. W. Wilkerson, teaching fellow of accounting; Dwayne LaVerge Oglesby, assistant professor of finance;

Harry Stuart Walker, instructor of economics; Jarvis Witt, part-time instructor of economics; Jack Allen Hill, assistant professor of management; Lloyd Buzan, part-time instructor of marketing; William L. Byrd, part-time instructor of marketing; and Rex Webster, part-time instructor of marketing.

New Scholarships Open to US Grads

Marshall Scholarships, newly established by the United Kingdom to express gratitude to the U. S. for aid extended under the Marshall Plan, will be available to graduates of American colleges and universities for study in the fall of 1954.

The two-year scholarships, which will be good at any university in the United Kingdom, will be made to 12 graduates. The scholarships will be divided between four regions of the U. S., with three awards to a region. Texas is in the southern region, which has its headquarters in New Orleans, La.

Candidates must make their applications to the regional committee by Nov. 1. More information may be obtained by writing to: British Consulate-General, National Bank of Commerce Building, 210 Baronne St., New Orleans 12, La.

Pipeline Company Presents Machine

A high-pressure gas receiver has been given to the Tech petroleum department by the Trans-Continental Gas Pipeline Corporation of Houston.

The new equipment will be used in the high pressure gas measurement and regulation lab to study problems concerning the flow of gas through pipelines and the regulation and control of natural gas.

formerly with the Denver City schools.

NETTIE FAYE GARDNER is now teaching in the Wichita Falls schools. She was with the Sundown schools for five years. She obtained her M.Ed. in '52.

ROBERT E. MAHAFFEY, civil engineering graduate, and his wife the former CALLIE M. DEATON, are now living in Tusa, Okla. He is a process engineer for Stanolind Oil & Gas Co., and was transferred from Brownsville to Tulsa. His wife was a '47 journalism graduate.

'49

JACK BURKHALTER, animal husbandry grad, has assumed duties as county agent of Mitchell County. He formerly was the assistant agent in Dawson County.

FRANCIS E. MILLER, JR., electrical engineering graduate, is now employed with Chance-Vaught Aircraft in Dallas. He is senior systems engineer in the servo mechanism group. Miller's home address in 505 NE 19th, Grand Prairie.

JENNIE OZELLE GARES, sociology graduate, has received her master's degree in medical social work from Our Lady of the Lake College in San Antonio. She did her field work in the VA Hospital at Houston and is now a member of that staff.

Four '49 textile engineering graduates are now employed in foreign countries. HARRY ARTHUR is now in charge of a fiber lab for Anderson-Clayton Cotton Co. in Osaka, Japan. He is teaching Japanese cotton mill-men to buy cotton on laboratory specifications. CHARLES MARTH, JR., is also employed by the Anderson-Clayton Cotton Co. in charge of a similar office in Paris, France. ISAK PINHAS, native of Turkey, has returned to his country where he is working in the textile field. CARL SCHMIDT of Mexico City is now in Columbia, South America with the Celanese Corporation doing sales-service work.

JACK R. BAROUR, industrial engineering grad, reports that he has a new job, including a change from Capt. to Mr. Barbour. He recently received his discharge from the Air Force and will sell real estate in Las Cruces, N. M. He and his wife have four children.

JOHN M. CLARK and wife, the former MARTHA ANN HUNNICUTT, now live at Marlin where he is employed by Family Life Insurance Co. They have two children, a two-year-old son and a one-year-old daughter.

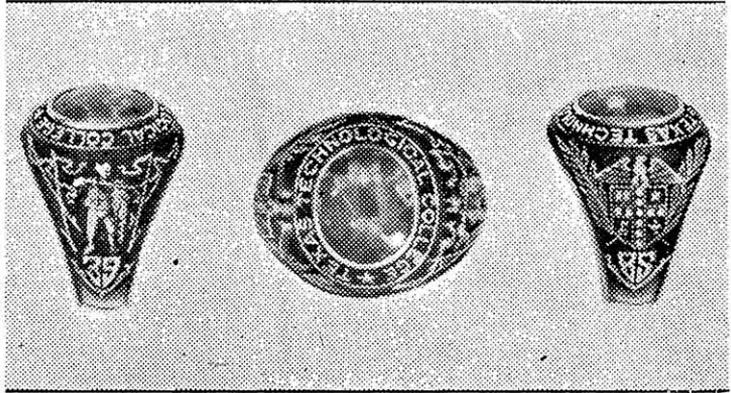

'50

NEVA JOYCE HALL has been appointed home demonstration agent for Calhoun County. A home economics education graduate, she formerly taught at Donna High School.

