July 25th 1839

- Has commenced the removal of the Texas Reservation Indians to some district

Hrazos Agency Texas
July 25 1889

Sir:

Agreeable to promise I have to inform you that I have finally made all my arrangements for the removal of the Indians to your reserves. My transportation is now arriving and I shall leave within the next 4 days with about 1050 Indians from this reserve and 380 from the upper reserve. A party of the escort has arrived and we will commence to freight our Carts tomorrow.

We have been much embarrassed on account of the citizens continually threatening the Indians, and our Governor has sent one hundred men who act as spies around the reserves and prevent the Indians from gathering their stock, they will consequently lose many of them.

We will certainly be on the road by the 30th and make the trip in 15 days from the time we start.

I hope you will have supplies ready by the time we arrive, I shall bring only 20 days rations with me.

I have just learned that the Comanches have already had a skirmish with the State Troops, and one of each killed and a small number wounded. I will write you the particulars as soon as I learn them. I much fear that we will yet have much trouble before we can get out of Texas.

I will write again just as I leave, I hope you will not fail to have your deputy on hand on my arrival, if you

can't come yourself.

Since writing I have received Agent Leeper's report, I send a copy. You will perceive ^{that} it is sufficient excuse for murder by the State Troops to find an Indian outside the reserve.

Very Respectfully

Yours obt. Servt.

Robt. S. Mighels
