Published online: 17 May 2024

Following publication of the original article, the authors reported that the reference in the second sentence of the Introduction cites the wrong article. Reference 1 cites the correct article in other instances in the article.

The updated text with the correct reference should read as follows:

The prevalence based on real-world diagnoses rates of TD has increased from 6.88 per 100,000 patients in 2016 to 11.53 per 100,000 in 2020, which may be related to an aging population, increased use of antipsychotic agents, and improved clinician awareness of TD [1].