GEORGE H. EDWARDS, electrical engineering grad, is now working in the electric distribution department of the San Francisco Division of Pacific Gas & Electric Co.

(See BANNERS, page 20)

THE TEXAS TECHNOLOGICAL COLLEGE STANDARD RING

The Official and Standard Senior Ring of Texas Technological College is a splendid example of the present day thought in College Rings.

We offer this ring in 10 Karat Gold, set with synthetic ruby stone, and in three finishes—Dark Military Gold, Natural Gold and Green Antique.

For your convenience, the Texas Tech College Bookstore has all necessary samples and full information about the only Official and Standard Ring. However, if more convenient, write for descriptive folder. Rings can be ordered for any.

Terms are full purchase price with order or a deposit of \$5.00 with balance on delivery.

Air ROTC Officers Named

Air Force ROTC cadet officers for 1953-54 have been announced by Col. Ollen Turner, professor of air science and tactics.

The cadet colonel and commander of the wing, named last spring, is J. Brad Wilde, Wilde, senior architect from Abilene, was awarded the Air Force Association's silver medal last year as the outstanding junior student in Air ROTC. He presently serves as commanding officer of the Lewis C. Ellis Squadron of the Arnold Air Society, an honor organization of Air Force ROTC cadets.

The vice wing commander is Cadet Lt. Col. Decker McKim, senior finance major.

The wing staff is comprised of four cadet captains: Billy J. Farley, Abilene, business administration senior, adjutant; Morris W. Turner, Lubbock, marketing senior, information officer; Morlis Smith, Lubbock, petroleum geology senior, comptroller; Don Renner, Amarillo, marketing senior, operations officer.

Cadet Lt. Col. George C. Forstner commands the 821st Group. His staff includes Capt. Robert L. Jacobson, executive officer; 1st Lt. Kenneth L. Gilbert, operations officer; 1st Lt. Gene Harral, adjutant.

Cadet Lt. Col. James Wilder is commander of the 822nd group. His staff is comprised of Capt. Max von Roeder, executive officer; 1st Lt. Glendon Rose, operations officer; 1st Lt. James W. Porter, adjutant.

The squadron commanders, all with the rank of captain, are Donald Hill, Kenneth Owen, Kenneth Yancey, and Billy Wright. Band commander is Charles E. Wilson.

DER LIEDERKRANZ

Thirty-five guests attended the initial meeting of Der Liederkranz, German Club, Tuesday, Oct. 6, in the Foreign Language Playhouse.

New officers who were introduced were: Mack Noble, president; B. F. Kellum, vice president; Trixie Austin, secretary; Ray Cook, reporter. The sponsor is T. W. Alexander.

Special guest was Dr. J. C. Dowling, head of the foreign language department.

Refreshments were served and German songs were sung.

Cradle Rockers

W. Thelbert Miller and his wife announced the arrival of a son, W. Thelbert Miller, Jr., Sept. 23. They call the new son "Buddy." A '46 graduate, Miller is now an insurance agent for Prudential in Lubbock.

Lt. and Mrs. Gerald R. Loeffler, both '52 graduates, have a new baby girl, Diane, born Aug. 3. The lieutenant and his wife, the former Nell Kothmann, are now living in Ft. Belvoir, Ga.

Bill W. Squires and his wife have a new daughter, Cindy Kay, who was born in Lubbock on June 24. The family now lives in Casper, Wyo., where Bill is employed by Sinclair Oil & Refining Co. as a geologist. A '49 geology major, Bill and his wife recently returned

from Venezuela after spending two years there.

Mr. and Mrs. Jack L. Nolan announced the arrival of a daughter Nancy, on July 24. Mrs. Nolan is the former Bilye Harvey, class of 1950. They are now living in Port Hueneme, Calif., where Capt. Nolan is stationed with the U. S. Marine Corps.

Mr. and Mrs. Harold G. Lambeth of Colorado City also have a new daughter, Cynthia Ann, born Aug. 21. Mrs. Lambeth is the former Eloise Cooper, class of '48, and Harold graduated in 1950. He is employed with Shell Pipe Line Corporation in the treasury department.

A daughter, Janet Grace, was born to W. O. and Jane Boswell on May 2. Mrs. Boswell is the former Jane Boyd, class of '50, and "Dub" Boswell is a '49 graduate.

Louise and Delbert Timmons announced the arrival of a boy, Michael Dewayne on Sept. 5. They also have a daughter, Cynthia, who is two years old. Delbert is a '50 graduate and the family lives in Perryton.

Dan and Reva (Thomas) Wells have a new son, Hal Carlton, born on Sept. 15. Both father and mother were in the class of '51. They now live in Columbia, Mo., where Dan is working for an MS in CE at the University of Missouri.

Dorm Foods Staff Adds Tech Exes

Two additions have been made to the food service staff, according to Miss Shirley Schulz, director. There has also been one change in assignment.

Mrs. Ruby Swift, Tech graduate, is the new relief dietician and lives in Knapp Hall. She worked on the Texas University staff before coming here. Mrs. Daulma Stribling has been named assistant dietician for Gordon and Bledsoe Halls. She graduated from Tech in May, 1953 and lives in Gordon Hall.

Mrs. Joyce Varner is now dietician in Doak Hall after serving as dietician for Horn and Knapp Halls last year.

Army ROTC Adds Four Sergeants

Four sergeants have been added to Tech's Army ROTC staff, according to Maj. Richard E. Brown, associate professor of military science and tactics.

The new non-commissioned officers are M/Sgt. Clarence A. Parmer, M/Sgt. Gilberto M. Martinez, Sgt. Lenuel E. Ferguson, and M/Sgt. Vernon A. Peterson.

M/Sgt. Parmer, a native of Florida, has served on posts in Murmansk, Panama, Lima, the Philippines, China and Korea. He has four banks of ribbons and decorations, including the Bronze Star, both Army and Navy good conduct ribbons, the ETO ribbon and the Qualified Submariners Badge. At Tech he will serve as an instructor in military science and tactics.

M/Sgt. Martinez, a native of Spain and a former resident of Mexico City, is now an American citizen and claims McAllen as his home town. He wears three banks of decorations, including the Silver Star medal for killing 13 Japanese and knocking out a pillbox on Corregidor Island in 1945. Martinez will also serve as an instructor in military science and tactics.

A veteran of seven years in the army, Sgt. Ferguson, will serve as student records clerk in the Army ROTC division. He served in Germany and Japan prior to returning to the United States in May 1953.

PVT. CHARLES PRIDDY, JR., is shown working at the ROK Army Leader School, where he is assistant advisor to the 201st Engineer Construction Battalion in Korea. A graduate of Tech, Priddy entered the Army in September 1952. In civilian life he was a geo-physical oil and gas worker.

Lt. B. W. Armstrong and his wife, the former Virginia Hayes, are now living in Smyrna, Tenn., where he is stationed. The couple was married last June in Barstow, Tex.

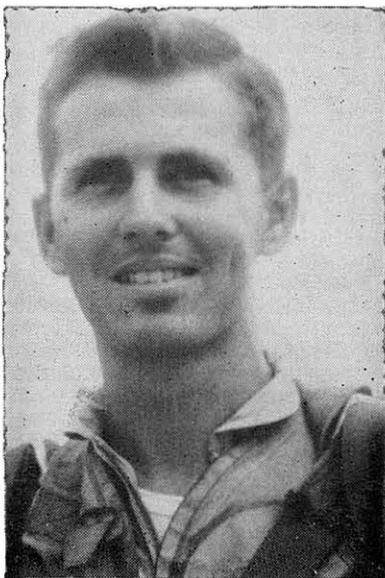

Lt. R. T. Thomas recently received the Bronze Star Medal during ceremonies in Korea. Lt.

Thomas was cited for meritorius service as instructor pilot and mess officer in X Corps' 5th Light Aviation Section. He formerly attended Tech.

* * *

Lt. Billy F. Harris, 1952 Tech graduate from Breckenridge, has recently completed an Air Force program in meteorology at the University of New Mexico. The 57 hours of courses he took during his year's stay there was equivalent to two years of college work. The ex-Texan says he has three more years to serve.

He stated that of 66 students starting the courses only 41 finished. Seven of the total participating were Texans. Lt. Harris, agriculture education graduate, stated that about half of those completing the program would be assigned in the states and the other half overseas.

GEORGE D. WENDEL, Naval Aviation Cadet, qualified as a carrier pilot after six successful landings on board the USS Monterey in the Gulf of Mexico recently. Formerly stationed at Pensacola, Fla., he is now in Naval Air Advanced Training at Corpus Chrisit. Graduation of advanced training will win him the coveted Navy wings of gold.

Business Fraternity Given Highest Rating Third Time

For the third year, the Beta Upsilon chapter of Delta Sigma Pi at Texas Tech has scored 100,000 with its national organization. It is one of 37 chapters of the 87 in the nation to receive the highest efficiency rating in the 1952-53 contest.

The three highest men in the Business Administration sophomore class last year were in Delta Sigma Pi, said Ladon Sheats, reporter.

Clois Shofner, past president, won a life membership in Delta Sigma Pi in an efficiency contest last year.

Joe and Glona (Purselley) Henderson, both '51 grads, have a boy, Lon Allen, born on Aug. 17. They are living in Fort Worth where Joe is an engineer with Convair.

DORIS NELL BETENBOUGH and JOHN E. REEVES, JR., both Tech grads, were married July 29 in Shamrock. The bride was a college favorite during her sophomore year. The bridegroom is affiliated with Halliburton Oil Well Cementing Co.

Patricia Ruth Standifer and EARL KENNETH KNIGHT were married Aug. 15 in the Calvary Baptist Church in Waco. He is employed by an Odessa technical oil tool company.

Mary Lou Boone became the bride of RICHARD SPRINGSTON on July 22 at Big Lake. The couple is living on a ranch near Ozona.

Lois Elaine Sutter and O. R. COOK, JR., were married recently in Dallas. The bridegroom is a graduate of Tech and Baylor University School of Dentistry.

PATRICIA RUCKMAN and Robert G. Jacobs were united in marriage recently in the Trinity Episcopal Church at Midland. She is a Tech graduate and was teaching in Midland before her marriage.

LYNDA VAYE WEBB and JAMES O. LAURIE were married July 24 in the First Methodist Church at Roby. She is a former Tech student and he will graduate in January.

PEGGY JOYCE TERRELL became the bride of WENDELL TOOKER recently in the First Methodist Church at Lubbock. Both are graduates and the bridegroom is engaged in farming. The

bride teaches at a junior high school in Lubbock.

SANDRA NAN TOOMBS and Thomas F. Newkirk are living in Lubbock following an August wedding. She attended Tech for two years. The bridegroom is employed as a geologist for Stanolind Oil Co.

Doris Nadine Campbell and BILLY B. HICKS were married Aug. 29 in the First Presbyterian Church at Brady. He attended Tech last year.

ROSEMARY BLOODWORTH became the bride of Ensign Lyly R. Anderson Aug. 25 at Whiteflat. She is a Tech graduate.

Dorothy Lambert and JAMES H. WELLS exchanged vows recently in the Central Baptist Church at Lubbock. The bridegroom was graduated from Tech.

DOROTHY MARIE WYNN and WELDON FRANK GASTON were married recently in the Broadway Church of Christ at Lubbock. The bride has been employed with the Veterans Administration. The bridegroom received his B. B. A. in management from Tech and is now a senior law student at the University of Texas.

JUANELLE TALBOTT and Lt. Nels Thomsen, Jr., were married recently in the chapel at Hunter Air Force Base, Savannah, Ga. She is a graduate of Tech.

KATHERINE ADAMS and James Brothers were married in Ranger Aug. 15. She received her BA from Tech. The couple will live in Monahans.

MARVEL GIBNER and Gene E. Steed were married Aug. 16 in the First Methodist Church at Spearman. The bridegroom is a Texas A&M graduate. The bride is a '53 grad from Tech.

ALENE CARSON and GERALD ALLCORN, both Tech exes, were married Aug. 15 in a lawn wedding at the home of the bride's parents in Olton.

Coleen Smith and MELBURN W. PALMER were united in marriage recently in Colorado City.

KATHERINE ELIZABETH ADAMS became the bride of James E. Brothers recently at the First Baptist Church in Ranger. The couple will live in Monahans.

JOYCE RUTH CARTHEL and CHARLES E. WILSON were married Aug. 15 in the West Side Church of Christ at Lockney. The bride received her bachelor of music degree from Tech and is new teaching in the Lubbock school system. The bridegroom is attending Tech and is employed by Scoggins-Dickey Buick Co.

MARY FRAN STEVENS and DON JOHNSON, both Tech grads, were married recently in the First Methodist Church at Coleman.

PEGGY JOYCE ANDERSON and William Thomas Williams were married recently in the chapel of Memories at Abilene.

Joy Younger became the bride of ROBERT C. BROOKSHIRE in a ceremony at the home of the bride's parents in Abilene Aug. 7. A former Tech student, the bridegroom is now a second lieutenant

 ANN JOHNSON and Robert K. Landers were united in marriage recently in the First Baptist Church at Muleshoe. A sergeant in the Army, the bridegroom is stationed at Spokane, Wash., where the couple will make their home.

ELEANOR LINCOLN, speech graduate, is now teaching school at Brownfield.

Miller New Coach For Frosh Cagers

Bill Miller, son of W. A. Miller, director of athletics and head basketball coach at West Texas State College of Canyon, has accepted the position of assistant basketball coach at Texas Tech. He will be working with the first-year men.

Miller recently has served in the Air Force as a first lieutenant. Before entering the service he was a four-year letter man at West Texas. He later coached the Dalhart High School team and served as base athletic director of Amarillo Air Force Base where he was player and coach of the Amjets.

"We are very fortunate in obtaining Miller's service. He will help us a lot in the stepped up schedule of this and future seasons," said Coach Robison.

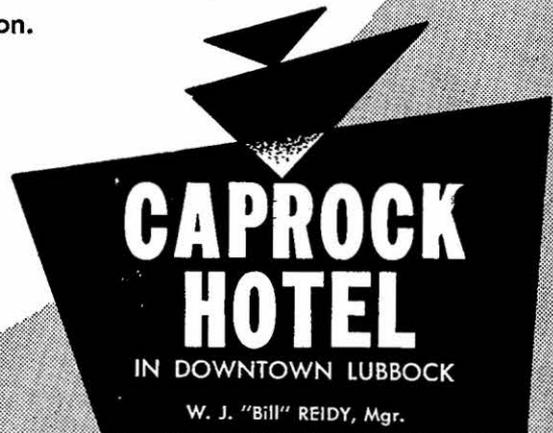

Two other journalism grads are now employed on Texas daily papers. ANN BRYAN is with the San Angelo Standard Times and KEITH MCMILLIN is chief photographer for the Big Spring Daily Herald.

MEET YOU AT THE CAPROCK...

FORMERLY THE HILTON

Tech Exes have been making this their headquarters for Homecoming for many years, while the hotel was being operated as the Hilton.

Little has been changed except the name, and we invite you to make this your home for the Homecoming, or any other time you're in Lubbock.

Ex-Student's Association?

(Editor's note: Knowing that the Ex-Students' Association of Texas Tech College, if it is to render an effective service to the College, needs loyal members and active chapters throughout Texas as well as the entire United States, this article is written to furnish information to all former students of Tech who may wish to become better acquainted with the Association, its organization, and its purposes.)

The Ex-Students' Association of Texas Tech, as the name implies, is an organization of former students. Membership is open to all students who have been enrolled in any of the regular college courses of Texas Tech, and all persons who have received advanced or honorary degrees from the college. The Association exists because it is an expression of college loyalty which is the most human and American characteristic of the alumni and ex-students of any American college or university.

The organization of the Ex-Students' Association of Tech consists of the Association Council, the Executive Board, Athletic Council Representative, and local chapters. The governing body of the Association is the Association Council. Its membership includes one representative from each of the Association Districts, together with an ex-officio membership of each local chapter President, the

members of the Executive Board, and the elected officers of each senior class and the president of the junior class. There are 29 Association Districts in Texas and seven Districts over the rest of the U. S.

The Council has a double responsibility. Besides being the governing body, it is responsible for the management, policies and program of the Association. It is the representative of the Association among the clubs, districts, and groups from which its members are drawn. The Council endeavors to assist the College and the Association in every possible manner and through its members secure the interest and co-operation of other members of the Association and friends of the College.

Nine members are elected to the Executive Board by the Council at its annual meeting. The President, vice presidents, immediate past President, Representative to the Athletic Council, and the Executive Secretary of the Association are members of the Board. The remaining three members, or directors, are elected to serve for three years—one elected each year to provide overlapping terms. The Board carries on the affairs of the Council between meetings, makes and presents to the Council an annual report and a budget of estimated revenue and expense, and directs and supervises the detailed features of the

Association and its program.

The Executive Secretary-Treasurer performs such duties as the Executive Board may determine. He is the executive officer of the Association, attends all meetings of the Board and Council, and keeps all records and proceedings thereof. Under the direction of the Association, he conducts the correspondence, is responsible for the property of the Association, keeps a mailing list of former students and graduates, is in charge of all departments of the Association, co-operates with the College, and in a general way carries out such duties as may be assigned to him by the Executive Board. He is responsible for the receipt, disbursement, and proper acknowledgement of all moneys or other contributions and for the adequate accounting of the same.

The purpose of the Association are many and varied. Some of these are: to maintain the interest of the former student in Tech and Ex-Students' activities; to acquire a better understanding of the College's aims and ideals; to serve as a public relation organization between the College, former students and their respective communities; to serve as a publicity agency in interesting people of wealth in Texas Tech; to interest worthy students in attending Tech; and in general, to mobilize former students who have the desire to assist in satisfying the needs of their College.

One of the most important factors in a successful Association is the local chapter. Through its local chapters, or Texas Tech Clubs, the Association furnishes a meeting place where alumni and ex-students may gather for sociability and fellowship, renew old friendships and make new friends, all of whom have had similar experiences at Texas Tech. Active local chapters are an important need of the Association and of the College.

DON HANCOCK, law and government grad, has a new address in Dallas: L. E. Phontome Lawyers Inn, SMU.

Second Lieutenant DELTA DAVID WHITE is now in training at Fort Monmouth, N. J.

Several '53 journalism graduates are working at the Lubbock Avalanche-Journal in Lubbock. They are PAT EDWARDS, THELMA-DEANE HUTCHINS, MRS. DONALD (DOROTHY KENNEDY) THOMPSON, MRS. ROBERT (ELIZABETH STANLEY) CORBETT, AND DONALD BYNUM.

FOUR NEW FRESHMEN AT TECH this fall try on their "slime" caps. The lucky freshman boy, John Marse of Plainview, helps the girls adjust their new headpiece. The girls are, left to right, Betty Wood of Wellington, Donnie Gaunt of Midland, and Sammie Davis of Crane—a brunette, a blonde and a redhead. This year's freshmen class is the third largest in the history of Tech.

Museum Displays Washington's Plate

Rare plates from the collections of Mrs. Vera Maxey and Mrs. F. W. Groce are on display in the historical gallery of the Museum. This hobby show will continue through December.

Included in the collections is a plate from Martha Washington's dinner service. The plate, owned by Mrs. Maxey, is said to have been used by the First President and his lady at Mount Vernon.

One of Mrs. Groce's selections depicts the appearance of the Tech Administration Building before construction. G. K. Watkins Jewelry gave these plates away in 1923.

Mrs. Maxey's collection includes one of six plates made especially for the Texas Centennial in 1936.

The oldest plate of the collections dates back 125 years. A friend gave it to Mrs. Maxey; the friend's grandmother had won it in a spelling match.

She was also the first person to receive a Ph.D in chemistry at Tech. Dr. Fain received a BA in English from the University of Texas in 1947 and BA, MS, and Ph.D. degrees in chemistry from Tech in 1948, 1951 and 1953, respectively.

Sororities To Colonize

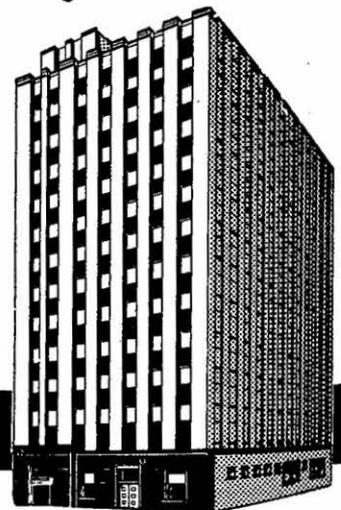

Three more sororities have accepted invitations to colonize at Tech: Alpha Phi, Sigma Kappa, and Gamma Phi Beta. Alpha Phi and Sigma Kappa have been invited to enter the campus at some time during the 1954-55 college year, the exact date to be determined later. Gamma Phi Beta will colonize during the 1955-56 college year.

Representatives of Alpha Chi Omega and Delta Gamma, two sororities who accepted invitations earlier, were to be on the Texas Tech campus during October to begin colonization procedures, according to Dean of Women Marjorie Neely.
